TYPE OF SERVICE: Aviation Safety and Security Computer Based Training (CBT) Development
FUNDING SOURCE: Airport Operating Funds

PSC AMOUNT: $300,000 PSC DURATION: 8/20/2013 – 12/31/2018

1. DESCRIPTION OF WORK

A. Concise description of proposed work: The Transportation Security Administration (TSA) under federal regulation Part 1542 and the Federal Aviation Administration (FAA) under federal regulation Part 139 requires the Airport to provide security and safety trainings to airlines, tenants, vendors, constructors and government employees in order to receive an airport security badge and operate in the Airport environment. The Contractor will update and develop computer based training (CBT) course content for security and safety training modules in Security Identification Display Area (SIDA), Security Awareness, Authorized Signatory, Non-Movement Driving in Air Operations Area, Movement Driving in Air Operations Area, Fueling, Escort Privileges, and Passenger Boarding/Jet Bridge courses. The Contractor will also provide maintenance to the operating software/system of the CBT known as iLS (Instructional Learning System), update course content and develop additional program as required by regulatory changes.

B. Explain why this service is necessary and the consequences of denial: This training is required to meet the regulatory requirements mandated by the TSA and FAA before issuance of an airport ID badge. Denial of the request would hinder SFO's ability to remain in timely compliance with the Transportation Security and Federal Aviation Regulations resulting in audit findings, and would reduce both the quality of the training provided and the quantity of trainees processed.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number): The work was completed through a Memorandum of Understanding (MOU) with the City College of San Francisco.

D. Will the contract(s) be renewed? Yes, if there continues to be a need for such services at SFO.

TYPE OF APPROVAL: ( ) EXPEDITED  (X) REGULAR (OMIT POSTING _________)

( ) CONTINUING  ( ) ANNUAL

TYPE OF REQUEST: (X) INITIAL REQUEST  ( ) MODIFICATION (PSC#__________)

TYPE OF SERVICE: Software Development and System Configuration

FUNDING SOURCE: Operating Fund

PSC AMOUNT: $1,500,000.00  PSC DURATION: September 1, 2013 to September 30, 2014

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
      The consultant will provide full-service configuration design, implementation and support for SFMTA to integrate the Sustainable Streets Division's project management business needs into the on-going SFMTA's Capital Program and Control System (CPCS) implementation. CPCS is an agency-wide program controls software system capable of tracking capital project budgeting, financing, and contractor payments, project design scheduling, construction scheduling, and contract claims management. The consultant shall provide the following services: collect all project management and financial data (approximately 300 projects) and standardize data for analysis and input in the system; develop detailed requirements (including reporting requirements), technical design specifications, and configuration for integrating/customizing the various software components; build integration software and configuration; install software components; migrate data to the new solution; process design (to be) and implementation; testing; documentation; training; and solution rollout for production.

   B. Explain why this service is necessary and the consequences of denial:
      This service provides a critical project management controls system functionality currently lacking in the Sustainable Streets Division of the SFMTA. Denial of the subject contract would result in the delay of critical systems required for the management of major transportation related capital projects. It would result in a lack of integration with other systems critical to department operations and project delivery, including the City's mandate that SFMTA migrate to the PeopleSoft payroll system by January 2014.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
      The subject services have not been required in the past due to the fact that SFMTA has never had a program controls software system. A similar but related contract was approved through PSC Number 4029-10/11.

   D. Will the contract(s) be renewed: No

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedures):

STAFF ANALYSIS/RECOMMENDATION: CIVIL SERVICE COMMISSION ACTION:

PSC FORM 1 (6/85)
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
      8-10 years of experience in managing, architecture, design and implementation of large scale Transit related IT Projects from requirements through implementation/post implementation support phases. Demonstrated experience in implementing Capital Project Management Systems using Oracle Primavera P6. Experience in configuring and customizing CPCS Software Components (i.e., Oracle Primavera P6; Oracle Primavera CM; EcoSys; Microsoft Share Point) with preferential, certifications related to CPCS Software Components.

   B. Which, if any, civil service class normally performs this work?
      5504 Information Technology Project Manager II, 1064 IS Business Analyst-Principal, 1064 IS Programmer Analyst-Principal, 1070 IS Project Director. However, these civil service classes do not possess the required expertise in Oracle Primavera P6 and knowledge of CPCS software components.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
      No

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
      Some SFMTA technology projects require specialized expertise for which civil service classes do not possess proven experience in the required system components. Although certain civil service classes may perform some of the other work such as coordinating and overseeing the project, they do not have the specific expertise for some tasks within that work (e.g. skills in configuring and customizing CPCS Software Components).

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      No. It is not practical to adopt new civil service classes that are not regularly used in these specialized areas. Contracting through as-needed consultant for specialty work and to supplement city staff is more cost effective. In addition, this is a one-time project for the duration of one year.

5. ADDITIONAL INFORMATION (if “yes,” attach explanation)

      Yes ( ) No ( )
   D. Are there federal or state grant requirements regarding the use of contractual services?
      Yes ( ) No ( )
   E. Has a board or commission determined that contracting is the most effective way to provide this service?
      Yes ( ) No ( )
   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?
      Yes ( ) No ( )

1. DESCRIPTION OF WORK
A. Concise description of proposed work:
The contractor will design and implement a Capital Program Controls System (System) and will provide specialized professional and technical program/project controls services in transit/subway design and construction management business practices that will include cost control, contract management, scheduling, document control, claims management support and cost estimation. The contractor will develop, provide, integrate and program computer software programs and the City's legacy software systems into the System for the Central Subway Project and various other SFMTA projects. Support, maintenance, application consulting, and end-user training will be provided to ensure the successful implementation of this comprehensive system.

B. Explain why this service is necessary and the consequences of denial:
This service is needed to replace an existing outdated capital program controls system. It is SFMTA Capital Programs and Construction Division policy to be completely and sufficiently staffed to perform the essential work of the Division. This service is necessary to coordinate and monitor the progress and needs of vendors/materials all projects within the overall scheme of the Central Subway Project. If professional/technical services cannot be provided when they are needed, it will adversely impact and possibly delay the delivery of projects. Delays to SFMTA projects can have an adverse impact on providing service to the public.

Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
This service has not been provided in the past. Similar minor project controls services for specific projects were provided under contracts for as-needed Specialized Engineering Services such as PSC #4012-05/06, approved by Civil Service Commission on August 1, 2005.

D. Will the contract(s) be renewed: No.

PERSONAL SERVICES CONTRACT SUMMARY

DATE: May 11, 2005

REQUESTING DEPARTMENT: Municipal Transportation Agency Department Number 035

TYPE OF APPROVAL: □ EXPEDITED □ CONTINUING □ ANNUAL

TYPE OF REQUEST: □ INITIAL REQUEST □ MODIFICATION (PSC# ___________)

TYPE OF SERVICE: As-Needed Specialized Engineering Services

FUNDING SOURCE: Operating Budget, Grant, Project, FTA/Federal, State, Local

PSC AMOUNT: $1,000,000.00 PSC DURATION: 9/1/2005 – 9/1/2008

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
Provide specialized professional and technical engineering services such as geotechnical engineering, cost analyses, systems integration and engineering, and noise and vibration mitigation. Services will be provided for the implementation of various Municipal Transportation Agency (MTA) projects. Obtain professional services for small projects that are on a short timeframe and must proceed quickly to complete MTA projects on an as-needed basis.

B. Explain why this service is necessary and the consequences of denial:
The intent of the Professional Services contract is to enable MTA to obtain technical assistance on short notice on an as-needed basis from the selected consultant and/or sub-consultants recommended by MTA. It is the policy of the Construction Division to be completely and sufficiently staffed to perform the base load of the essential work of the Division. However, due to the unpredictability and variety of project work, the need for professional services and other assistance required to complete projects sometimes exceeds the availability and capabilities of in-house staff to perform the work. If these professional services cannot be provided when they are needed, it will adversely impact and possibly delay the delivery of MTA projects. Delays to MTA Projects can have an adverse impact on providing service to the public or the service may be affected by operational or maintenance problems.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
As-needed engineering services have been provided through similar contracts in the past. The most recent contract for as-needed specialized professional and technical engineering services was approved by CSC # 4053-02/03 approved on October 7, 2002.

D. Will the contract(s) be renewed: No.

3. **DESCRIPTION OF REQUIRED SKILLS/EXPERTISE**

   A. Specify required skills and/or expertise: Specialized skills and expertise in engineering specialties such as geotechnical engineering, cost analyses, systems integration and engineering, and noise and vibration mitigation.

   B. Which, if any, civil service class normally performs this work? Certain classifications such as 5241 Engineer and 5211 Senior Engineer may be assigned to perform some of this work, but few city personnel have the background and experience in geotechnical engineering, cost analyses, systems integration and engineering, and noise and vibration mitigation that we are seeking. Please note that all of the city engineering agencies were polled regarding their desire to perform any of the specialized tasks, and they all declined. Local 21 was informed of our outreach and results. (Please see attached.)

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No.

4. **WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM**

   A. Explain why the civil service classes are not applicable: MTA does not have adequate staffing and expertise to perform all of its work. Other city agencies do not have the expertise/desire to perform in these specialized engineering fields. Some MTA projects require specialized expertise for which there are not civil service classes. Although certain civil service classifications may perform some of the work, they do not have the specific expertise for some tasks. Additionally, due to the unpredictability and variety of project work, the need for professional services and other assistance required to complete projects sometimes exceeds the availability and capabilities of in-house staff to perform the work.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain. No. It is not practical to adopt new civil service classes in these specialized areas, which are seldom used. Contracting through an as-needed consultant for specialty work is more cost effective.

5. **ADDITIONAL INFORMATION** (if "yes", attach explanation)

   A. Will the contractor directly supervise City and County employees?
      
   B. Will the contractor train City and County employees?
      - Describe training and indicate approximate number of hours.
      - Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate number to be trained.
   
   C. Are there legal mandates requiring the use of contractual services?
   
   D. Are there federal or state grant requirements regarding the use of contractual services?
   
   E. Has a board or commission determined that contracting is the most effective way to provide this service? MTA Board Resolution No. 05-019, approved on February 1, 2005.
   
   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?

Hi Sharon,

I was able to find the information you requested about the budget for the OLSE's Sweatfree Contracting Ordinance monitoring PSC that you requested.

This is a small contract -- the PSC amount has decreased slightly from $50,000 per year to $47,500 per year. The actual amount spent has been consistently lower than the estimated amount, initially because there were few contracts covered by the Sweatfree Contracting Ordinance for the vendor to monitor. We expect that actual spending will be closer to the estimated amount in future years, now that there are more contracts covered by the Ordinance.

<ATT00001..gif>

As I mentioned, all the monitoring work for this contract is done in countries outside the US. Also, the Sweatfree Contracting Ordinance specifies that monitoring may be done by an independent non-profit contractor, which I think is why Local 21 has granted waivers in the past. Admin Code Section 12U.7(b) states:

(b) Until such time as the City and County determines that it is able to adequately monitor compliance with this Chapter using City personnel, the City and County shall, subject to the Charter, including without limitation its budgetary and fiscal provisions, and the Municipal Codes, enter into an agreement with an independent non-profit organization with expertise in monitoring and reporting on Sweatshop Labor for assistance monitoring the compliance of Contractors. This subsection does not in any way limit the City's ability to contract for assistance under subsection 12U.7(a).

I am also attaching Appendix A from the last contract amendment, which includes a basic budget for the services provided. The formatting is sort of strange, but I think you can still see how the budget breaks down.

Let us know if you can approve the 30-day waiver, or if you have other questions.

Thanks!

1. DESCRIPTION OF WORK

A. Concise description of proposed work:

The City's Sweatfree Contracting Ordinance (Administrative Code Section 12U) authorizes OLSE to monitor contractors' compliance with the Ordinance. This extension of the PSC duration and adding funds are requested because contract monitoring was delayed. The Ordinance provides that until such time as the City determines that it is able to adequately monitor compliance using city personnel, the City shall enter into a professional services contract with an independent non profit organization for assistance in monitoring compliance. The vendor will monitor compliance by contractors located outside of the Bay Area and abroad (e.g. Mexico, India, China, Dominican Republic and other foreign countries) that provide goods to the City. B. Explain why this service is necessary and the consequences of denial:

The Sweatfree Contracting Ordinance specifies that OLSE shall contract an independent non profit organization with expertise in Sweatshop Labor for the implementation of the ordinance. If this request is denied, the Ordinance will not be effectively enforced or fully implemented.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number): PSC 4020-06/07. To date, the contractor has provided consultation services and limited monitoring services. Due to a delay and the limited number of awarding uniform contracts, only three contracts have been awarded under the Ordinance. Two contracts are currently being monitored by the contractor. Therefore, monitoring of contracts is just beginning to take place. The current contract expires 9/28/10. OLSE requests authorization to extend this sole source contract through 9/28/12.

D. Will the contract(s) be renewed: Yes

The Board of Supervisors finds and declares the following:

(a) This Chapter shall be known as the Sweatfree Contracting Ordinance.

(b) Each year the City and County of San Francisco spends hundreds of millions of dollars contracting with private sector contractors for the purchase or rental of goods. The prudent expenditure of public dollars requires that the City select responsible contractors.

(c) The City and County, as a major purchaser of goods, must be cognizant of the labor conditions that may be supported by its actions as a major market participant. Better working conditions assure consistently better quality goods for the City and County, by assuring fewer disruptions in the workplace due to workers’ grievances, fewer absences due to illnesses, less fatigue and fewer workplace injuries, less turnover of workers, and greater incentive to perform.

(d) In its role as a market participant, the City and County seeks to assure that the integrity of the procurement process is not undermined by contractors or subcontractors who engage in sweatshop practices. Contractors who use Sweatshop Labor are able to undervalue responsible contractors who pay fair wages and maintain humane work environments and conditions. Such practices place responsible contractors at a competitive disadvantage, which may dissuade responsible contractors from participating in the City and County procurement process. This Chapter will encourage responsible contracting with the City and County and reduce any inadvertent support of contractors who use Sweatshop Labor.

(e) By adopting this ordinance, the City and County does not intend to preclude the City and County or its contractors or subcontractors from doing business with any foreign country.

(Added by Ord. 223-05, File No. 091287, App. 5/16/2005)

The report shall include the supporting information upon which each recommendation is based and a report on the financial impact that adoption of the recommendation will have on the City and County. The Director may submit any recommendation to extend the applicability of this Chapter to other goods to the Board of Supervisors. Upon the adoption of an ordinance approving such recommendation, Contracts for the purchase of such goods shall be subject to this Chapter. The Director in the Director's discretion may adopt other recommendations of the Sweatfree Procurement Advisory Group subject to the Municipal Code and the Charter.

The Director may, in consultation with the Office of Labor Standards Enforcement, issue regulations for the enforcement of this Chapter. The Director may delegate, in writing, responsibilities to other departments, offices, employees, officers, or agents of the City and County. Each City department, when requested by the Director, shall cooperate with the Director in the implementation or administration of this Chapter, and when requested by the Director or Office of Labor Standards Enforcement, shall cooperate with the enforcement of this Chapter by providing relevant information that is in the department's possession and control, and providing any other assistance that may be feasible for the department to provide. The City and County may, subject to the Charter, including without limitation its budgetary and fiscal provisions, and the Municipal Codes, enter into an agreement with an independent non-profit organization with expertise in monitoring and reporting on Sweatshop Labor for assistance in monitoring the compliance of Contractors. This subsection does not in any way limit the City's ability to contract for assistance under subsection 1211.7(n).

(b) Until such time as the City and County determines that it is able to adequately monitor compliance with this Chapter using City personnel, the City and County shall, subject to the Charter, including without limitation its budgetary and fiscal provisions, and the Municipal Codes, enter into an agreement with an independent non-profit organization with expertise in monitoring and reporting on Sweatshop Labor for assistance in monitoring the compliance of Contractors. This subsection does not in any way limit the City's ability to contract for assistance under subsection 1211.7(n).

(c) Each Contractor and Subcontractor shall cooperate fully with any investigation of the Director, the Office of Labor Standards Enforcement, the Director's designee or contractors, including without limitation any independent non-profit monitor, and other City employees and agents authorized to assist in the implementation, administration or enforcement of this Chapter. Such persons or entities shall, in the performance of their duties, have the right to engage in random inspections of any worksite where the Contractor or any Subcontract is performed and have access to any Worker or any record required to be maintained in Section 1211.3.

(d) Any failure of a Contractor or Subcontractor to perform in accordance with this Chapter shall be a material breach of the Contract. In such an event, the City and County may take any or all of the following actions:

1. Assess liquidated damages as provided for in the Contract.
2. Terminate the Contract.
3. Commence debarment proceedings pursuant to Chapter 28 of this Code against the Contractor, where the Contractor has failed to comply with this Chapter, or against the Subcontractor, or Contractor and Subcontractor, where the Subcontractor has failed to comply with this Chapter.
4. Withhold payments under the Contract until the Contractor or its Subcontractor is in full compliance with this Chapter.
5. Require the Contractor or Subcontractor, at its expense, to provide training and best practices guidelines to managers and employees at the facility or operation where the violation occurred to ensure future compliance. Upon request by the Director or the Director's designee, the Contractor or Subcontractor shall submit such materials for the City and County's review and approval prior to distribution to managers and employees.
6. Any Contractor or Subcontractor shall provide the Director or the Director's designee or contractor, and other City employees and agents authorized to assist in the administration and enforcement of this Chapter immediate access to the facility or operation where the violation has occurred for an inspection of the facility or operation and records, and interviews of Workers.
During the term of the Contract, but not more than once every 30 days, the Director, the Office of Labor Standards Enforcement, or the Director's designee may require the Contractor or Subcontractor to provide a written summary of the steps taken to remedy the noncompliance and any difficulties encountered in curing the noncompliance. The request may require the response to be submitted under penalty of perjury. The Contractor or Subcontractor shall provide the written summary within the time period specified by the Director, the Office of Labor Standards Enforcement, or the Director's designee, which shall not be less than 14 days from receipt of the request.

Pursue any other remedies available to the City and County at law or in equity.

**SEC. 12U.8. - EFFECTIVE DATE.**

This Chapter shall be effective ninety days after it is adopted. This legislation is intended to have prospective effect only.

(Amended by Ord. 223-05, File No. 051257, App. 9/16/2005)

**SEC. 12U.9. - EXCEPTIONS.**

This Chapter shall not apply in the following circumstances:

(a) When a Contract involves the expenditure of funds received by the City and County and the application of this Chapter would violate or be inconsistent with the terms or conditions of the applicable grant agreement, subvention or agreement or the instructions of an authorized representative of any such agency with respect to any such grant agreement, subvention or agreement.

(b) When the Director or the Director's designee determines that there is only one responsible contractor available to provide the Goods and that contractor is unable to comply with this Chapter, or the City and County department, commission, office or other City and County entity seeking to enter into the contract certifies in writing to the Director, and the Director finds that there are no qualified responsive bidders or proposers or prospective contractors that would comply with the requirements of this Chapter and the Contract is for Goods that are essential to the City or the public. This subsection (b) is subject to the provisions of Section 12U.9.5. If a waiver is granted pursuant to this subsection (b), the Contract entered into as a result of the waiver may be for a term of no greater than two years.

(c) When the Contract is with a public entity.

(d) When the acquisition of Goods is only incidental to the other purchases under the Contract. The acquisition of Goods shall be incidental if the amount paid by the City for the Goods is 10 percent or less than the total amount of the Contract.

(e) If the department recommending the Contract certifies in writing to the Director that pursuant to Administrative Code Section 5.60 or 21.15 that the Contract is necessary to respond to an emergency which endangers the public health or safety and no entity which complies with the requirements of this Chapter capable of responding to the emergency is immediately available.

(Amended by Ord. 223-05, File No. 051257, App. 9/16/2005; Ord. 265-07, File No. 071269, App. 11/14/2007)

**SEC. 12U.9.5. - AWARD OF CONTRACT ABSENT A SWEATFREE-COMPLIANT BID OR PROPOSAL.**

(a) It is the City's goal to achieve full compliance with this Chapter. But, in the absence of bids or proposals that are fully compliant with the provisions of this Chapter, the City should have authority to award Contracts to the bidder or proposer that is most compliant with this Chapter. If, in response to a solicitation for bids or a request for proposals, the City receives no bids or proposals that are fully compliant with the provisions of this Chapter, the Director is authorized to enter into a Contract with a noncompliant bidder or proposer, according to the following principles.

(b) Notwithstanding the determination of low bid or highest ranked proposal, the Director shall have authority to determine which bidder or proposer most substantially complies with this Chapter, and shall award the Contract to that bidder or proposer.

(e) No Contract awarded pursuant to subsection (b) may exceed two years in term unless the Director determines, no later than six months prior to the expiration of the original term of the Contract, that the Contractor has achieved an additional level or
levels of compliance with the provisions of this Chapter that warrants exercise of an option to extend the Contract for up to an additional year:

(d) Any Contract awarded pursuant to subsection (b) shall be terminated by the Director during the original term of the Contract or any extension of the original term if the Director determines that the Contractor: (i) is not making a good faith effort to achieve an additional level or levels of compliance with the provisions of this Chapter or (ii) has not corrected within a reasonable time, as defined by the Director, a specific violation of this Chapter that the City discovers after award of the Contract. In addition, the Director shall include in any Contract awarded pursuant to subsection (b) a compliance plan that identifies deficiencies in the bid or proposal and specifies a condition or conditions and related timetables designed to achieve an additional level or levels of compliance with the provisions of this Chapter no later than six months prior to the expiration of the original term of the Contract; and failure of the Contractor to satisfy said compliance plan may serve as the basis for the Director to terminate the Contract.

(e) Standards for determining most substantial compliance under subsection (b) and additional level or levels of compliance under subsections (c) and (d) shall be adopted by the Director following consultation with the Office of Labor Standards Enforcement and the Sweatfree Procurement Advisory Group, and a public hearing. Such standards shall give due consideration to the City’s need to receive information from bidders and Contractors to enable the City to monitor compliance with this Chapter; the degree to which a particular requirement of the Ordinance is not being complied with by a bidder or Contractor; the number of requirements of the Ordinance that are not being complied with by a bidder or Contractor; the practical difficulties faced by bidders and/or Contractors generally in complying with a particular requirement of the Ordinance; the relative importance, if ascertainable, of the different labor standards set forth in Section 12U.3; and such other factors as may be relevant to achieving maximum compliance with this Chapter. Such standards shall become operative on the effective date of this Section if they are adopted by the Director before then. Such standards shall become operative on the date they are adopted by the Director if that occurs after the effective date of this Section.

In addition, the Director has authority to adopt rules and procedures that implement this Section.

(f) The Director shall not award a Contract pursuant to subsection (b) where the cost of that contract would exceed the low bid or highest ranked proposal by more than 15 percent.

(g) The Director shall submit quarterly reports to the Board of Supervisors regarding the implementation of this Section and contracts issued to otherwise noncompliant bidders or proposers under this Section.

(h) Neither subsection (b) nor any other provision in this Section shall override the Director’s authority to reject all bids or proposals or take other action within his or her legal authority.

SEC. 12U.11. - SEVERABILITY.

If any part or provision of this Chapter or the application of this Chapter to any person or circumstance, is held invalid, the remainder of this Chapter, including the application of such part or provisions to other persons or circumstances, shall not be affected by such holding and shall continue in full force and effect. 1. DESCRIPTION OF WORK
   A. Concise description of proposed work:

   This Urban Area Security Initiative (UASI) 2012 Grant project (CSC approved contract number 4121-12/13 – Tier 1 on May 20th, 2013) is designed to replace the existing Mobile VPN System for the Department of Emergency Management (DEM), Police Department (PD) and Fire Department (FD). The Mobile VPN System operates daily to allow field officers from PD and FD to communicate with back-end CAD (Computer-aided Dispatch) and other applications. This purchase will allow the selected vendor to provide technical support from year 2 to 5 for Department of Technology (DT) and Department of Emergency Management (DEM) to keep the system running and functioning properly.

   B. Explain why this service is necessary and the consequences of denial:

   The newly implemented Mobile VPN product called RadioIP-Multi-IP (IP stands for Internet Protocol) system is absolutely critical to allow field responders to communicate with Public Safety Systems such as CAD, California Crime Database, Patient Care Report (PCR), etc. In order to make sure the system runs properly, DT, DEM and PD will need tier 2 technical supports (meaning City employees will be the first line of support, if the problem cannot be fixed, it will be escalated to this vendor for further diagnose and resolution). Denying the service would be detrimental to the City’s communications capability for Public Safety personnel.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

   The older version of the similar software support was purchased off a Motorola Master Purchase agreement.

   D. Will the contract(s) be renewed: At this time, this contract is not planned to be renewed. The maintenance and yearly service fees will be included with the Department of Emergency Management’s annual maintenance budget.

PSC AMOUNT: $240,000

PSC DURATION: 06/01/13-11/30/13

1. DESCRIPTION OF WORK

A. Concise description of proposed work:

This UASI 2012 Grant project is designed to replace the existing Mobile VPN System for the Department of Emergency Management, Police Department (PD) and Fire Department (FD). The Mobile VPN System operates daily to allow field officers from PD and FD to communicate with back-end CAD (Computer-aided Dispatch) and other applications. In addition to the purchase of proprietary software and hardware, vendor(s) will also provide professional services including system design, installation, testing, training, support, and overall project management.

B. Explain why this service is necessary and the consequences of denial:

The current Radio IP system which was purchased in 2008 has reached the end of its useful life and will not be supported by the vendor starting 2014. The system is absolutely critical to allow field responders to communicate with Public Safety Systems such as CAD, California Crime Database, Patient Care Report (PCR), etc. Denying the service would be detrimental to the City's communications capability for Public Safety personnel.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

The older version of the similar software was purchased off a Motorola Master Purchase agreement.

D. Will the contract(s) be renewed: At this time, this contract is not planned to be renewed. The maintenance and monthly/yearly service fees will be included with the Department of Emergency Management’s annual maintenance budget.

   B. Which, if any, civil service class normally performs this work?
      1042 or 1043 (Journey or Senior IS Engineer) for server installation/configuration, and 7362
      Communications System Tech. Dept. of Technology will receive a work order to perform mass
      installation/configuration after the first 10 units installed/tested by vendors.

      The UASI Grant Program is being used to fund this project. Conditions of the grant include a personnel
      cap limit, which has already been reached. No additional grant funds can be used toward personnel
      costs. Contractor costs for specific projects are excluded from the personnel cap limitation and provide
      the only avenue to complete the project.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain:
      No. Civil service class currently exists that would perform work under this project if it were not
      restricted due to grant conditions limiting the use of City staff time.

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
      Center on Juvenile and Criminal Justice (CJCI) youth advocate services are necessary to provide community support and monitoring to youth at their school sites, in Court, in their homes and in their communities. CJCI will provide an intensive case management approach to promote each youth’s school and community adjustment by ensuring access to appropriate educational supports. The youth advocate will work as a team with the Public Defender education attorney. The Legal Education Advocacy Program (LEAP) attorney is the team leader and the education youth advocate works under the daily supervision of the LEAP attorney. The youth advocate is an agent of the attorney and protected by the attorney – client privilege. While the education attorney advocates for the legal educational rights of the youth, the youth advocate ensures that an individualized service plan is developed for the youth to provide consistent and close supervision of the youth in compliance with education plans. The youth advocate will be based in the community and will work daily in the schools, interacting with school teachers, administrators, and support staff. The youth advocate will also assist the LEAP attorney in advocating for educational system’s reform by conducting education workshops for parents and guardians who are the education rights holders of youth, testifying before school board hearings and meetings, and interfacing with community based agencies to improve policies and procedures that impact school success for Public Defender juvenile clients.

      The LEAP youth advocate’s sole goal and responsibility is to improve youth’s educational performance as measured by increased attendance, improved behavior, improved grades, and ultimately matriculation through appropriate grade level and graduation.

   B. Explain why this service is necessary and the consequences of denial:

      If the City/County denies this contract, the Office of the Public Defender will be out of compliance with our LEAP federal grant requirements to provide the necessary supports and case management supervision for our clients who are in risk and are on probation. LEAP is in its second year of funding and year 3 funding will be continued only if LEAP is providing the stated services of youth advocacy case management services provided by CJCI. Moreover, the lack of educational advocacy case management services for our high risk clients can result with youth in prolonged detention, removal of the youth from the home, and higher rates of recidivism.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

      This service was previously approved by CSC on April 16, 2012. The PSC number is 4115-11/12.

D. Will the contract(s) be renewed:

   Yes, if the grant receive additional funding for 3rd years.

PSC DURATION: January 1, 2012 – December 31, 2012

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:

   Center on Juvenile and Criminal Justice (CJCJ) youth advocate services are necessary to provide community support and monitoring to youth at their school sites, in Court, in their homes and in their communities. CJCJ will provide an intensive case management approach to promote each youth’s school and community adjustment by ensuring access to appropriate educational supports. The youth advocate will work as a team with the Public Defender education attorney. The LEAP attorney is the team leader and the education youth advocate works under the daily supervision of the LEAP attorney. The youth advocate is an agent of the attorney and protected by the attorney – client privilege. While the education attorney advocates for the legal educational rights of the youth, the youth advocate ensures that an individualized service plan is developed for the youth to provide consistent and close supervision of the youth in compliance with education plans. The youth advocate will be based in the community and will work daily in the schools, interacting with school teachers, administrators, and support staff. The youth advocate will also assist the LEAP attorney in advocating for educational system’s reform by conducting education workshops for parents and guardians who are the education rights holders of youth, testifying before school board hearings and meetings, and interfacing with community based agencies to improve policies and procedures that impact school success for Public Defender juvenile clients.

   The LEAP youth advocate’s sole goal and responsibility is to improve youth’s educational performance as measured by increased attendance, improved behavior, improved grades, and ultimately matriculation through appropriate grade level and graduation.

   B. Explain why this service is necessary and the consequences of denial:

   If the City/County denies this contract, the Office of the Public Defender will be out of compliance with our LEAP federal grant requirements to provide the necessary supports and case management supervision for our clients who are in risk and are on probation. LEAP is in the first year of funding and years 2 and 3 funding will be continued only if LEAP is providing the stated services of youth advocacy case management services provided by CJCJ. Moreover, the lack of educational advocacy case management services for our high risk clients can result with youth in prolonged detention, removal of the youth from the home, and higher rates of recidivism.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

   This service has not been provided in the past because the LEAP Program has not been formally established before.

   D. Will the contract(s) be renewed:

   Yes, if the grant receive additional funding for 2nd and 3rd years.

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
   The Department of Human Resources (DHR) must provide City unemployment insurance claims administration services, including unemployment claims processing, claims appeals, representation at unemployment insurance appeals hearings, regular audits of billing statements, records maintenance, reports and training.

   B. Explain why this service is necessary and the consequences of denial:
   Federal and state laws require unemployment insurance (UI) benefits and claims administration. To meet legal mandates and control the cost of UI, DHR wishes to contract with a third-party administrator (TPA) to provide UI claims administration services. Denial would increase the City's UI claims costs due to lack of specialized expertise and related claims administration delays and liability. Creating a new administrative infrastructure for UI would potentially double current administrative costs.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
   These services have been provided by a TPA since 1978. The Commission approved the PSC#4123-05/06 on July 1, 2006. The current CSC approved amount is $574,500 through December 31, 2013.

   D. Will the contract(s) be renewed:

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
Vendor provides comprehensive unemployment insurance claims administration services, including unemployment claims processing, claims appeals, representation at Unemployment Insurance Appeals Hearings, regular audits of billing statements, records maintenance, reports and training.

B. Explain why this service is necessary and the consequences of denial:
Unemployment insurance (UI) benefits are required by both federal and state law. To meet these legal responsibilities and control the cost of UI, the City contracts with a Third Party Administrator (TPA) to provide UI claims administration services. The denial of these services would increase the City's UI claims costs due to delays and require the City to create the administrative infrastructure and knowledge-base to administer the UI program, doubling current administrative costs.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
Unemployment insurance claims administration services have been provided by a Third Party Administrator since 1978. This modification allows the Department of Human Resources ("DHR") to exercise the first 2-year extension of the current contract, which was approved 6/5/2006 under PSC 4123-05/06.
