☐ MODIFICATION (PSC# ____________)

TYPE OF SERVICE: Digital Preservation Services (scanning to microfilm)

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
The Office of the Assessor-Recorder seeks services to digitally scan and convert on an annual basis, approximately 1,794,000 hard copies to 16mm microfilm. Each document page shall be reproduced twice to create an original and redacted roll of archive silver film masters.

B. Explain why this service is necessary and the consequences of denial:
By law, as the official recorder of county documents, the Office of the Assessor-Recorder is required to archive documents. Microfilm is widely considered to be the most stable medium for permanent document storage. Denial would prevent the Department from being able to archive documents to microfilm as required by law.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
These services were provided in the past year by a vendor through Purchase Order (PO). 

D. Will the contract(s) be renewed:
Subject to evaluation of contract performance and Department needs.

CIVIL SERVICE COMMISSION ACTION:
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE

A. Specify required skills and/or expertise:
The selected Contractor will be required to demonstrate experience performing scanning-to-microfilm services at a minimum volume of 1 million images per year. Services must have been performed in the past five years. The Contractor shall provide microfilm of archival analogue readable image permanence and all materials for archiving of data on microfilm, i.e., film, chemistry, reels, acid-free containers, etc., as well as maintain archival test protocols, i.e., D-min/D-max data, methylene blue archive tests for ammonia thiosulfate levels (detects negative levels of ammonia thiosulfate on archival films).

B. Which, if any, civil service class normally performs this work?
1752 Senior Microphoto/Imaging Technicians previously performed this work. However, based on a meet-and-confer and subsequent agreement with SEIU 1021, the Department has outsourced the service due to the potential hazardous nature of the chemicals required to perform this function, as well as the disposal of equipment and the dedicated space – with legally compliant ventilation and egress – needed for an in-house operation. The 1752 positions continue to perform non-microfilm scanning and digitizing services as required by law.

C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
Yes. Contractor will be required to provide the hardware and software equipment for scanning and direct file transfer protocol ("FTP") transmission (single or multiple) capability to title companies, along with technical support to correct missing file and FTP protocol issues. The Contractor must also provide an earthquake-proof location to store a second copy of backup microfilm.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM

A. Explain why civil service classes are not applicable:
Civil Service classes are not applicable based on a meet-and-confer and subsequent agreement with SEIU 1021 to outsource the function. The Department of Building Inspection, Public Library and Employee Retirement System have all also successfully transitioned from an in-house micrographics functions to outsourced digital preservation services.

B. Would it be practical to adopt a new civil service class to perform this work? Explain.
No. It would not be feasible given the reasons provided.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)

A. Will the contractor directly supervise City and County employees?

B. Will the contractor train City and County employees?

C. Are there legal mandates requiring the use of contractual services?

D. Are there federal or state grant requirements regarding the use of contractual services?

E. Has a board or commission determined that contracting is the most effective way to provide this service?

F. Will the proposed work be completed by a contractor that has a current personal services contract with your department? It is possible, subject to the outcome of an RFP.

Subject: help requested: for approval by the Civil Svc Commission: ASR 02 PSC Scanning-to-microfilm Services

Hi Dennis, I have submitted a Professional Services Contract for Civil Service Commission approval for contracted work that ASR and SEIU 1021 agreed should be sent offsite and no longer performed in-house. I am attaching the Nov 2011 ASR-SEIU agreement to this email.

Since SEIU is already aware and approves of sending this work out, would SEIU be willing to waive the 60-day comment period, so that we can get this calendared @ the Commission as soon as possible?

Please let me know if this is possible - also, if you have any questions regarding this work, just let me know.

thanks, Kimberlee

☑ INITIAL REQUEST ☐ MODIFICATION (PSC# )

TYPE OF SERVICE: Design, fabricate, transport and install artworks at the Public Safety Building.

FUNDING SOURCE: Art Enrichment

PSC AMOUNT: $2,624,000 PSC DURATION: 5-1-2011 through 6-1-2015

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
Contracts for multiple artists to design, fabricate, transport and install artworks in a variety of media for the Public Safety Building as part of the capital projects for the new building.

B. Explain why this service is necessary and the consequences of denial:
City Administrative code section 3.19 requires that 2% of the construction budget of new capital improvement projects be spent on art enrichment. Denial would prohibit the Police and Fire Departments from complying with this ordinance. This work is being funded under art enrichment funds generated from the construction of the new Public Safety Building capital improvement projects.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
The most recent Civil Service approval was for design, fabrication and installation of artwork for the General Hospital Acute Care Unit projects under PSC# 4090-09/09 on FEBRUARY 2, 2009.

STAFF ANALYSIS/RECOMMENDATION:

CIVIL SERVICE COMMISSION ACTION:
3. **DESCRIPTION OF REQUIRED SKILLS/EXPERTISE**
   A. Specify required skills and/or expertise:
   Contractors must be the professional fine artists who are selected by independent selection panels and approved by the Arts Commission to enter into contracts to design, fabricate, transport and install artworks at the Public Safety Building. These artists must have their design approved by the Arts Commission as required by City Charter.

   B. Which, if any, civil service class normally performs this work?
   None. Artist is not a Civil Service classification.

C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
   No.

4. **WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM**
   A. Explain why civil service classes are not applicable:
   There is no Civil Service classification for fine artists. Contractors must be the professional fine artists who have been selected by an independent selection panel and judged by the Arts Commission as being appropriate for the unique requirements of this site. Civil Service cannot perform transportation because transport classification 7395 is not insured for line art transport and the city will not assume liability for damage to artworks sustained during transportation.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
   No. Each project is unique and requires different skills, as determined by an independent selection panel. It is in the City's interest to develop an art collection that is diverse in style, media, and artists represented.

   **ADDITIONAL INFORMATION (If "yes," attach explanation)**
   A. Will the contractor directly supervise City and County employees?
   [ ] Yes  [X] No

   B. Will the contractor train City and County employees?
   [ ] Yes  [X] No
   - Describe the training and indicate approximate number of hours.
   - Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate number to be trained.

   C. Are there legal mandates requiring the use of contractual services?
   [ ] Yes  [X] No

   D. Are there federal or state grant requirements regarding the use of contractual services?
   [ ] Yes  [X] No

   E. Has a board or commission determined that contracting is the most effective way to provide this service?
   [ ] Yes  [X] No

   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?
   [ ] Yes  [X] No

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
The Real Estate Division is in need of qualified appraisers to provide primarily commercial property appraisal services including: 1) draft and final appraisal reports, studies, reports, surveys, etc.; 2) expert witness testimony in condemnation trials or other proceedings, and; 3) review appraisals. We intend to create a list of pre-qualified firms and/or sole practitioners who will be engaged on an as-needed basis. Pool members will be required to enter into a personal services contract at the time of engagement.

   B. Explain why this service is necessary and the consequences of denial:
Accurate and professionally produced appraisals are essential to the successful management of the City’s real property assets. Denial will result in the inability of the Real Estate Division to perform its statutory duties and may cause the City to lose millions of dollars in the sale or purchase of incorrectly valued property.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
This service has been provided by a panel of approved private appraisers whose last creation was more than 5 years ago.

      license under the State Business and Professions Code or a MAI designation.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      No. The as-needed nature of the work and the high level of specialty skills required for each assignment

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
      The Real Estate Division is in need of qualified brokerage firms to assist in reviewing complex property matters involving the purchase, sale or leasing of public or private real estate. It is the intention of the Division to create a list of pre-qualified firms who will be engaged on an as-needed basis. Pool members will be required to enter into a personal services contract at the time of engagement.

   B. Explain why this service is necessary and the consequences of denial:
      On occasion, special real estate projects require the expertise of brokerage firms with access to market data and background unavailable to City staff, or beyond the skills and abilities of City staff. Examples of such projects in the past five years have been a review of development options for Treasure Island, and expansion options for the Moscone Center. Denial will result in the inability of the Real Estate Division to perform assignments requested of them by our client departments.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

1. DESCRIPTION OF WORK

A. Concise description of proposed work: The Real Estate Division seeks to establish a pool of real estate advisors to be used in connection with various types of transactions to include strategic planning for the City's space needs; portfolio analysis and strategy recommendations; site location, market analysis, and lease negotiation in support of the City as landlord or City as tenant; acquisition or disposition of property and air rights; sales of transferable development rights; and the proposal, analysis, and implementation of a variety of real estate based financial transactions including public/private partnerships, joint ventures, sales or lease/leasebacks, and concession leasing. Real estate advisors may also be asked to provide information, judgments, and forecasts regarding general economic and real estate market conditions; assist in conducting surveys of the real estate activities of other major metropolitan cities and counties and the State of California; provide the City with a review or special study of any real estate related financial products or techniques, such as concession leasing, which may be proposed to City staff.

B. Explain why this service is necessary and the consequences of denial: The City may not receive fair market value in our real estate transactions and would not be able to ensure the highest public benefit from the sale of this valuable commodity. For example, establishing the fair market value of Transferable Development Rights, which are scheduled to be sold in the next year, is highly complex and specialized. Expertise sought in this contract request is critical to such a transaction.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number): No such service has been provided in the past.

D. Will the contract(s) be renewed: Unknown.

- Grant Programs Directorate Information Bulletin 3/18/2011, No. 358

- Title 6 – Domestic Security §609 and §611
Grant Programs Directorate Information Bulletin
No. 358
March 18, 2011

TO: All State Administrative Agency Heads
All State Administrative Agency Points of Contact
All State Homeland Security Directors
All State Emergency Management Agency Directors
All Urban Areas Security Initiative Points of Contact
All Tribal Nation Points of Contact

FROM: Elizabeth M. Harman
Assistant Administrator
Grant Programs Directorate

This Information Bulletin serves to clarify the implementation of the PRICE Act in regard to the State Homeland Security Grant Program (SHSP), Urban Areas Security Initiative (UASI), Tribal Homeland Security Grant Program (THSGP), and Operation Stonegarden (OPSG), and provides examples of how to account for typical personnel costs.

The PRICE Act amends the Homeland Security Act of 2002, (P.L.107–296, 6 U.S.C. 609), Title 6, Chapter 1, Subchapter XV, Part A, §609. As such, 6 U.S.C 609(b)(2)(A) states: "Not more than 50 percent of the amount awarded to a grant recipient under section 604 (Urban Area Security Initiative) or 605 (State Homeland Security Grant Program) of this title in any fiscal year may be used to pay for personnel, including overtime and backfill costs, in support of the permitted uses under subsection (a)."

Subsection (a) [6 U.S.C 609(a) – Permitted Uses] state: "... grant funds to achieve target capabilities related to preventing, preparing for, protecting against, and responding to acts of terrorism, consistent with a State homeland security plan and relevant local, tribal, and regional homeland security plans."

In other words, the PRICE Act clarifies what is covered by the 50 percent cap on personnel costs. To comply with the PRICE Act, grantees should keep track of personnel and personnel-related activities that would contribute to a personnel cap. In general, costs associated with:
• Work performed under contract for a specific deliverable DOES NOT count against the personnel cap, however,
• Work performed under contract for an undefined period, such as for personnel costs supporting operational activities, including general planning, training or exercise activities DO count against the personnel cap; and
• Work performed by all non-contractor personnel, including for full- or part-time staff and operational overtime DO count against the personnel cap.

The following examples would not count towards the personnel cap:

• Vendor installation of a radio tower;
• Vendor training on new equipment purchased;
• Contractor hired to create an Emergency Operations Plan;
• Contractor hired to provide deliveries of ICS 400; and
• Contractor hired to assist with planning, training, evaluating, and reporting the effectiveness of a specific exercise.

The following examples would count towards the personnel cap:

• Contractor hired to be the State’s WMD training instructor with no specific deliverables under contract;
• Contractor hired to facilitate unidentified number of exercises throughout the performance period;
• Contractor hired to be the part-time auditor of HSGP grants throughout the year; and
• Contractor hired to be an intelligence analyst.

Recipients should also know that cap created under 6 U.S.C. 609(b)(2)(A) may be waived at the discretion of the FEMA Administrator.

6 U.S.C. 609(b)(2)(B) states:
At the request of the recipient of a grant under section 604 or 605 of this title, the Administrator may grant a waiver of the limitation under subparagraph (A).

Sections 604 and 605 are SHSGP and UASI respectively.

Please make your state and local sub grantees aware of this additional clarification, as it will assist in the development of both Investment Justifications and to ensure accuracy of reporting requirements.

For questions related to the PRICE Act or waiver requests, please contact your Program Analyst or the Centralized Services Information Desk at 1-800-368-6498 or via email at askcsid@dhs.gov.
