46785 - 16/17	AIRPORT COMMISSION	\$13,000,000.00	The San Francisco International Airport ("Airport") is seeking to replace the existing Common Use Self Service ("CUSS") Passenger Processing system that was originally installed in 2000 and later upgraded in 2007 and 2015. CUSS Passenger Processing systems are specialized systems used solely by airports to allow airlines to share common airport resources used for passenger processing, such as passenger check-in, baggage processing, passenger boarding. The system consists of four tightly integrated core vendor-developed components: 1) virtualized Common Use application, 2) Self Service Kiosk application, 3) Resource Management application, and 4) Airport Operational Data Base. The services will also include supporting the Information Display Systems (IDS), which are used to display flight and baggage information. The Contractors will be responsible for designing, implementing and supporting the system.  The total cost for the systems is \$13,000,000. Of that cost, \$6,000,000 is for the professional services maintenance and support of end user equipment, such as computers, printers, scanners and readers. The remainder of the money is anticipated for the purchasing of equipment.	July 1, 2017	June 30, 2022	REGULAR
