INTRODUCTION

Classes 7398 Apprentice Cement Mason I and 7399 Apprentice Cement Mason II are the entry level training classes. These classes exist to develop the competencies required of a journey level Cement Mason, while working under close guidance and direct supervision. Apprentice Cement Masons perform routine tasks in support of journey level Cement Masons.

Assigned duties increase in scope and difficulty as the Apprentice Cement Masons demonstrate skills in performing diverse duties that are learned through an on-the-job training rotation and Joint Apprenticeship Training Committee School through the recognized employee organization. Work is performed under direct supervision and is evaluated on the basis of progress in a structured work experience training program.

Demonstrated competence and successful completion of the structured training program leads to meeting the minimum qualifications for the promotional class of Cement Mason. Apprentices are initially hired in classification 7398 Apprentice Cement Mason I. Upon completion of two years of service in this classification, apprentices are to be appointed to class 7399 Apprentice Cement Mason II. Failure to achieve demonstrated competence and acceptable work habits or the inability to complete the training program within four (4) years results in automatic loss of employment in the 7398 and/or 7399 classes. The appointing officer or designee may provide an extension of time to complete the training program; however, the extension must be in writing.

Under direct supervision, Apprentice Cement Masons will learn to perform various types of cement work. Responsibilities include safety training, framing, preparing and securing job sites, estimating, removing debris; mixing, pouring and finishing concrete, demolishing concrete structures; operating and maintaining hand and power tools, performing routine maintenance of tools and equipment. Performs related duties as required.

DISTINGUISHING FEATURES

Classes 7398 Apprentice Cement Mason I and 7399 Apprentice Cement Mason II are the entry-level trainee classifications which work as part of a crew under the supervision of a Cement Mason. Incumbents receive on-the-job training in cement masonry while enrolled in a Joint Apprenticeship Training Committee School through their recognized employee organization.

These classes are distinguished from class 7311 Cement Mason by the structured training program requirements, the close supervision received, and the developmental nature of the class, whereas the 7311 Cement Mason is skilled to independently perform the full range of cement masonry. Apprentice Cement Masons perform routine tasks in a learning capacity in support of journey level Cement Masons. Responsibilities increase in scope and difficulty with demonstration of competence and skills in performing the diverse duties. Work is performed under close guidance and direct supervision and is evaluated on the basis of progress in a structured work experience training program.

Incumbents in this class are Exempt City employees, serving at the pleasure of the appointing authority, and participate in a formal alternative work program which provides experience and
training needed to qualify to compete for positions in class 7311 Cement Mason.

SUPERVISION RECEIVED/EXERCISED:

Receives direct supervision from 7227 Cement Finisher Supervisor I and 7211 Cement Finisher Supervisor II. Receives technical oversight, guidance and lead supervision from 7311 Cement Mason.

This class does not supervise.

MAJOR, IMPORTANT, AND ESSENTIAL DUTIES

According to Civil Service Commission Rule 109, the duties specified below are representative of the range of duties assigned to this job code/class and are not intended to be an inclusive list.

1. Participates in a Joint Apprentice Training Committee Apprenticeship School through the recognized employee organization.
2. Communicates and learns to work with supervisors, journey level cement masons and other co-workers. Learns to follow orders and directions.
3. Prepares job sites by setting up safety tripods and scaffolding; may secure confined space job sites.
4. Performs mixing and applying toppings, colors, grout, epoxy overlays, or waterproofing compounds in accordance with job specifications.
5. Performs framing work, including placing and finishing curbs sidewalks, gutters, disability access ramps and various other concrete structures.
6. Participates in demolition of flat work and concrete structures with the proper use of pneumatic tools, such as chipping gun, jackhammer, concrete saw, and other power equipment.
7. Pour and finishes concrete sidewalks, curbs, gutters, streets, disability access ramps, and steps using screeds, trowels and floats.
8. Identifies and uses various hand and pneumatic tools and power equipment; assist in operating ditching machines, trenching machines, or similar equipment; cleans and otherwise maintains tools and equipment; and perform general maintenance.
9. Learns to order materials and estimate concrete; assists in laying out work for new construction or repair by measuring and calculating the correct type, materials and supplies necessary to complete the job.
10. Loads and unloads materials, supplies, and equipment on and off trucks.
Title: APPRENTICE CEMENT MASON I  
Job Code: 7398

11. Learns safety procedures and use of safety equipment, preparing jobsite, proper concrete and debris disposal, tapering traffic, and pedestrian detouring.

12. Basic learning of the scope of concrete work performed by the Department of Public Works Cement Shop.

13. Performs related duties and responsibilities as assigned.

IMPORTANT AND ESSENTIAL KNOWLEDGES, SKILLS, AND ABILITIES

Knowledge of:

Basic arithmetic, including measuring, counting, addition, subtraction, multiplication and division, calculate ratios, percentages and dimensions without the aid of a calculator.

Skills to:

Operate hand, pneumatic and power tools, equipment and materials used in cement work, including chipping gun, jackhammer, concrete saw, screeds, trowels, floats, ditching and trenching machines; operate two-way radios, cell phones and pagers; operate motor vehicles.

Ability to:

Learn of the scope of concrete work performed by the Department of Public Works Cement Shop; learn general cement mason skills, tools and equipment; learn methods and procedures used to pour and finish concrete; learn safety procedures; follow oral and written instructions; cooperate with others in the performance of duties; write and speak in a manner that is easily understood; read and write English; maintain effective working relationships.

Physical Ability to:

Climb ladders; crawl on hands and knees; lift objects that weigh up to ninety (90) pounds and carry them for distances up to fifty (50) feet; lift, drag and/or move with assistance large and/or heavy equipment to truck bed level; bend the knees, waist and back; stoop or squat; ability to kneel, bend and squat for considerable periods of time; remain in uncomfortable positions for extended periods of time.

MINIMUM QUALIFICATIONS

These minimum qualifications establish the education, training, experience, special skills and/or license(s) which are required for employment in the classification. Please note, additional qualifications (i.e., special conditions) may apply to a particular position and will be stated on the exam/job announcement.

Education:

None.
Title:  APPRENTICE CEMENT MASON I
Job Code:  7398

Experience:

None.

LICENSE AND CERTIFICATION

Requires possession and maintenance of a valid Class C California driver license.

SUPPLEMENTAL INFORMATION

Appointees to this class must be members of the Plasterers’ and Cement Masons’ Local #300 Union. Non-member applicants will be required to join the Plasterers’ and Cement Masons’ Local #300 Union prior to appointment.

Working Conditions:

The nature of the work may require exposure to inclement weather conditions and may require exposure to hazardous materials and/or conditions.

PROMOTIVE LINES

To: 7399 Apprentice Cement Mason II

ORIGINATION DATE:  September xx, 2012

AMENDED DATE:

REASON FOR AMENDMENT  To accurately reflect the current tasks, knowledge, skills and abilities defined in the most recent job analysis conducted for this job code.

From: 7398 Apprentice Cement Mason I

ORIGINATION DATE: September xx, 2012

AMENDED DATE:

REASON FOR AMENDMENT  
To accurately reflect the current tasks, knowledge, skills and abilities defined in the most recent job analysis conducted for this job code.

BUSINESS UNIT(S): COMMN
INTRODUCTION

Under general direction, performs skilled work in the placing and finishing of concrete on public or private property; lays out work for new construction or repair; breaks out damaged concrete and loads it into a dump truck; prepares job sites by setting up safety tripods and scaffolding; sets screeds and forms for concrete work; pours and finishes concrete; mixes and applies toppings, colors, grits, epoxy overlays and waterproofing compounds; ensures that completed work is covered and barricaded; writes reports and keeps records; uses a two-way radio, cell phone, and pager; and operates a motor vehicle. Performs related duties as required.

DISTINGUISHING FEATURES

This The 7311 Cement Mason is a journey-level position classification that has responsibility for new construction and repair of sidewalks, curbs, gutters, streets, alleys, disability access ramps, stairs, and similar finished cement work. This class is distinguished from the 7398 Apprentice Cement Mason I and 7399 Apprentice Cement Mason II in that the latter are entry-level trainee classes working under direct supervision as part of a structured on-the-job apprenticeship program. It is further distinguished from the 7227 Cement Finisher Supervisor I in that the latter is a supervisory position.

SUPERVISION RECEIVED/EXERCISED:

- Receives supervision from 7227 Cement Finisher Supervisor I and 7211 Cement Finisher Supervisor II.

- Provides technical oversight, guidance and lead supervision to 7398 Apprentice Cement Mason I and 7399 Apprentice Cement Mason II.

SUPERVISION RECEIVED/EXERCISED:

- Receives supervision from 7227 Cement Finisher Supervisor I and 7211 Cement Finisher Supervisor II.

- Provides technical oversight, guidance and lead supervision to 7398 Apprentice Cement Mason I and 7399 Apprentice Cement Mason II.

MAJOR, IMPORTANT, AND ESSENTIAL DUTIES

According to Civil Service Commission Rule 109, the duties specified below are representative of the range of duties assigned to this job code/class and are not intended to be an inclusive list.

1. Lays out work for new construction or repair by measuring and calculating the correct type and materials and supplies necessary to complete the job.

2. Prepares job sites by setting up safety tripods and scaffolding; may be trained to secure
Title: Cement Mason  
Job Code: 7311

"confined space" job sites.

3. Breaks out old or damaged concrete by using pneumatic jackhammer and chipping guns.

4. Carries broken pieces of concrete, which weigh up to 90 pounds, for distances up to 50 feet, and loads them into a dump truck.

5. Uses tools and equipment such as trowels, coving tools, floats, hammers, saws, edgers, brushes, levels, pliers, concrete saws, trowel machines, and core drilling machines; may be trained to operate epoxy injection equipment.

6. Sets screeds and forms for concrete work and operates a dumpy level to determine elevation of finished concrete.

7. Pours and finishes concrete sidewalks, curbs, gutters, streets, disability access ramps, and steps using screeds, trowels and floats.

8. Mixes and applies toppings, colors, grits, epoxy overlays, or waterproofing compounds in accordance with job specifications.

9. Ensures that completed work is covered and barricaded with A-frame barricades, and toe boards to assist the visually impaired.

10. Writes reports and keeps records of daily work assignments, location and description of completed jobs, and incidents and injuries.

11. Operates a motor vehicle to travel and transport materials to job sites.

12. May be required to operate ditching machines, trenching machines, or similar equipment.

Uses a two-way radio, cell phone and pager to communicate with coworkers, supervisors, and management regarding work details and locations, or emergency notification.

**IMPORTANT AND ESSENTIAL KNOWLEDGES, SKILLS, AND ABILITIES**

**Knowledge of:**

Tools, materials and equipment used in concrete work; technical knowledge of methods and procedures used to pour and finish concrete; safety procedures provided in on-the-job training.

**Skill to:**

Operate hand, pneumatic and power tools, equipment and materials used in cement work, including chipping gun, jackhammer, concrete saw, screeds, trowels, coving tools, floats, drilling, ditching and trenching machines, epoxy injection equipment; operate a two-way radio, cell phone and pager; operate motor vehicles.
Ability to:

Perform mathematical calculations necessary to compute size of area and volume of material needed; write and speak in a manner that is easily understood; maintain effective working relationships.

- operate a two-way radio, cell phone and pager; operate a motor vehicle; climb ladders; crawl on hands and knees; lift objects that weigh up to 90 pounds and carry them for distances up to 50 feet; bend the knees and back; stoop or squat; and remain in uncomfortable positions for extended periods.

MINIMUM QUALIFICATIONS

These minimum qualifications establish the education, training, experience, special skills and/or license(s) which are required for employment in the classification. Please note, additional/alternative qualifications (i.e., special conditions) may apply to a particular position and will be stated on the exam/job announcement.

Experience and Training

1. Completion of the City’s apprenticeship program in class 7398 Apprentice Cement Mason I and in class 7399 Apprentice Cement Mason II with the City and County of San Francisco, as evidenced by the issuance of a Certificate of Completion of Apprenticeship under the authority of the California Apprenticeship Council, by the time of appointment, OR

   1.2. Completion of a recognized three-year apprenticeship program, as evidenced by issuance of a Certificate of Completion of Apprenticeship under the authority of the California Apprenticeship Council and two (2) years of experience as a journey-level cement mason, by the time of appointment, OR

   a. Any combination of apprenticeship program training and experience that is equivalent to five (5) years.

Substitution

Five years of additional verifiable cement masonry experience may substitute for the required recognized apprenticeship program under paragraph II.

2.

LICENSE AND CERTIFICATION

Requires possession and maintenance of a valid Class C California driver’s license.
