Subject: Personal Services Contracts Approval Request

This report contains seven (7) personal services contracts (PSCs) in accordance with the revised Civil Service Commission (CSC) procedures for processing PSCs that became effective on July 1, 1996.

The services proposed by these contracts have been reviewed by Department of Human Resources (DHR) staff to evaluate whether the requesting departments have complied with City policy and procedures regarding PSCs. The proposed PSCs have been posted on the DHR website for seven (7) calendar days. CSC procedures for processing PSCs require that any appeal of these contracts be filed in the office of the CSC, Executive Officer during the posting period.

No timely appeals have been filed regarding the PSCs contained in this report. These proposed PSCs are being submitted to the CSC for ratification/approval.

DHR has prepared the following cost summary for personal services contracts that have been processed through the Department of Human Resources to date:

PERSONAL SERVICES CONTRACT SUMMARY

DATE: Sept. 15, 2010

DEPARTMENT NAME: AIRPORT COMMISSION

DEPARTMENT NUMBER: 27

TYPE OF APPROVAL: ☑️ EXPEDITED ☑️ REGULAR (OMIT POSTING ___) ☑️ CONTINUING ☑️ ANNUAL

TYPE OF REQUEST: ☑️ INITIAL REQUEST ☑️ MODIFICATION

TYPE OF SERVICE: Master Architect Services for the Replacement Airport Traffic Control Tower (ATCT)/Terminal 1 Complex Redevelopment Program

FUNDING SOURCE: Federal Appropriation Funds

PSC AMOUNT: $9,700,000 PSC DURATION: 11/1/2010 to 10/31/2020

1. DESCRIPTION OF WORK

A. Concise description of proposed work: The Master Architect will provide for a comprehensive programming analysis, architectural design and engineering services necessary to develop the planning and integrated conceptual design of the Replacement ATCT/Terminal 1 Complex Redevelopment Program. The Master Architect will also provide 45% complete bridging documents, in accordance with FAA standards, for the replacement ATCT, which will be completed through a design-build process.

B. Explain why this service is necessary and the consequences of denial: A structural analysis determined that the existing ATCT was seismically unsafe, and that a retrofit was not feasible. The FAA determined that a replacement ATCT was urgent. The Airport is committed to completing the bridging documents within one year as part of the FAA’s funding agreement for the replacement ATCT. The replacement ATCT must be integrated functionally and aesthetically with the future Terminal 1 Complex Redevelopment Program. A significant and complex short term effort by a large specialized staff of programmers, architects and engineers is required to meet the special needs of the Program. The Master Architect will also provide on-going technical oversight once the bridging documents have been completed. The consequences of denial include prolonging the public safety risk, jeopardizing FAA funding, and delaying the process to establish requirements for the future Terminal 1 Complex Redevelopment. The existing Terminal 1 Complex is obsolete and at the end of its useful life.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

This is a new request.

D. Will the contract(s) be renewed? The Airport may modify the contract to review future Terminal 1 Complex Redevelopment designs by others.

PSC FORM 1 (9/96)
3. **DESCRIPTION OF REQUIRED SKILLS/EXPERTISE**
   A. Specify required skills and/or expertise: The Master Architect must provide specialized programmers, architects, and engineers to comply with unique FAA standards for the replacement ATCT, and for large airport terminal projects, including programming analysis, future growth forecasts and simulations, baggage handling systems, common use passenger processing special systems, phasing to maintain flight operations, and cost and schedule analysis.
   B. Which, if any, civil service class normally performs this work? Architectural (5268) and engineering (5201-5241) classes exist but their expertise is not applicable to ATCT and large airport terminal projects. City Project Managers will supervise the contracted work.
   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No

4. **WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM**
   A. Explain why civil service classes are not applicable: Civil service classes do not have the specialized experience and expertise required for the Replacement ATCT/Terminal 1 Complex Redevelopment Program, or the large staff required on a short term basis. The Airport will use qualified Airport project management staff to manage the Program. Airport architects, engineers, operations, technical and maintenance staff will contribute to establishing program needs and design decisions. City architects and engineers may be integrated with the consultant staff if appropriate and available. As discussed with Don Eng of DPW on December 18, 2009, Office Engineers may be available to work on a future Airport projects and we will coordinate with Don when a project is identified.
   B. Would it be practical to adopt a new civil service class to perform this work? Explain. No. San Francisco will require specialized ATCT experience only once. The large airport terminal programming and conceptual design program will require a substantial mobilization of specialized staff over a short period, and a subsequent demobilization. There are no ongoing staff requirements for a new civil service class.

5. **ADDITIONAL INFORMATION** (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees? Yes ☐ No ☑
   B. Will the contractor train City and County employees?
   • Describe the training and indicate approximate number of hours.
   • Indicate occupational type of City and County employees to receive training (e.g., clerks, civil engineers, etc.) and approximate numbers to be trained.
   C. Are there legal mandates requiring the use of contractual services? Yes ☐ No ☑
   D. Are there federal or state grant requirements regarding the use of contractual services? Yes ☐ No ☑
   E. Has a board or commission determined that contracting is the most effective way to provide this service? Attached is Airport Commission Resolution No. 10-0202 Yes ☐ No ☑
   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department? An RFP is being conducted and it is unknown at this time the results of that process. Yes ☐ No ☑

PSC FORM 1 (9/96)
AUTHORIZATION TO ISSUE A REQUEST FOR PROPOSAL FOR PROFESSIONAL SERVICES FOR CONTRACT 9015, MASTER ARCHITECT FOR REPLACEMENT AIR TRAFFIC CONTROL TOWER/Terminal 1 Complex Redevelopment Program

WHEREAS, the Airport and FAA agree that it is critical to replace the existing FAA air traffic control tower (ATCT) at SFO as soon as possible in order to provide for a seismically sound ATCT not at risk for major damage during a significant seismic event; and,

WHEREAS, the FAA has accepted the Airport’s proposal that the FAA and the Airport develop a partnership which provides for FAA oversight of the project and assigns project management, design, and construction responsibilities of the new ATCT and related FAA facilities (FAA Facilities) to the Airport in order to achieve shared objectives, including:

- fast-tracking of the project through a design-build process;
- continuity of implementation which would not be hindered by the Federal rules which require that the FAA obtain all necessary federal appropriations prior to proceeding with construction;
- ensuring the proper integration of the FAA Facilities with the future Program; and,
- ensuring that the construction is properly coordinated with Airport and airline operations, given the operationally restrictive setting for the new FAA Facilities due to terminals, roadways and airfield operations on all sides of the site; and,

WHEREAS, the Airport and FAA are currently negotiating an “Other Transaction Agreement”, or OTA, which defines roles and responsibilities for this partnership and provides for Federal funding for 100% of the costs for the FAA Facilities, pending approval by the Board of Supervisors; and,

WHEREAS, the Airport will issue a RFP for design services, with initial tasks including: (1) developing a conceptual plan for the Terminal 1 Complex with the integrated FAA Facilities; and, (2) preparation of further-developed design documents for the FAA Facilities and Terminal 1 facilities residing within the footprint of the FAA Facilities and sharing infrastructure and systems (Integrated Facility); and,

WHEREAS, the Task 2 deliverables will be used as “bridging documents” in the future RFQ/RFP process for design-build services to complete the design and construct the Integrated Facility; and,
WHEREAS, the Airport will not proceed further with major components of the Terminal 1 Complex Redevelopment Program until such time that forecast additional gate capacity is identified, in accordance with the Airport policy for proceeding with the Terminal 1 Redevelopment Program, adopted by the Airport Commission by Resolution No. 10-0120; and,

WHEREAS, the Airport will convene a selection committee to evaluate the proposals meeting the minimum qualifications, check references, and perform interviews with key personnel in order to score the teams and develop a ranking; and,

WHEREAS, Staff will present the highest-ranked team to the Commission with a recommendation to approve the selection and authorize negotiations of a professional services agreement; and,

WHEREAS, following successful negotiations, Staff will return to the Commission with a recommendation to award Contract 9015, Master Architect for Replacement Air Traffic Control Tower/Terminal 1 Complex Redevelopment Program; and,

WHEREAS, the preliminary estimate for these services is $9.0M, with a proposed contract duration of up to ten (10) years; and,

WHEREAS, due to the presence of federal funding, a federal disadvantaged business enterprise program will be developed to ensure the participation of local and small disadvantaged businesses; now, therefore be it

RESOLVED, that the Commission approves this resolution authorizing Staff to issue a Request for Proposal for Contract 9015, Master Architect for Replacement Air Traffic Control Tower/Terminal 1 Complex Redevelopment Program.

I hereby certify that the foregoing resolution was adopted by the Airport Commission at its meeting of JUN 01 2018

Secretary
Hi Don,

We are modifying our CM contract for the Terminal 2 Renovations project, for 2010 services.

We need to go back to the Civil Service Commission to increase the approval amount, from $14M to $21M. This provides for our required services of almost $5.9M in 2010, and $500k in 2011. It also provides for approx. $1.2M in contingency for any close-out issues, or schedule delays.

The project is completed in early 2011, excepting close-out.

Local 21 has requested that we contact you regarding DPW’s ability to support our project. We have a very specialized need in CM services. Currently, Airport staff are part of the CM team, and are fulfilling the Resident Engineer and Inspector positions.

The positions filled by consultant staff include: MEP RE, Special Systems RE, Baggage Handling System RE, Office Engineer, Project Coordinator (formerly Airport staff). We also have a host of Specialty Subconsultants on the CM team for security, special systems/BHS auditing/peer review, signage/graphics, risk analysis and estimating.

We also have a T2 Scheduler, Cost Engineer and Document Control specialist.

I understand that you have an Office Engineer available, who worked on an Airport project previously. However, I understand that they are at a Full Engineer classification. As discussed, we are budgeted at $45/hour, whereas 5211’s are at $57 to $69/hour.

Although there is not a fit now, we will contact you in the future for upcoming opportunities at SFO.

Regards,
Ivar

1. DESCRIPTION OF WORK

   A. Concise description of proposed work:

      The consultant will have the lead role in the development and administration of a promotional exam for the Fire Department rank of H-30 Captain, and defend that selection process against legal challenge as necessary.

   B. Explain why this service is necessary and the consequences of denial:

      Due to the litigious nature of Fire Department exams, it is imperative to retain an expert who can successfully defend selection processes. Absent successful defense against legal challenge, the Fire Department would be unable to establish eligible lists and promote candidates.

5. F. Will the proposed work be completed by a contractor that has a current personal services contract with your Department?

There are a limited number of contractors who will provide the service that we are requesting, and it is likely that the contractor we are currently working with will respond to the Request for Proposals. However, until that process is complete, we will not know which contractor is awarded the contract.

TYPE OF SERVICE: Software Maintenance for the Early Intervention System

FUNDING SOURCE: General Fund

PSC AMOUNT: $180,000
PSC DURATION: 6-1-10 – 5-31-17

1. DESCRIPTION OF WORK
   A. Concise description of proposed work: The installation of the Early Intervention System software application and database has been completed. The maintenance of the system will begin with a one year warranty and then six years of maintenance, extending the duration of the contract through 5-31-17. The maintenance will include correcting errors, defects and malfunctions of the system. Support will be provided via telephone and on line access. On site service will also be provided as needed in the detection and correction of viruses to the system. Regular software updates will also be provided by the vendor.

   B. Explain why this service is necessary and the consequences of denial: This service is necessary in order to maintain the software that is the exclusive property of the vendor who provided the application. If denied the system would be at risk of breaking down and thus rendering the system useless, as no other vendor other than the vendor who developed and installed the system would be able to provide the needed repairs and software updates.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number): The system was installed through PSC 4076-06/07.

   D. Will the contract(s) be renewed: Unknown at this time.

PSC FORM 1 (9/96)
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise: Complete knowledge of the software platform provided by the vendor, participation in the company's product lifestyle, and specialized knowledge of Law Enforcement performance criteria. Knowledge of the maintenance procedures for dealing with the proprietary software that the system runs on.

   B. Which, if any, civil service class normally performs this work? 1061, IS Program Analyst-Assistant, 1062, IS Programmer Analyst, 1063 IS Programmer Analyst – Senior, 1064 IS Programmer Analyst - Principal would perform this type of service if the software was not proprietary to the vendor who installed and developed the system.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable: The software being maintained is the exclusive property of the vendor who it was purchased from and only that vendor's employees can update and maintain the software and support the software bug fixes.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain. No, due to the proprietary nature of the software involved, only the vendor who the system was purchased from employees can perform the service. If an outside technician were allowed to work on the system then all warranties would be void.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees? Yes No

   B. Will the contractor train City and County employees?
      • Describe the training and indicate approximate number of hours.

1. DESCRIPTION OF WORK
   A. Concise description of proposed work: Installation of a software application and database that will record and track the occurrence of various "indicators", such as but not limited to citizens complaints, use of force, internal affairs complaints, and accidents as they occur in the course of an individual officers daily performance.

   B. Explain why this service is necessary and the consequences of denial: This service is necessary to assist the Police Department in tracking at risk behavior and using intervention strategies to improve behavior and performance. The system is supported by the Mayors Office and the Police Commission. If denied, the Police Department would have a difficult time tracking at risk officers behavior.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number. N/A, service has never been provided in the past.

   D. Will the contract(s) be renewed: No.

3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise. Complete knowledge of the software platform, participation in the companies product lifecycle, and specialized project knowledge of Law Enforcement performance criteria.

   B. Which, if any, civil service class normally performs this work? The 106X series would perform this work if they were developing the software for specialized non COTS software for the City.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable: The product that will be used is the exclusive property of the vendor and only the vendors employees will update and maintain software patches, add features and enhancements, and support the software bug fixes.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain: No, this would not be practical in the short term or long term interest of the technology classifications. Civil Service classes 1023, 24, 42, and 43 would be used to support the operations of the servers and perform system administration after the project is completed.

5. ADDITIONAL INFORMATION (if "yes", attach explanation)

1. DESCRIPTION OF WORK
   A. Concise description of proposed work: Contractor will provide technical support via telephone and E-Mail. Contractor will also provide monitoring of the system with proactive remedies to any problems that arise along with software updates and up grades. Refresher training, forensic reports and expert witness testimony will also be provided. Contractor will also provide repair and replacement for any components damaged by weather, problems with telephone line connections, problems with unforeseen growth of foliage and any other causes that are uncontrollable by the contractor.

   B. Explain why this service is necessary and the consequences of denial: This service is necessary in order to keep the gunshot detection system fully maintained and in good working order. If denied, the system would become inoperable and thus useless as tool that ensures the safety of the citizens of San Francisco.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number): This service has not been approved through a previous PSC. 3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise: Knowledge and skill to maintain a proprietary gun shot
detection system including all software and hardware components of the system.

   B. Which, if any, civil service class normally performs this work? There are no civil service classifications
   that perform the specified work for the proprietary software maintenance including upgrades and
   updates. 1061 IS Programmer Analyst – Assistant, 1061 IS Programmer Analyst, 1063 – IS
   Programmer Analyst – Senior and 1064 IS Programmer Analyst – Principal would perform this type
   of service if the software was not proprietary to the vendor who the system was purchased from and

(18) ADJOURNMENT
Vicky,

We will agree to approve a waiver of the 30 day notification period in this case. We view this as an exception and request for future PSCs that the 30-day notification period remain in effect. Thank you.

Subject: Waiver of 30 day notification

Joe,

The Arts Commission is entering into a contract with the San Francisco Symphony and we are a few days short of the 30 day notification period. Since it’s pretty clear that City workers could not perform these duties, it would be great if you could approve this by responding to this email. Maria Ryan is on a deadline to post the agenda by Friday so responding as soon as possible would be very helpful.

Thanks so much and if you have any questions please feel free to contact me.

I'm ok with the 30 day issue.

Per our conversation, please resend the PSC attention to me.

Thanks,

Hi Jonathan,

I thought I might be able to catch you via email. We are entering into a contract with the San Francisco Symphony and I'm hoping to get a waiver of the 30 day notification requirement. We submitted the information to SEIU on September 16 and the meeting will be on October 18, but due to processing time the Human Rights Commission does not consider this 30 day notice. To get on the agenda I just need an okay from you, but I need it by today.

The first concert with the Symphony is at the end of October, so we need to be on the agenda for the October 18 meeting to have the contract in place before then. Please let me know if you have any questions.

Thanks!
