					<p>and functional expansion periodically due to evolving program needs. It is also anticipated that additional service needs will arise to complete systems requirements for State and Federal patient care reimbursement regulations and direct patient care clinical services. The requested support services will also provide in-depth technical and system training for DPH information technology, clinical and administrative staff for on-going support and utilization of these systems. In addition, the Contractor will also provide Web-based remote data processing capabilities for healthcare data exchange required to link all provider sites and provide integrated clinical, demographic, and financial information across the Community Health Network system of the Department of Public Health. This applies only to the estimated professional services portion of the agreement.</p> <p>Scope Change: This modification adds capacity necessary to professional services to allow the Department to begin the transition to a new Electronic Health Record while maintaining the existing Invision application, the current legacy application which supports clinical (lifetime clinical record), and financial operations (\$500 million in billable revenue).</p>			
40829 - 15/16 - MODIFICATIONS	August 1, 2016	PUBLIC HEALTH -- DPH	\$100,000	\$199,000	The contractor will provide access to a fully hosted internet application that is used to maintain facility operations support; integrate, analyze and manage facility resources and personnel; assist with achieving compliance and tracking regulatory standards.	06/01/2021	09/01/2023	REGULAR
