Subject: Personal Services Contracts Approval Request

This report contains ten (10) personal services contracts (PSCs) in accordance with the revised Civil Service Commission (CSC) procedures for processing PSCs that became effective on July 1, 1996.

The services proposed by these contracts have been reviewed by Department of Human Resources (DHR) staff to evaluate whether the requesting departments have complied with City policy and procedures regarding PSCs. The proposed PSCs have been posted on the DHR website for seven (7) calendar days. CSC procedures for processing PSCs require that any appeal of these contracts be filed in the office of the CSC, Executive Officer during the posting period.

No timely appeals have been filed regarding the PSCs contained in this report. These proposed PSCs are being submitted to the CSC for ratification/approval.

DHR has prepared the following cost summary for personal services contracts that have been processed through the Department of Human Resources to date:

PERSONAL SERVICES CONTRACT SUMMARY

DATE: August 1, 2012

DEPARTMENT NAME: AIRPORT COMMISSION

DEPARTMENT NUMBER: 27

TYPE OF APPROVAL: ☑ EXPEDITED ☐ REGULAR (OMIT POSTING ___)

TYPE OF REQUEST: ☑ INITIAL REQUEST ☐ MODIFICATION

TYPE OF SERVICE: Design-Build Services for the Plot 2 Employee Parking Lot

FUNDING SOURCE: Airport Capital Funds

PSC AMOUNT: $3,000,000 PSC DURATION: 10/1/2012 to 4/1/2013

1. DESCRIPTION OF WORK
   
   A. Concise description of proposed work: This request is for the services of a design-build contractor with specialty design experience at airports to provide the design and construction for the Plot 2 Employee Parking Lot ("Project"). The Design-Build contractor will perform the design and construction of a new parking lot with the Airport's existing parking control system including site drainage and lighting improvements.

   B. Explain why this service is necessary and the consequences of denial: The Airport is experiencing an increase in parking demand during the peak travel seasons, which it is unable to be met by the current capacity of the Long-Term Parking Garage at Lot DD and Mixed Use Parking Lot at Lot D. To meet the demand for on-airport parking, the Airport will utilize the currently empty Plot 2 to construct a new parking lot dedicated for employee parking. This new parking lot will free parking spaces in the Mixed Use Parking Lot D for long-term parking use. This project will meet the immediate projected needs for employee parking spaces at the Airport. If this space is not provided, current and new airport long-term parking users will not be able to find parking at the airport and will need to find parking at off airport parking lots, thus creating a negative economic impact on both the affected long-term parking users and the Airport. Denial will cause significant project delays, which will affect the Airport's ability to provide sufficient on-airport parking for its passengers, and result in lost revenues.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

      This is a new service.

   D. Will the contract(s) be renewed? If there continues to be a need for such services at SFO.

FOR DEPARTMENT OF HUMAN RESOURCES USE

PSC # 4027-12/13 Approved by 9/13/2012

CIVIL SERVICE COMMISSION ACTION: PSC FORM 1 (9/96)
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise: Design-Build experience with ability to mobilize design and construction resources quickly, airport design standards, airport parking operations and security, and fast paced and coordinated construction experience are essential for this project to meet the projected completion date. A design-build contractor must provide engineering and construction skills with specific expertise in parking lot design and construction, bus maneuvering and staging, parking control equipment and processes, civil and electrical design, specialized airport operating systems, airport security systems and monitoring, schedule development and analysis, project controls, regulatory compliance, and all other Airport unique commissioning and project controls are required. These skills will ensure the timely development and accurate construction of the Plot 2 Employee Parking Lot project and ensure the Airport's needs are met.

   B. Which, if any, civil service class normally performs this work? Engineering (5201-5241) classes exist but due to current work and the phasing of high priority projects (such as the Runway Safety Area program) their expertise cannot be utilized for this project as the project's expedited completion schedule would not be met. City Project Managers with the appropriate expertise in managing Airport asset development and construction including special systems at the Airport will supervise the contracted work.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable: Though the existing engineering classifications do have the required expertise and specialized skills related to parking lot design and construction, their current work on high profile projects (such as the Runway Safety Area) cannot be utilized and still meet the project's completion schedule. The Airport will use experienced Airport project and construction management staff integrated with the consultant staff to provide the required services. The Airport estimates that up to 10% of the administrative work on the various projects, including project management, construction management, IT support, landside/airfield operations, maintenance and Airport engineering/architectural, will be performed by current Airport staff. On the job exposure to project related tasks, software and processes will provide City staff the experience that will provide them with valuable knowledge and will benefit them in future projects.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain. As stated above, classifications exist but cannot be utilized due to the expedited completion schedule of the project. The project will be completed within 6-8 weeks time as does not justify the addition of permanent staffing, with the exception of project management staff.
5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?  
      ☒ X
   B. Will the contractor train City and County employees?
      • Describe the training and indicate approximate number of hours.
      • Indicate occupational type of City and County employees to receive training
        (e.g., clerks, civil engineers, etc.) and approximate numbers to be trained.
      ☒ X
   C. Are there legal mandates requiring the use of contractual services?
      ☒ X
   D. Are there federal or state grant requirements regarding the use of contractual services?
      ☒ X
   E. Has a board or commission determined that contracting is the most effective way
      to provide this service? No, however, the Airport Commission has approved
      Resolution # 12-0160 for this work.
      ☒ X
   F. Will the proposed work be completed by a contractor that has a current personal
      services contract with your department? An RFQ and RFP is being conducted
      the results of that process are not known at this time.
      ☒ X

REQUESTED RESPONSE DATE IS CLOSE OF BUSINESS DAY: August 9, 2012

The San Francisco International Airport, Design and Construction Division, is seeking professional and/or construction services for Design Build Services for the Plot 2 Employee Parking Lot Project as listed below. If your Department is interested please fill out one of the boxes below, sign, date and send back this form via email. If the Airport has not received a response from your organization by August 9, 2012 it shall be assumed that your staff is not available to perform these services and the Airport will execute a contract service order for completion of these services.

Estimated duration of D/B contract: October 2012 – March 2013

Summary of Scope of Work:

The Airport is experiencing an increase in parking demand during the peak travel seasons, which it is unable to be met by the current capacity of its current public parking lots. To meet the demand for on-airport parking, the Airport will utilize the currently empty Plot 2 to construct a new parking lot dedicated for employee parking and integrate the Airport's parking management control system. This new parking lot will free parking spaces in the Mixed Use Parking Lot D for long-term parking use. This project will meet the immediate projected needs for employee parking spaces at the Airport this coming Holiday season.

Scope of services include: parking lot design, integration of Airport parking control system, site work, Plumbing, Power, Telecommunication, Lighting, Bus shelter information display systems; new CCTV systems, testing and commissioning.

Airport staff has prepared 36% of design required forming bridging documents to be included in the RFP. The design build services being sought is limited to only minor design changes for completion of documents for review and approval. The design services being performed by the design build contractor allows for the needed schedule efficiencies.

This project has a targeted beneficial use (ability to safely park cars 24/7) completion date of November 15, 2012.

AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
RESOLUTION NO. 12_0160

AUTHORIZATION TO ISSUE A REQUEST FOR QUALIFICATIONS/REQUEST FOR PROPOSAL FOR DESIGN-BUILD SERVICES FOR CONTRACT 9242.A, PLOT 2 EMPLOYEE PARKING LOT

WHEREAS, Staff has determined that the existing capacity of the Long-Term Parking Garage at Lot DD and Mixed Use Parking Lot at Lot D is unable to meet the increase in parking demand during the peak travel seasons; and

WHEREAS, to satisfy the near-term demand for on-airport parking, Airport staff recommends utilizing the currently empty Plot 2 (former Hilton Site) to construct a new parking lot dedicated for employee parking; and

WHEREAS, the proposed new parking lot would allow for the reallocation of parking spaces in the Mixed Use Parking Lot D for long-term parking use; and

WHEREAS, the proposed parking lot project was subject to environmental review pursuant to the California Environmental Quality Act (CEQA) and was granted a categorical exemption from the Department of City Planning; and

WHEREAS, Staff recommends a design-build approach and that contractor's qualifications be considered as part of the selection process as allowed under Section 6.61 (E) of the Administrative Code as it involves work integrating the proposed parking lot into the Airport's existing parking control systems and operations and the need for schedule efficiencies geared to an operational parking lot for the upcoming peak holiday season; and

WHEREAS, it is in the public's best interest that qualifications be considered in the procurement process; and

WHEREAS, Staff will prequalify firms based on a minimum qualifications application established in the RFP; and

WHEREAS, based on the results of the cost evaluation, including the application of an LBE rating bonus, if any, Staff will rank the firms, negotiate with the highest-ranked proposer, and, upon successfully negotiating a contract, return to the Commission with a recommendation to award a contract to the highest ranked design-build firm; and

WHEREAS, the total estimated cost of Contract 9242.A is in the amount of $2.7M, to be funded through the Airport's Capital Improvement Program; and

WHEREAS, the duration of the proposed contract is 6 months; now, therefore be it

RESOLVED, that the Commission approves the proposed resolution authorizing the Director to issue a Request for Qualifications and Request for Proposal for Contract No. 9242.A, Design-Build Services for Plot 2 Employee Parking Lot.

I hereby certify that the foregoing resolution was adopted by the Airport Commission at its meeting of

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
   Contractor will develop the Resilient San Francisco Strategic Plan by conducting an inventory, identify opportunities for future resilience, create an integrated work plan, establish measurement tools and aid in the facilitation advancement of resilience in San Francisco.

   B. Explain why this service is necessary and the consequences of denial:
   The Resilient San Francisco initiative in its current iteration needs further strategic guidance, plan integration and measurement to ensure long-term success. The Department is prepared to manage this initiative, but cannot create efficient growth without contract support. Grant restrictions prevent the department from using any additional personnel toward this project. A contractor will be hired to create the deliverables. Upon completion, existing department personnel will maintain the end products.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
   No

4. **WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM**
   A. Explain why civil service classes are not applicable:
   The Homeland Security Grant Program is being used to fund this project. Conditions of the grant include a personnel cap
   limit, which has already been reached. No additional grant funds can be used toward personnel costs. Contractor costs
   for specific projects are excluded from the personnel cap limitation and provide the only avenue to complete the project.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
   No, this is a temporary project designed to create a long-term marketing and branding component for the Department of
   Emergency Management.

5. **ADDITIONAL INFORMATION** (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?
   Yes  No

   B. Will the contractor train City and County employees?
   Yes  No
   - Describe the training and indicate approximate number of hours.
   - Indicate occupational type of City and County employees to receive training (i.e., clerks,
     civil engineers, etc.) and approximate number to be trained.

   C. Are there legal mandates requiring the use of contractual services?
   Yes  No

   D. Are there federal or state grant requirements regarding the use of contractual services?
   Yes  No

   E. Has a board or commission determined that contracting is the most effective way
   to provide this service?
   Yes  No

   F. Will the proposed work be completed by a contractor that has a current personal services
   contract with your department?
   Yes  No

PERSONAL SERVICES CONTRACT SUMMARY

DATE: JUL 23 2012

DEPARTMENT NAME: Public Health

DEPARTMENT NUMBER: 81

TYPE OF APPROVAL: ☑ REGULAR (OMIT POSTING ________ )

TYPE OF REQUEST: ☑ INITIAL REQUEST ☐ MODIFICATION (PSC# ________ )

TYPE OF SERVICE: Health care reform readiness: assessment and transition of DPH primary care system to a Patient Centered Medical Homes (PCMH) model of care

FUNDING SOURCE: General Fund (Prop. C) and Federal/State/Private grant(s)

PSC AMOUNT: $300,000 (for 3 years) PSC DURATION: 10/1/2012 - 9/30/2015

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
   The contractor(s) will assess the Department’s primary care services system to identify the components needed to ensure Patient Centered Medical Homes (PCMH) are fully implemented in readiness for the advent of federal health care reform, identifying gaps and working with the Department to develop timely solutions.
   B. Explain why this service is necessary and the consequences of denial:
   The service is necessary in order for the Department to achieve many of the clinical and financial benefits of PCMH, including improved quality of care, improved patient experiences and reduced health system costs. Such benefits are integral to ensuring that quality care is accessible for San Francisco residents in innovative programs such as Healthy San Francisco, and are critical at this time, given the increased demand for primary care services due to healthcare reform. Full implementation of PCMH is crucial to the Departments ability to deliver quality and effective health services to San Francisco residents.
   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
   This is a new service.
   D. Will the contract(s) be renewed: Only if there is a needed and continued funding.

PSC AMOUNT: $400,000 (for 3 years) PSC DURATION: October 1, 2012 through September 30, 2015

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
The contractor(s) will assess the readiness of the Department to participate in an expanded managed care environment and to facilitate the creation of a managed care infrastructure for the Department.

B. Explain why this service is necessary and the consequences of denial:
As a result of both federal and State health care reform efforts, a significant number of previously uninsured people will be insured under Medi-Cal or the California Health Benefits Exchange. All of those enrolled in Medi-Cal will be provided health insurance through mandatory enrollment in a managed care health plan and the majority, if not all individuals in the California Health Benefits Exchange will receive their health insurance through managed care entities. The Department currently is not well positioned to retain patients who, if converted to health insurance will have a choice to go to other systems as the Department lacks infrastructure and orientation to compete effectively in a managed care environment. Loss of these patients may impact future revenue for the Department and will also impact the effectiveness and quality of the services provide to the remaining patients of the Department.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
This is a new project for the Department.

PSC AMOUNT: $600,000 (for 3 years) PSC DURATION: 10/1/2012 - 9/30/2015

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
      The contractor(s) will assist DPH in implementation of the Integrated Delivery System Project (IDS) by managing the organizational changes necessary as preparation health care reform. The IDS project is DPH's approach to develop a comprehensive system of care that is clinically and financially accountable to provide coordinated health services to the diverse and vulnerable individuals it serves and to improve the health of our communities. It represents a broad change in health care organizational culture which requires strong change management and communication processes to ensure that IDS goals and objectives are well communicated to and accepted by staff, patients, contractors, policy makers and other stakeholders.

   B. Explain why this service is necessary and the consequences of denial:
      This service is necessary in order for the Department to effectively implement the finding of the IDS project. If the Department is unable to fully implement the elements of the IDS project the Department is at risk of not being able to effectively compete in the changing healthcare environment going forward. And inability to compete and deliver quality integrated health services, will threaten the viability of Departmental programs and could result in a decrease in the quality of services provided to clients of the Department.

Tangerine

Currently our Workforce Development team does not have the specific expertise in relation to the Affordable Care Act in order to assist you in this project, so you are able to go ahead with your PSC.

However, I would also like to request a time to meet to discuss if there are other opportunities/options for the Workforce Development team to work with you. We have several communications programs that we offer that I believe would be very helpful as well.

Thank you,

1. DESCRIPTION OF WORK

   A. Concise description of proposed work:

   The requested services from the contractor(s) are: (1) to perform an assessment and develop solutions to increase the financial and programmatic sustainability of the San Francisco Department of Public Health hospitals and clinics; and (2) to assist DPH in creating a new operations plan for the rebuilt San Francisco General Hospital.

   B. Explain why this service is necessary and the consequences of denial:

   With the recent changes as a result of health care reform and the soon to be completed rebuilt San Francisco General Hospital, the Department needs to study how to increase the financial sustainability of the Department and to develop a comprehensive operations plan for the rebuilt SFGH. These studies are needed for a comprehensive understanding of the financial challenges and opportunities that will be present as Department moves forward at this critical juncture. Denial of these services will adversely affect the City's ability to compete with other public and private sector health care providers in the new health care reform environment, and there may be significant delays in making the newly rebuilt hospital operational without a comprehensive operations plan to assist in accomplishing this historic move of a major county hospital.

1. DESCRIPTION OF WORK

A. Concise description of proposed work: The consultant will increase capacity with OEWD grantees who operate the City's One Stop Career Link Centers. Contractor's work will be focused on sector based training research, including sectors in demand and performance of training providers currently on the State's Eligible Training Provider listing. Consultants will conduct technical assistance and training with One-Stop staff, Sector Academy Staff, and/or OEWD staff on research, best practices, high performing training providers, and growth industries/sectors to ensure that all parties can assist Workforce Investment Act program participants to make informed choices about training options. The consultants will assist in overseeing the implementation of any program or operational changes and may also facilitate partnerships.

B. Explain why this service is necessary and the consequences of denial:
The Department has been awarded competitive grants in the last 2 years to build the Sector Academies, resulted in a significant increase in the number of Workforce Development programs and grantees in the last 12 months. Because of the expanded services offered through the City's One-Stop system and Sector Academies, there is a short-term need for someone with experience in coordinating and providing in depth technical assistance to the growing workforce system of providers. An inefficient workforce system would result in an unfocused service model and the inefficient expenditure of funds. Findings of non-compliance in any of the programs could result in a possible loss of funding from the sources thus jeopardizing the continuation of the associated workforce services provided to the public.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
Some assistance was offered by the same contractor in FY 10-11 with a focus on implementing two new One Stops in the City with community organizations who had not previously provided those services. Alignment of large scale sector-based initiatives is a new project.

D. Will the contract(s) be renewed: unknown

3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE:
   A. Specify required skills and/or expertise:
      Extensive experience with workforce development best practices implemented in other local areas with similar challenges. Extensive knowledge and experience with developing internal programmatic controls; high level of program experience; and significant high-level experience in assessing and addressing system challenges. In depth knowledge of legal requirements of program to ensure compliance at all levels of service.

   B. Which, if any, civil service class normally performs this work?
      0923 – Manager II,
      0931 – Manager III

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
      No

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
      Assessment, alignment and implementation between multiple workforce programs including new WIA sector-based initiatives is a task that the current staff within OEWD are unable to undertake at this time because of the vacancies that currently exist. A consultant is needed to assist with the research and education phases as we initiate this process. As vacancies are filled, the consultant will involve the new managers in the process so that work can be transferred over, as appropriate, to permanent staff. The department is currently in the process of filling vacancies but the work cannot be delayed until that time because of the grant term constraints.
      B. Would it be practical to adopt a new civil service class to perform this work? Explain:
         No, because this is an immediate short term need.

Good Morning,

The commission requested that we provide our MEA correspondence concerning this PSC in yesterday's meeting. Please refer to the last two pages of the scanned document below for the original notification to MEA via fax on 6/25 and the follow up email sent to Rebecca on 7/31. As my colleague John Halpin stated yesterday, neither submission resulted in any contact from MEA to discuss the request.

If there is anything else you'd like us to provide, please let me know.

Thanks!

Hi Maria,

Apologies for the typo. Attached is the corrected one as well as the MEA notification of the change sent to Rebecca's email address this morning.

Thank you for the updated contact information for MEA as well – Merrick and I had adjusted processes for Local 21 but were unaware of the change for MEA.

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
The consultant will increase capacity with OEWD grantees who operate the City's One Stop Career Link Centers. Contractor's work will be focused on sector based training research, including sectors in demand and performance of training providers currently on the State’s Eligible Training Provider listing. Consultants will conduct technical assistance and training with One-Stop staff, Sector Academy Staff, and/or OEWD staff on research, best practices, high performing training providers, and growth industries/sectors to ensure that all parties can assist Workforce Investment Act program participants to make informed choices about training options. The consultants will assist in overseeing the implementation of any program or operational changes and may also facilitate partnerships.

B. Explain why this service is necessary and the consequences of denial:
The Department has been awarded competitive grants in the last year to build the Sector Academies, resulted in a significant increase in the number of Workforce Development programs and services in the last 12 months. Explanation concerning question 5B

Through the process of providing technical assistance on the items noted below, the consultant will provide training so that similar situations and questions can be addressed in the future by the departmental staff. The consultant will work with OEWD, One-Stop staff, and Sector Academy staff to design/re-design elements of the service delivery model, operations, administration and oversight. This may include, but is not limited to:

- Changes to the service delivery model and client flow including any program improvements especially those related to sector focused training informed by consultant’s research.
- Recommendations on training/retraining staff at the One-Stop, Sector Academies, and other Workforce program grantees.
- Recommendations to OEWD on changes in administration, performance standards and/or policies that would result in improved oversight of workforce system providers and improved outcomes.

Training/Technical Assistance/Facilitation

As identified by the assessment and recommendations, the Consultants will conduct technical assistance and training with One-Stop staff, Sector Academy staff, other workforce grantees, and/or OEWD staff. Such technical assistance/training may include 1:1 consultation, group training, facilitating retreats, peer learning activities, and producing written training materials.

Staff benefiting from training will be Workforce managers at multiple levels (classifications 0922, 0923, 0932) as well as program oversight staff (classification 9775).

MAYOR LEE ANNOUNCES NEW FUNDING FOR TECHSF INITIATIVE TO TRAIN S.F. RESIDENTS FOR HIGH TECH JOBS

U.S. Department of Labor Grants Provide Additional Funds for San Franciscans to Receive Job Training for New Economy

San Francisco, CA—Mayor Edwin M. Lee today announced that the U.S. Department of Labor (DOL) awarded San Francisco with an additional $3 million in Workforce Innovation grants to train and reskill San Francisco residents for the City's growing number of technology and IT jobs. The City's TechSF Initiative received $5 million from DOL in March.

"Making sure that San Franciscans receive the skills and training they need to compete in the 21st century job market is a cornerstone of my economic strategy and critical to our City's economic recovery," said Mayor Lee. "I thank the Obama Administration for investing in public-private partnerships that strengthen workforce training and bridge the skills gap between our residents and the good paying jobs that many of our tech companies are creating right here in San Francisco."

"The Workforce Innovation Fund was created to cultivate and test innovative approaches to workforce training and encourage the replication of evidence-based practices in the workforce development field," said Secretary of Labor Hilda L. Solis. "Developing new and creative strategies and expanding existing programs we know will help make the workforce system more effective to unemployed Americans and employers looking for qualified employees."

The DOL Workforce Innovation Fund, in part, focuses on partnerships with specific industry sectors to develop programs to provide current and future job skill needs and the grants help develop the most effective strategies in workforce development. San Francisco was one of only 26 grant recipients nationwide.

Mayor Lee launched the TechSF Initiative in March. The new $3 million funding will pilot the TechSF—Workforce Innovation project to transform workforce service delivery by leveraging and building upon San Francisco's tech industry and TechSF Initiative. TechSF—Workforce Innovation uses best practices and pilots technological innovations and non-traditional workforce training methods in the IT and digital media sectors to bridge the current skills gap. The initiative will be replicable beyond the IT sector; relevant to other labor markets throughout and beyond the regional economy; and will diversify the workforce.

The City will work with industry employers to identify job needs—including mentoring, internships, interviews, curriculum development, and co-teaching.

MAYOR LEE LAUNCHES TECHSF INITIATIVE TO TRAIN S.F. RESIDENTS FOR HIGH TECH JOBS WITH $5 MILLION FEDERAL WORKFORCE TRAINING GRANT
U.S. Department of Labor Awards San Francisco Major Grant to Train & Reskill City Residents to Fill Growing Number of High-Tech Jobs

San Francisco, CA—Mayor Edwin M. Lee today launched TechSF to train and reskill San Francisco residents for the City’s growing number of technology and IT jobs, announcing a $5 million grant from the U.S. Department of Labor’s Technical Skills Training Grants program to jumpstart funding for the City’s major new workforce training initiative. Mayor Lee was joined at the announcement at Year Up Bay Area by members of the Board of Supervisors, U.S. House Democratic Leader Nancy Pelosi’s Office and partners from technology companies and workforce training organizations.

“Ensureing San Francisco residents have the skills and training they need to work in our City’s growing number of high tech jobs is a cornerstone of our economic strategies and critical to making sure our economic recovery reaches every neighborhood of our City,” said Mayor Lee. “This major grant from the Department of Labor for our TechSF initiative will bring City residents, technology companies and our workforce training partners together to train and reskill our residents to ‘win the future’ for San Francisco, in the words of President Obama. I want to thank the President, Secretary Hilda Solis and Leader Pelosi for strengthening public-private partnerships and investing in workforce training for our residents so that they can get the good jobs so many of our tech companies are creating right here in San Francisco today.”

“Securing this grant and investing in TechSF will train San Franciscans for the jobs of tomorrow; spur our fast-growing IT industry; strengthen and create new career and educational pathways for San Francisco’s workforce; and meet the needs of entrepreneurs and businesses large and small,” said Democratic Leader Nancy Pelosi. “With this grant, we can put more people to work in high-growth, high-tech occupations, and we can ensure unemployed San Franciscans have the skills and background necessary to secure and keep good-paying jobs.”

“The federal grant awards announced today will provide U.S. workers with the training they need to succeed in the high tech, high-growth jobs of the future,” said U.S. Labor Secretary Hilda Solis. “Developing a strong and vibrant workforce that fits the needs of American businesses is critical to forming an America built to last.”

In San Francisco, the TechSF grant will serve local jobseekers that are currently underrepresented in the IT sector, especially the long-term unemployed. In addition to providing education, training and job placement assistance, the grant will enhance sector partnerships, create new pathways to high-wage and high-growth careers, and integrate San Francisco’s education, training and industry efforts in the local Information Technology sector.

1 Dr. Carlton B. Goodlett Place, Room 200, San Francisco, California 94102-4511
(+1) 554-6161
The San Francisco Office of Economic and Workforce Development (OEWD) partnered with WestEd, IBM, AT&T, City College of San Francisco and a consortium of San Francisco-based employers and community-based organizations to apply for this grant to create the TechSF Initiative to raise the technical skill of San Francisco workers.

The TechSF initiative is based on a highly successful program model, which includes building career pathways and training for in-demand skills in the rapidly changing technology industry. The partnership targets two groups of workers. One target group is local workers seeking jobs in the technology sector, at least 75 percent of whom will have been unemployed for longer than six months. The project intends to train and place more than 300 workers in this category into positions paying $25 - $50 per hour. The project's employer consortium will help recruit participants, provide internship and work experience opportunities, and interview and hire participants who successfully complete the program.

The other target group is more than 1,400 employees in the San Francisco offices of IBM and AT&T who need training to remain competitive in their current jobs and advance into more highly skilled positions. Employees trained through this program currently earn an average hourly wage of $28 - $60 per hour. The TechSF initiative will result in 97 percent of all participants earning an industry recognized credential or degree, and 93 percent working in IT jobs after they complete training.

WestEd will serve as the project manager partner for this grant. WestEd is a national non-partisan, not-for-profit agency headquartered in San Francisco. Since 1966, WestEd has developed research, products, and policy for improving learning and human development.

"This workforce development project addresses the real needs of many San Franciscans," said WestEd CEO Glen Harvey. "We're proud and excited to collaborate with such innovative partners to increase career education opportunity in our community."

Other companies participating in the grant program and initial TechSF initiative include AT&T, IBM Corporation, Riverbed Technology, Sega, CBS Interactive, UCSF Medical Center, Artisan Creative, CAL Insurance, The Exploratorium, Responsys, MicroMenders, Mozilla, Send Me, salesforce.com and Allassian.

"The tech community in San Francisco is proud to play a leading role in making sure City residents get the skills and training they need to move into the City’s growing number of tech jobs, and this grant is a real boost to our collective efforts," said Chair of the San Francisco Citizens Initiative for Technology & Innovation (sf.citi) and Special Partner of SV Angel Ron Conway. "sf.citi is looking forward to a continued partnership with Mayor Lee and the City’s TechSF initiative to create good jobs and focused IT training programs to employ City residents."

Creating apprenticeships and job training initiatives — whether for young people coming out of high school and college or for those in need of reskilling in the middle of their careers — are critical parts of Mayor Lee's 17-Point Economic Plan for Good Jobs & Opportunity for San Francisco.

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:

   The controlled substance testing consists of, but is not limited to, maintaining a chain-of-custody, weighing or measuring, testing, analysis, documenting, completing reports of controlled substances. The work includes interaction with investigators, the District Attorney’s Office and offering expert court testimony. Testing is performed through chemical and scientific process within ASCLAD standards.

   B. Explain why this service is necessary and the consequences of denial:

   This service is necessary to address crime and disorder related to narcotics. It is necessary to properly provide both incriminating and exculpatory evidence for the Court’s review and determination of facts. This work is required of the San Francisco Police Department. If this work is denied, individuals suspected of narcotics violations will not be brought to justice for their actions.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

   This service has been provided through PSC # 4164-09/10.

   D. Will the contract(s) be renewed: This service has been provided through PSC # 4164-09/10.

FOR DEPARTMENT OF HUMAN RESOURCES USE

PSC# 4164 - 09/10
STAFF ANALYSIS/RECOMMENDATION: Approved W 9/13/2012

CIVIL SERVICE COMMISSION ACTION:
3. **DESCRIPTION OF REQUIRED SKILLS/EXPERTISE**
   A. Specify required skills and/or expertise:
   A thorough and complete knowledge of narcotics testing in order to conduct case work. Employees must go through a skills testing and certification process that can take up to 12-18 months to complete in order to work on cases. These skills include chemical testing and analysis of suspected controlled substances and a thorough working knowledge of scientific principles.

   B. Which, if any, civil service class normally performs this work?
   8262 Criminalist III and 8260 Criminalist II have performed this work in the past. Class 8259 Criminalist I might also be able to perform some of the work.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
   The contractor will provide facilities and equipment not currently possessed by the City, In that both facilities and equipment for controlled substances testing are no longer accredited under the American Society of Crime Lab Directors. Without accreditation, it is difficult to prosecute cases successfully due to a lack of credibility.

4. **WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM**
   A. Explain why civil service classes are not applicable:
   The existing civil service classes are not applicable because the SFPD Crime Lab is not currently accredited to perform testing and analysis of controlled substance samples, so that work can only be performed by outside contractors until accreditation is received and the controlled substance testing portion of the lab is re-opened in the new lab in 2017.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
   No it would not be practical to adopt a new civil service class to perform this work because the classifications already exist.

5. **ADDITIONAL INFORMATION** (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?
   [ ] Yes [ ] No

NOTICE OF CIVIL SERVICE COMMISSION ACTION

SUBJECT: REVIEW OF REQUEST FOR APPROVAL OF PROPOSED PERSONAL SERVICES CONTRACT NUMBER 4104-09/10.

At its meeting of July 19, 2010 the Civil Service Commission had for its consideration the above matter.

PLEASE NOTE: It is important that a copy of this action be kept in the department files and will need it in the future as proof of Civil Service Commission approval. Please share it with everyone responsible for follow-up.

It was the decision of the Commission to:

1. Accept the report on the proposed personal services contract on the condition that:
   a. The agreement reached by SFPD and Local 21, namely: 1) The Proposition 1 currently before the Board of Supervisors for Narcotics Testing will be withdrawn (it was withdrawn on June 30, 2010); 2) The duration of the contract be modified to a two (2) year term through June 30, 2012 and after six (6) months, the San Francisco Police Department (SFPD) will meet and confer with IPTE Local 21 over an additional six months to one (1) year PSC, if needed; 3) No current staff will be displaced as a result of the PSC; 4) After six (6) months, the SFPD will report to the Civil Service Commission on the status of increasing the SFPD's internal capacity to perform drug testing; 5) The Crime Lab should remain in its location for FY2010-2011, making anticipated short-term fixes for defects and deficiencies; 6) Over the next year, the SFPD will explore and discuss options for relocation of the Crime Lab, including gathering more data to assess the best approach for housing the crime lab. The SFPD will consider existing physical sites which may be retrofitted to house the Crime Lab, including a new facility, and reviewing cost and financing options and invite input from Local 21; and 7) Within thirty (30) days, SFPD will begin to meet with Local 21 to discuss Crime Lab staffing and workload issues. Notify the Office of the Controller and the Office of Contract Administration. (Vote of 4 to 0)

If this matter is subject to Code of Civil Procedure (CCP) Section 1094.5, the time within which judicial review must be sought is set forth in CCP Section 1094.6.

1. DESCRIPTION OF WORK:
   A. Concise description of proposed work:
      The Controlled Substances Testing that the SFPD is requesting for contract consists of testing substances seized from suspects during arrests. Evidence must be tested and confirmed as narcotics, as well as weighed in order to determine the types of charges and penalties associated with the possession of the controlled substance. Substances are tested through chemical and scientific processes.
   B. Explain why this service is necessary and the consequences of denial:
      This service is necessary in order to address crime and disorder related to narcotics. The test results provide the evidence for criminal cases in the criminal justice system. This work is required of the San Francisco Police Department and should this be denied, individuals suspected of crimes who had narcotics in their possession will not be prosecuted.
   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
      This service has been provided by SFPD employees in the past.

D. Will the contract(s) be renewed: Unknown at this time.

STAFF ANALYSIS/RECOMMENDATION:

CIVIL SERVICE COMMISSION ACTION:
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
      A thorough and complete knowledge of narcotics testing in order to conduct case work. Employees must go through a skills testing and certification process that can take up to 12-18 months to complete in order to work on cases. These skills include chemical testing and analysis of suspected controlled substances and a thorough working knowledge of scientific principles.

   B. Which, if any, civil service class normally performs this work?
      Classifications 8262 Criminalist III and 8280 Criminalist II have most recently performed this work. Class 8269 Criminalist I might also be able to do some of the work.

   C. Will the contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain.
      The contractor will provide facilities and equipment not currently possessed by the City, in that both facilities and equipment for controlled substances testing are no longer accredited under the American Society of Crime Lab Directors. Without accreditation, it is difficult to prosecute cases successfully due to a lack of credibility.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
      The existing civil service classes are not applicable because the SFPD Crime Lab is not currently accredited to perform testing and analysis of controlled substance samples, so that work can only be performed by outside contractors until accreditation is received.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      No. It would not be practical to adopt a new civil service class to perform this work because the classifications already exist.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?
      Yes [ ] No [X]

   B. Will the contractor train City and County employees?
      Yes [X] No [ ]

C. Are there legal mandates requiring the use of contractual services?
   Yes [ ] No [X]

D. Are there federal or state grant requirements regarding the use of contractual services?
   Yes [ ] No [X]

E. Has a board or commission determined that contracting is the most effective way to provide this service?
   Yes [X] No [ ]

F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?
   Yes [X] No [ ]

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
   The DNA Testing that the SFPD is requesting for contract consists of screening, testing and documenting DNA profiles to identify subjects. The process includes, but is not limited to, extraction, quantification, amplification, separation and analysis. Case reports, consultation, Proposition 115 testimony and expert court testimony are also part of the services rendered by the contractor.

   B. Explain why this service is necessary and the consequences of denial:
   The service is necessary to alleviate any backlog or to address rush requests when the current Crime Lab cannot meet the demand. The consequences of denial would bring about the lack of evidence to investigate crimes, provide evidence of guilt, bring forward exculpatory evidence, aid the District Attorney to prosecute cases and inform the Court of the evidence. Additionally, suspects in violent crimes, other felonies and property crimes would never be identified and brought to justice and allowed to commit other crimes.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
   This service has been provided through PSC # 4165-09/10 and through SFPD personnel.

   D. Will the contract(s) be renewed: Yes

CIVIL SERVICE COMMISSION ACTION:
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
      A thorough and complete knowledge of DNA extraction and testing in order to conduct case work. Employees must go through a skills testing and certification process that can take up to 12-18 months to complete in order to work on cases. These skills include identification and confirmation as a DNA-containing substance, extraction, and isolation of DNA strands and markers. Substances are tested through chemical and scientific processes. Chemical testing and analysis of suspected DNA-containing substances, ability to isolate DNA markers, and a thorough working knowledge of scientific principles.

   B. Which, if any, civil service class normally performs this work?
      Classifications 8262 Criminalist III and 8260 Criminalist II perform this work. Class 8259 Criminalist I might also be able to do some of the work.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
      Possibly. It is not a requirement for the contract, but if a contractor has higher-quality equipment at a comparable price to other contractors, the City would benefit from selection of that contractor.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
      This contract will be used only as a backup in case the Police Department runs into a backlog and an emergency rush order situation.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      No. The current classifications are sufficient for this work.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?  
      X

   B. Will the contractor train City and County employees?
      X

      • Describe the training and indicate approximate number of hours.
      • Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate number to be trained.

Micki Callahan, Human Resources Director
NOTICE OF CIVIL SERVICE COMMISSION ACTION

At its meeting of June 21, 2010 the Civil Service Commission had for its consideration the above matter.

PLEASE NOTE: It is important that a copy of this action be kept in the department files as you will need it in the future as proof of Civil Service Commission approval. Please share it with everyone responsible for follow-up.

It was the decision of the Commission to:

1. The Commission took no action, without prejudice on PSC #4164-09/10 and is postponed to a meeting following the Board of Supervisors' Proposition J determination, if needed.

2. Adopt the report; Approve request for proposed personal services contract #4165-09/10 on the condition that 1) the processing through normal hiring procedures of additional criminalists to perform DNA testing work in the Police Department's crime lab move forward; 2) the Police Department and IFTTE Local 21 discuss the long range plans for DNA testing in the Police Department's crime lab; and, 3) both parties report back to the Commission every six (6) months during the term of the DNA testing contract. Notify the Office of the Controller and the Office of Contract Administration.

3. Adopt the report; Approve request for approval of all remaining contracts. Notify the Office of the Controller and the Office of Contract Administration.

If this matter is subject to Code of Civil Procedure (CCP) Sections 1094.4, the time within which judicial review must be sought is set forth in CCP Section 1094.6.

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
      The DNA Testing that the SFPD is requesting for contract consists of extracting and testing samples of DNA-containing substances. The substance must be identified, confirmed as a DNA-containing substance, extracted, and DNA strains and markers identified. Substances are tested through chemical and scientific processes. The cases that would be sent cut for contract are those that current staffing has been unable to address. This will be an interim solution until new staff are recruited and trained.

   B. Explain why this service is necessary and the consequences of denial:
      This service is necessary in order to address crime. The test results provide additional proof of identity for individuals to be prosecuted in criminal cases in the criminal justice system. This work is required of the San Francisco Police Department and should this work be denied, individuals potentially suspected of homicides, sexual assaults, burglaries and other violent crimes will continue to remain unidentified and potentially committing additional crimes.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
      The service has been and will continue to be provided by SFPD personnel.
