Subject: Personal Services Contracts Approval Request

This report contains ten (10) personal services contracts (PSCs) in accordance with the revised Civil Service Commission (CSC) procedures for processing PSCs that became effective on July 1, 1996.

The services proposed by these contracts have been reviewed by Department of Human Resources (DHR) staff to evaluate whether the requesting departments have complied with City policy and procedures regarding PSCs. The proposed PSCs have been posted on the DHR website for seven (7) calendar days. CSC procedures for processing PSCs require that any appeal of these contracts be filed in the office of the CSC, Executive Officer during the posting period.

No timely appeals have been filed regarding the PSCs contained in this report. These proposed PSCs are being submitted to the CSC for ratification/approval.

DHR has prepared the following cost summary for personal services contracts that have been processed through the Department of Human Resources to date:

## No Modification PSCs
Regular/Continuing/Annual
Personal Services Contracts
PERSONAL SERVICES CONTRACT SUMMARY

DATE:  September 9, 2013
DEPARTMENT NAME:  AIRPORT COMMISSION
DEPARTMENT NUMBER:  27

TYPE OF APPROVAL:  X REGULAR  (OMIT POSTING ___)

TYPE OF REQUEST:
X INITIAL REQUEST  ___ MODIFICATION

TYPE OF SERVICE:  Design-Build (DB) Services for the South Main Point of Entry (SMPOE) Data Center Expansion Project

FUNDING SOURCE:  Department of Technology and Airport Capital Funds

1. DESCRIPTION OF WORK

A. Concise description of proposed work: The SMPOE Data Center project includes the development (both design and construction) of a new "Greenfield-built" Data Center Facility, that will include data processing equipment room, mechanical systems room, battery storage room, office, restroom and utility room. San Francisco International Airport (SFO) requires construction management support with design-build experience in Data Centers design and construction experience to manage the programming, design and construction of this project. This project also includes the coordination of the construction of new fiber cable communications connections and all additional utilities/services necessary to service the building. The DB team will be responsible for providing the specialized expertise to complete the design and construct this project using a fast-track approach.

B. Explain why this service is necessary and the consequences of denial: The San Francisco Department of Technology has been mandated by the City & County of San Francisco to centralize and reduce the number of computer data storage and retrieval center facilities into three discreet locations. There are at least two sites chosen to house these centralized data centers include: 1) 300 Paul Avenue which is to be modified/expanded and 2) SFO.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number): The design build portion was previously approved under PSC 4058-11/12 on September 17, 2012; however, the PSC expired before the close out tasks were complete so we are requesting this approval to complete the project.

D. Will the contract(s) be renewed? No.

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedure):

FOR DEPARTMENT OF HUMAN RESOURCES USE

PSC # 4033-13/14
STAFF ANALYSIS/RECOMMENDATION:  Approved  W/ 10/18/2013

CIVIL SERVICE COMMISSION ACTION:

PSC FORM 1 (9/96)
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   
   A. Specify required skills and/or expertise: Direct Data Center design and construction experience associated with the latest technology available is required. As such, specific expertise in current Data Facility design technologies, data center and Airport security, specialized airport operating systems, and data center facility special systems development is required.
   
   B. Which, if any, civil service class normally performs this work? Knowledgeable staff in Architectural (5268) and Engineering (5201-5241) classifications will participate in (contribute to) this project. However, the expertise necessary to ensure a successful delivery of the Data Center Facility development project is not readily available from within the ranks of City & County personnel. City Project Managers with the appropriate expertise in managing Airport asset development and construction (including consultant assistance with unique special systems commissioning) will supervise the contracted work.
   
   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No.
   
4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   
   A. Explain why civil service classes are not applicable: The existing architectural and engineering classifications do not have the required expertise and specialized skills related to Data Center Facility development and construction. The Airport will utilize the input of experienced Airport project and contract management staff (see personnel classifications referenced above in section 3B) integrated with the design-build team to provide the required expertise necessary to deliver a successful project.
   
   B. Would it be practical to adopt a new civil service class to perform this work? Explain. As stated above, classifications exist but not with all the required specialized knowledge of current Data Center Facility industry standards, special system facility requirements. Also, major new Data Center Facility development projects do not occur frequently enough to justify permanent staffing.
   
5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   
   A. Will the contractor directly supervise City and County employees? 
   
   B. Will the contractor train City and County employees?
   
   - Describe the training and indicate approximate number of hours.
   - Indicate occupational type of City and County employees to receive training (e.g., clerks, civil engineers, etc.) and approximate numbers to be trained.
   
   C. Are there legal mandates requiring the use of contractual services?
   
   D. Are there federal or state grant requirements regarding the use of contractual services? 
   
   E. Has a board or commission determined that contracting is the most effective way to provide this service? No; however the Airport Commission has approved Resolution No. 11-0035 to issue the RFP/RFQ for these services.
   
   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department? Yes, the work will be completed by Transworld Construction.

THE ABOVE INFORMATION IS SUBMITTED AS COMPLETE AND ACCURATE ON BEHALF OF THE DEPARTMENT HEAD:

Airport Commission
City and County of San Francisco
Resolution No.: 11-0035
AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO

RESOLUTION NO. 0035

AUTHORIZATION TO ISSUE A REQUEST FOR PROPOSAL FOR DESIGN-BUILD SERVICES FOR CONTRACT 9078, SOUTH MINIMUM POINT OF ENTRY EXPANSION

WHEREAS, the objective of the City and County of San Francisco's Data Center Consolidation Project is to consolidate and house equipment that hosts the City's mission-critical IT systems in a more suitable environment and thereby increase the efficiency and reliability of City services that depend on these systems; and

WHEREAS, data center consolidation means moving much of the City's dispersed IT infrastructure into fewer, better-equipped and better-managed data centers; and

WHEREAS, the City selected the Airport's South Minimum Point of Entry (SMPOE) facility as one of two sites to house these systems; and

WHEREAS, under this project, the SMPOE facility will expanded by approximately 2500 square feet in order to house these new systems; and

WHEREAS, the Director has determined that a design-build approach is necessary to achieve an expedited schedule for substantial completion of May 2012, achieve cost savings, and best serve the public's interest; and

WHEREAS, the estimated value for these design-build services is $5.2 million; now, therefore be it

RESOLVED, that the Commission authorizes the Director to issue a Request for Proposal for Contract 9078, South Minimum Point of Entry Expansion

I hereby certify that the foregoing resolution was adopted by the Airport Commission

at its meeting of FEB 15 2011

Secretary

PERSONAL SERVICES CONTRACT SUMMARY

DATE:  November 22, 2011
DEPARTMENT NAME:  AIRPORT COMMISSION
DEPARTMENT NUMBER:  27

TYPE OF APPROVAL:  □ EXPEDITED  □ CONTINUING  □ ANNUAL  [X] REGULAR  (OMIT POSTING ___)

TYPE OF REQUEST:  [X] INITIAL REQUEST  □ MODIFICATION

TYPE OF SERVICE:  Design-Build (DB) Services for the South Main Point of Entry (SMPOE) Data Center Expansion Project

FUNDING SOURCE:  Department of Technology and Airport Capital Funds

PSC AMOUNT:  $8,000,000  PSC DURATION:  1/1/2012 to 2/28/2013

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
The SMPOE Data Center project includes the development (both design and construction) of a new “Greenfield-built” Data Center Facility, that will include data processing equipment room, mechanical systems room, battery storage room, office, restroom and utility room. SFO requires construction management support with design-build experience in Data Centers design and construction experience to manage the programming, design and construction of this project. This project also includes the coordination of the construction of new fiber cable communications connections to be brought within the building envelope (by others) and all additional utilities/services necessary to service the building in its functional intent. The DB team will be responsible for providing the specialized expertise to complete the design and construct this project using a fast-track approach.

   B. Explain why this service is necessary and the consequences of denial:
The San Francisco Department of Technology has been mandated by the City & County of San Francisco to centralize and reduce the number of computer data storage and retrieval center facilities into three discreet locations. The three sites chosen to house these centralized data centers include: 1) 300 Paul Avenue which is to be modified/expanded, 2) San Francisco International Airport (SFIA), the second of three sites for this purpose, and 3) the third location has not yet been determined. SFIA’s existing data center facility is not large enough or capable of meeting the requirements for a dedicated, independent and secure operational need to be used exclusively by the San Francisco Department of Technology however, there is sufficient room adjacent to the existing SFIA data center to build a new facility. Time is of the essence to get this new facility designed and built in order to meet the City’s decommissioning mandate of the summer of 2012, therefore, a decision was made to use a design-build approach for this project. The specific knowledge and experience necessary to complete the design and build a state-of-the-art Data Center Facility that meets all the criteria established by the bridging document design team are not those one would expect from a builder of any common structure or other multi-purpose built facility. An experienced data center design-build team is necessary to get this facility completed in a compressed schedule in order to meet the needs and requirements of the San Francisco Department of Technology. Denial of this request will cause project delays, which will affect Airport/Department of Technology operations and compliance with the City’s strategic plan mandate to reduce, centralize and diversify the number of Data Storage Center operations and locations City wide.

PSC FORM 1 (9/96)
C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
The design build portion is a new request; however, the Commission approved PSC 4025-11/12 on September 23, 2011 for the construction management portion of this project.

D. Will the contract(s) be renewed? The Airport does not anticipate renewing this contract at this time.

*************** FOR DEPARTMENT OF HUMAN RESOURCES USE ***************

PSC # 40660 - 11/12
STAFF ANALYSIS/RECOMMENDATION: Approved 12/19/11

CIVIL SERVICE COMMISSION ACTION:

3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE

A. Specify required skills and/or expertise:
Direct Data Center design and construction experience associated with the latest technology available is required. As such, specific expertise in current Data Facility design technologies, data center and Airport security, specialized airport operating systems, and data center facility special systems development is required. Likewise experience in fast-track design-build projects, project controls including scheduling, phasing, and cost control and regulatory compliance to support the design and construction of the SMPOE Data Center Facility Project and its delivery to ensure timely and accurate construction and commissioning of the Data Center Facility and all of its operating systems and to ensure compliance with the City of San Francisco’s regulatory targets shall rely upon acceptance of this request.

B. Which, if any, civil service class normally performs this work?
Knowledgeable staff in Architectural (5268) and Engineering (5201-5241) classifications will participate in (contribute to) this project. However, the expertise necessary to ensure a successful delivery of the Data Center Facility development project is not readily available from within the ranks of City & County personnel. City Project Managers with the appropriate expertise in managing Airport asset development and construction (including consultant assistance with unique special systems commissioning) will supervise the contracted work.

C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No.
4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
      The existing architectural and engineering classifications do not have the required expertise and
      specialized skills related to Data Center Facility development and construction. The Airport will utilize
      the input of experienced Airport project and contract management staff (see personnel classifications
      referenced above in section 3B.) integrated with the design-build team to provide the required expertise
      necessary to deliver a successful project. The Airport estimates that up to 15% of the administrative
      work, including project management and construction management, IT support, landside operations,
      maintenance and Airport engineering/architectural, will be performed by current Airport staff.
   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      As stated above, classifications exist but not with all the required specialized knowledge of current Data
      Center Facility industry standards, special system facility requirements. Also, major new Data Center
      Facility development projects do not occur frequently enough to justify permanent staffing, with the
      exception of project management staff.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?  
      [ ] Yes  [x] No
   B. Will the contractor train City and County employees?
      [x] Yes
      - Describe the training and indicate approximate number of hours.
      - Indicate occupational type of City and County employees to receive training
        (e.g., clerks, civil engineers, etc.) and approximate numbers to be trained.
   C. Are there legal mandates requiring the use of contractual services?  
      [x] Yes
   D. Are there federal or state grant requirements regarding the use of contractual services?  
      [x] Yes
   E. Has a board or commission determined that contracting is the most effective way
      to provide this service? No; however the Airport Commission has approved
      Resolution No. 11-0035 to issue the RFP/RFQ for these services.
   F. Will the proposed work be completed by a contractor that has a current personal
      services contract with your department?  An RFP/RFQ process is being conducted
      and the results of that process are not known at this time.

WHEREAS, the Director has determined that a design-build approach is necessary to achieve an expedited schedule for substantial completion of May 2012, achieve cost savings, and best serve the public's interest; and

WHEREAS, the estimated value for these design-build services is $5.2 million; now, therefore be it

RESOLVED, that the Commission authorizes the Director to issue a Request for Proposal for Contract 9078, South Minimum Point of Entry Expansion

I hereby certify that the foregoing resolution was adopted by the Airport Commission

at its meeting of FEB 15 2011

Secretary
CIVIL SERVICE COMMISSION  
CITY AND COUNTY OF SAN FRANCISCO  
EDWIN M. LEE  
MAYOR

September 21, 2012

NOTICE OF CIVIL SERVICE COMMISSION ACTION

SUBJECT: REVIEW OF REQUEST FOR APPROVAL OF PROPOSED PERSONAL SERVICES CONTRACT NUMBERS 4019-12/13 THROUGH 4026-12/13; 4066-11/12; 3061-11/12; 4070-10/11 AND 4095-09/10.

At its meeting of September 17, 2012 the Civil Service Commission had for its consideration the above matter.

PLEASE NOTE: It is important that a copy of this action be kept in the department files as you will need it in the future as proof of Civil Service Commission approval. Please share it with everyone responsible for follow-up.

The Commission:

(1) Continued PSC #4022-12/13 to the meeting of October 1, 2012 in order to notify IFPTE Local 21 of the request for approval.
(2) Withdrew PSC #4025-12/13 at the request of the Recreation and Parks Department. Notified the Office of the Controller and the Office of Contract Administration.
(3) Withdrew PSC #3061-11/12 at the request of the Public Utilities Commission. Notified the Office of the Controller and the Office of Contract Administration. (Vote of 3 to 0)
(4) Adopted the report; Approved the requests for all remaining contracts. Notified the Office of the Controller and the Office of Contract Administration.

If this matter is subject to Code of Civil Procedure (CCP) Section 1094.5, the time within which judicial review must be sought is set forth in CCP Section 1094.6.

### 1. DESCRIPTION OF WORK

**A. Concise description of proposed work:** The SMPOE Data Center project includes the development (both design and construction) of a new Data Center Facility that will include a data processing equipment room, mechanical systems room, battery storage room, office, vestibule room, restroom and utility room. SFO requires construction management support with design-build experience in Data Centers design and construction experience to manage the programming, design and construction of this project. This project also includes the coordination of the construction of new fiber cable communications connections to be brought within the building envelope (by others) and all additional utilities/services necessary to service the building in its functional intent. The DB team will be responsible for providing the specialized expertise to complete the design and construct this project using a fast-track approach.

The proposed $4,750,000 modification represents the cost associated with the construction of the increased size of the building from approximately 2,800 ft² to 5,800 ft². The original PSC was for a Data Center for the City and County of SF for a total cost of $8 million for the original 2,800 ft² building. However, the Airport's Information Technology and Telecommunications (ITT) needs have increased which necessitates a Data Center for the Airport. Accordingly, the larger building will be used for the Airport's needs as well as to accommodate leasing back 2/3 of the building to the City's Department of Technology (DT). DT will work with other City departments to house servers in this new Airport Data Center building.

**B. Explain why this service is necessary and the consequences of denial:** The San Francisco Department of Technology has been mandated by the City and County of San Francisco to centralize and reduce the number of computer data storage and retrieval center facilities into three discreet locations. The three sites chosen to house these centralized data centers include: 1) 300 Paul Avenue which is to be modified/expanded, 2) San Francisco International Airport (SFIA), the second of three sites for this purpose, and 3) the third location has not yet been determined. SFIA's existing data center facility is not large enough or capable of meeting the requirements for a dedicated, independent and secure operational need to be used exclusively by the San Francisco Department of Technology; however, there is sufficient room adjacent to the existing SFIA data center to build a new facility. Time is of this essence to get this new facility designed and built in order to meet the City's de-commissioning mandate of the summer of 2012, therefore, a decision was made to use a design-build approach for this project. The specific knowledge and experience necessary to complete the design and build a state-of-
the-art Data Center Facility that meets all the criteria established by the bridging document design team are not those one would expect from a builder of any common structure or other multi-purpose built facility. An experienced data center design-build team is necessary to get this facility completed in a compressed schedule in order to meet the needs and requirements of the San Francisco Department of Technology. Denial of this request will cause project delays, which will affect Airport/Department of Technology operations and compliance with the City's strategic plan mandate to reduce, centralize and diversify the number of Data Storage Center operations and locations City wide.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

This service has been previously provided through a contract, most recently under PSC 4066-11/12.

D. Will the contract(s) be renewed? Yes, if there continues to be a need for such services at SFO.

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedure):

FOR DEPARTMENT OF HUMAN RESOURCES USE

PSC # 4066-11/12

STAFF ANALYSIS/RECOMMENDATION: Approved 7/17/12

CIVIL SERVICE COMMISSION ACTION:

3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE

A. Specify required skills and/or expertise: Direct Data Center design and construction experience associated with the latest technology available is required. As such, specific expertise in current Data Facility design technologies, data center and Airport security, specialized airport operating systems, and data center facility special systems development is required. Likewise experience in fast-track design-build projects, project controls including scheduling, phasing, and cost control and regulatory compliance to support the design and construction of the SMPOE Data Center Facility Project and its delivery to ensure timely and accurate construction and commissioning of the Data Center Facility and all of its operating systems and to ensure compliance with the City of San Francisco's regulatory targets shall rely upon acceptance of this request.

B. Which, if any, civil service class normally performs this work? Knowledgeable staff in Architectural (5268) and Engineering (5201-5241) classifications will participate in (contribute to) this project. However, the expertise necessary to ensure a successful delivery of the Data Center Facility development project is not readily available from within the ranks of City & County personnel. City Project Managers with the appropriate expertise in managing Airport asset development and construction (including consultant assistance with unique special systems commissioning) will supervise the contracted work.

C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No.
4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM

A. Explain why civil service classes are not applicable: The existing architectural and engineering classifications do not have the required expertise and specialized skills related to Data Center Facility development and construction. The Airport will utilize the input of experienced Airport project and contract management staff (see personnel classifications referenced above in section 3B.) integrated with the design-build team to provide the required expertise necessary to deliver a successful project. The Airport estimates that up to 15% of the administrative work, including project management and construction management, IT support, landside operations, maintenance and Airport engineering/architectural, will be performed by current Airport staff.

B. Would it be practical to adopt a new civil service class to perform this work? Explain. As stated above, classifications exist but not with all the required specialized knowledge of current Data Center Facility industry standards or special system facility requirements. Also, major new Data Center Facility development projects do not occur frequently enough to justify permanent staffing, with the exception of project management staff.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)

A. Will the contractor directly supervise City and County employees?

B. Will the contractor train City and County employees?
   - Describe the training and indicate approximate number of hours.
   - Indicate occupational type of City and County employees to receive training (e.g., clerks, civil engineers, etc.) and approximate numbers to be trained.

C. Are there legal mandates requiring the use of contractual services?

D. Are there federal or state grant requirements regarding the use of contractual services?

E. Has a board or commission determined that contracting is the most effective way to provide this service? No, however the Airport Commission has approved Resolution No. 12-0129 to award the contract.

F. Will the proposed work be completed by a contractor that has a current personal services contract with your department? Yes, the proposed work will be completed by Transworld Construction.

THE ABOVE INFORMATION IS SUBMITTED AS COMPLETE AND ACCURATE ON BEHALF OF THE DEPARTMENT HEAD:

AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO

RESOLUTION NO. 12-0129

AUTHORIZE MODIFICATION NO. 2 (TRADE BID PACKAGE SET NO. 2) TO CONTRACT NO. 9078.A, NEW DATA CENTER, WITH TRANSWORLD CONSTRUCTION, INC. IN THE AMOUNT OF $7,279,643.

WHEREAS, on December 6, 2011, by Resolution No. 11-0274, the Commission awarded Contract No. 9078.A, New Data Center, to Transworld Construction, Inc. (Transworld) in the initial amount of $1,485,000. This amount included the design fee, general conditions costs and an owner’s allowance of $250,000 for initial construction activities; and

WHEREAS, on June 5, 2012, by Resolution No. 12-0119, the Commission approved Modification No. 1 for Civil/Site and Foundation work for $1,088,468; and

WHEREAS, the scope of this trade bid package set includes the mechanical, electrical, roofing, building and structural steel work; and

WHEREAS, Transworld received competitive bids for the trade packages, in accordance with the San Francisco Administrative Code, and the bids received are within the Commission approved budget; now, therefore be it

RESOLVED, that the Commission hereby authorizes Modification No. 2 (Trade Bid Package Set No. 2) to Contract No. 9078.A, New Data Center, with Transworld Construction, Inc., in the amount of $7,279,643 for a new contract amount of $9,853,111; and, be it further

RESOLVED, that the Commission approves a contingency budget of $546,000 (7.5%) for Type I change orders; and be it further

RESOLVED, that the Commission authorizes the Director to accept the work upon completion and make final payment provided the work is completed in accordance with Commission established procedures.

I hereby certify that the foregoing resolution was adopted by the Airport Commission

at its meeting of ______________ JUN 26 2012

0021
PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 9, 2013

DEPARTMENT NAME: PLANNING DEPARTMENT

DEPARTMENT NUMBER: 29

TYPE OF APPROVAL: [X] REGULAR (OMIT POSTING ___)

TYPE OF REQUEST: [X] INITIAL REQUEST

TYPE OF SERVICE: Management Training

FUNDING SOURCE: General Fund

PSC AMOUNT: $80,000

PSC DURATION: 10/1/2013 – 6/30/2015

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
The Planning Department is seeking proposals for a consultant to conduct a 360-degree feedback evaluation of the management of the department, and then conduct a series of focused, intensive workshops and trainings on a variety of management topics based on the results of the 360-degree evaluation.

B. Explain why this service is necessary and the consequence of denial:
The Planning Department has not offered formal or required training to the management team in many years. Staffing levels have increased in recent years due to the recovering economy and large department application volume increases with the same number of managers, which has resulted in an increase to the staff to manager ratio. Managers need training to learn tools and techniques with managing staff’s workload, evaluating staff, effectively managing staff to achieve staff’s potential, and ensuring the department is meeting its mission.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent services contract approval number):
This service has not been provided in the past. Various department managers have attended individual training sessions offered by the Department of Human Resources, such as the 24-Plus training, when available and time permitting.

D. Will the contract(s) be renewed? Contracts will be awarded on an as-needed basis for various projects.

No

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedure):

PSC# 4034-13/14

STAFF ANALYSIS/RECOMMENDATION:

CIVIL SERVICE COMMISSION ACTION:

PSC FORM 1 (9/96)
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
   The contractor must have experience successfully conducting 360-degree feedback evaluations for small and/or mid-size governmental agencies, analyze results from the evaluation into a concise report and presentation, and deliver focused courses to managers on specific management content areas.

   B. Which, if any, civil service class normally performs this work?
   A 1232 Training Officer would normally conduct the actual management training courses. The 1237 Training Coordinator would supervise and approve of the training coursework.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain: No

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
   These one-time services are specifically for a consultant that has the required experience conducting 360-degree feedback evaluations and focused management training. The required trainings are not currently available courses offered by the Department of Human Resources.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
   No; given that these services are required only for a one-time consultation to the Planning Department, it would not be feasible to attempt to create a civil service class for this purpose, or add this as a specialty to an existing class.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees? No

   B. Will the contractor train City and County employees?
   - Describe the training and indicate approximate number of hours. 10 full days of training
   - Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate numbers to be trained. Approximately 35 managers will be trained (Planner IVs and various Managers)

   C. Are there legal mandates requiring the use of contractual services? No

   D. Are there federal or state grant requirements regarding the use of contractual services? No

   E. Has a board or commission determined that contracting is the most effective way to provide this service? No

   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department? No

PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 9, 2013

DEPARTMENT NAME: San Francisco Municipal Transportation Agency

DEPARTMENT NUMBER: 68

TYPE OF APPROVAL: ( ) EXPEDITED (x) REGULAR (OMIT POSTING _________)

( ) CONTINUING ( ) ANNUAL

TYPE OF REQUEST: (x) INITIAL REQUEST ( ) MODIFICATION (PSC#___________)

TYPE OF SERVICE: Communications and Marketing Services for the Transit Effectiveness Project

FUNDING SOURCE: Operating Funds

PSC AMOUNT: _____ $1,500,000.00 _____ PSC DURATION: October 31, 2013 through October 30, 2016

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
      The contractor will provide communications/marketing/public relations services to support the Transit Effectiveness Project (TEP) proposals and other transit improvements that are in line with agency’s strategic plan of providing efficient and reliable transit service. The contractor will assist the San Francisco Municipal Transportation Agency (SFMTA) to develop a communications plan, foster public engagement, and build consensus with public officials, customers, community-based organizations and residents for the purpose of supporting TEP acceptance and implementation. Part of the work will include the development of branding for different types of SFMTA services.

   B. Explain why this service is necessary and the consequences of denial:
      This service is necessary to develop an effective communications/outreach/marketing strategy that will help build support for the TEP proposals among public officials, community members, and customers. If this service is denied, it will be more difficult for the SFMTA to meet the agency’s strategic goals of providing efficient and reliable transit services.

   C. Explain how this service has been provided in the past (If this service was previously approved by the Civil Service Commission, Indicate most recent personal services contract approval number):
      Related types of services may have been provided prior to start of major construction projects in 2003. Former services had an engineering and environmental impact focus and incorporated within an engineering contract and construction contract.

   D. Will the contract(s) be renewed:
      No.

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedures):

   PSC Form 1 (9/66)
3. **DESCRIPTION OF REQUIRED SKILLS/EXPERTISE**
   A. Specify required skills and/or expertise:
      The contractor shall have at least five years of proven experience and success in delivering strategic communications, grassroots outreach, and marketing/branding design for projects organized for the diverse communities of San Francisco. The contractor shall also have strong knowledge of San Francisco's neighborhoods, community-based organizations, and varying constituent interests and needs for the purpose of strategically communicating and connecting with a wide range of San Francisco residents and stakeholders.

   B. Which, if any, civil service class normally performs this work?
      5322 Graphic Artist, 1312 Public Information Officer, 1314 Public Relations Officer, and 5502 Project Manager.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
      Yes. The contractor would provide graphic design equipment to produce these materials that SFMTA does not possess.

4. **WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM**
   A. Explain why civil service classes are not applicable:
      SFMTA does not have the expansive outreach team required to achieve the goals outlined in the scope of work. Additionally, civil service classes do not possess the specialized marketing and branding expertise required for this project.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      Civil service classes already exist. This is a short-term project and the existing classifications can do only portions of this project.

5. **ADDITIONAL INFORMATION** (if “yes,” attach explanation)
   A. Will the contractor directly supervise City and County employees?  
      ( x )

   B. Will the contractor train City and County employees?
      - Describe training and indicate approximate number of hours.
      - Indicate occupational type of City and County employees to receive training (e.g., clerks, civil engineers, etc.) and approximate number to be trained.

   C. Are there legal mandates requiring the use of contractual services?
      ( x )

   D. Are there federal or state grant requirements regarding the use of contractual services?
      ( x )

   E. Has a board or commission determined that contracting is the most effective way to provide this service?
      ( x )

   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?
      ( x )

PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 10, 2013

DEPARTMENT NUMBER 90

TYPE OF APPROVAL: ☑ REGULAR (OMIT POSTING ________)

☑ INITIAL REQUEST

TYPE OF REQUEST: MODIFICATION (PSC# ________)

TYPE OF SERVICE: As-Needed Cost Estimating Services

FUNDING SOURCE: Inter-Departmental Work Orders

PSC AMOUNT: $1,000,000

PSC DURATION: 12/01/2013 - 12/31/2018

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
Provide specialized services in Cost Estimating for Building Projects to support Department of Public Works (DPW) design staff on an as-needed basis. The Consultants will provide expert cost estimating services to ensure that the most up to date cost data are utilized. The City intends to award two (2) contracts for $500,000 each.

B. Explain why this service is necessary and the consequences of denial:
Cost estimating is a specialized professional service that is out of the Buildings Design and Construction Division (BDC) area of expertise. Cost estimating consultants are continually updating their databases and estimating measures with the current market rates and material costs. This data is not something that we provide at the BDC. The BDC is requesting to have our own bank of “As-Needed” Cost Estimating consultants for our projects. If services are denied, DPW will have to rely more on current “as-needed” consultants as “pass through” consultants and pay additional administrative fees (i.e. subcontracting markup) and may even have to turn work away.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

Cost Estimating services for building projects have been provided through subconsultants under the as-needed Architectural contracts. This proposed contract will allow BDC to have a dedicated prime consultant to provide cost estimating services for building projects.

D. Will the contract(s) be renewed: No

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedures):

FOR DEPARTMENT OF HUMAN RESOURCES USE

PSC# 40360-13/14
STAFF ANALYSIS/RECOMMENDATION: Approved We 10/18/2013

CIVIL SERVICE COMMISSION ACTION:
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
   Consultants must be experts in their fields and certified by corresponding organizations, as applicable.

   B. Which, if any, civil service class normally performs this work?
   The following civil service classes would normally perform some of the specialized services if such staff already has the skills and experience: 5120 Architectural Administrator, 5211 Senior Architect, 5212 Principal Architect, 5260 Architectural Assistant I, 5261 Architectural Assistant II, 5265 Architectural Associate I, 5266 Architectural Associate II, and 5268 Architect.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
   No.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
   These are as-needed contract services only. They will only be utilized when the following conditions exist:
   • Civil service classifications are applicable and City staff will be utilized where feasible.
   • The Division is working at full capacity and postponement of pending projects would be contrary to the public interest.
   • Project requires special construction and third party Consultant is required to ensure that a high quality estimate is provided.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
   No. The services are only going to be utilized on an as-needed basis and there is no ongoing demand that justifies the hiring of permanent City staff with the necessary expertise.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?
   Yes  
   No  

   B. Will the contractor train City and County employees?
   • Describe the training and indicate approximate number of hours.
   • Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate number to be trained.

   C. Are there legal mandates requiring the use of contractual services?
   No

   D. Are there federal or state grant requirements regarding the use of contractual services?
   No

   E. Has a board or commission determined that contracting is the most effective way to provide this service?
   No

   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?
   No

Hi Leorah,

Just wanted to confirm that the seven (7) specialty as-needed contracts referenced in the waiver are as follows:

1. As-Needed Cost Estimating Services
2. As-Needed Lighting Design Services
3. As-Needed Constructability Review Services
4. As-Needed Elevator Design Services
5. As-Needed Waterproofing Consultation Services
6. As-Needed Specification Writing and Hardware Design Services
7. As-Needed Professional Rendering Services.

Thank you,

Michelle
Michelle, Leorah:

I am forwarding the email from the Union, IFPTE Local 21, waiving the 30-day review period regarding DPW BDC’s request for the Specialty As-needed contracts.

Should you require additional information, feel free to call me. Otherwise I will assume we will be on the November 4, 2013 CSC agenda.

Thank you/

Subject: RE: PSCs - BDC Specialty As-needed Contracts

Hello Mark and Julia,

Thank you for meeting with me on October 2. Local 21 will waive the 30-day review period concerning the seven (7) specialty as-needed contracts. However this waiver is conditioned on the development of a mechanism (which Mark and I briefly discussed in a phone conversation we just concluded) by which there is some review of the as-needed service prior to it going out to determine whether there is some advantage to Local 21 members to keep it in-house. One suggestion Mark had was for their to be some discussion of upcoming services to take place at our monthly chapter meetings.

This is a discussion-in-progress.

Best,
Ging

Hi Ging:

Following up on our telephone conversation the other day. I’d like to invite you to meet with Julia and me at your convenience, regarding the PSCs we put forth for specialty services contracts. As I mentioned, these services will help us greatly in expediting our work, especially due to our increased work load that we believe will be sustained for some time.

We understand the PSC review process includes a 30-day review period for the Union in advance of a Civil Service meeting, which currently will push us out to the November 18 meeting. In our effort to expedite the process we would like to try for the November 4 Civil Service meeting, and ask that you consider waiving the 30-day review period, depending of course, on your agreement with our RFG requests. In this case, we would need your concurrence on the proposed contracts by October 9, 2013.

Please review the formal requests at your earliest convenience and accept our invitation to meet and confer, should you so desire. We are available at the following dates and times:

- Wednesday 2 October at 1pm
- Thursday 3 October 9am-noon

Thanks so much for your consideration Ging.

Best/

PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 10, 2013

DEPARTMENT NAME: DPW – Buildings Design and Construction Div. DEPARTMENT NUMBER 90

TYPE OF APPROVAL: ☑ REGULAR (OMIT POSTING ________)

TYPE OF REQUEST: ☑ INITIAL REQUEST MODIFICATION (PSC# ________)

TYPE OF SERVICE: As-Needed Lighting Design Services

FUNDING SOURCE: Inter-Departmental Work Orders

PSC AMOUNT: $400,000 PSC DURATION: 12/01/2013 – 12/31/2018

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
      Provide specialized services in Lighting Design to support Department of Public Works (DPW) design staff on an as-needed basis. The Consultants will provide expert lighting consultation services to ensure that our projects achieve the highest quality in lighting design. The City intends to award two (2) contracts for $200,000 each.

   B. Explain why this service is necessary and the consequences of denial:
      Lighting Designers and Consultants provide a highly specialized professional service that is out of the Buildings Design and Construction (BDC) area of expertise. Lighting consultants provide lighting design, studies, control systems and calculations for Title 24 requirements. This service requires a mastery of varied and continually evolving disciplines. The lighting consultant provides the specifications, lighting schedules and code requirements for a fully complying lighting design. This is a professional service that is out of the Architect's area of expertise. If services are denied, DPW will have to rely more on current "as-needed" consultants as "pass through" consultants and pay additional administrative fees (i.e. subcontracting markup) and may even have to turn work away.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
      Lighting Design services for building projects have been provided through subconsultants under the as-needed Architectural contracts. This proposed contract will allow DPW to have a dedicated prime consultant to provide lighting design services.

   D. Will the contract(s) be renewed: No

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedures):

PSC# 4037-13/4
STAFF ANALYSIS/RECOMMENDATION: Approved W 10/18/2013

CIVIL SERVICE COMMISSION ACTION:
City and County of San Francisco

3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
      Consultants must be experts in their fields and certified by corresponding organizations, as applicable.

   B. Which, if any, civil service class normally performs this work?
      The following civil service classes would normally perform some of the specialized services if such staff already has the skills and experience: 5120 Architectural Administrator, 5211 Senior Architect, 5212 Principal Architect, 5269 Architectural Assistant I, 5261 Architectural Assistant II, 5265 Architectural Associate I, 5266 Architectural Associate II, and 5268 Architect.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
      No.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
      These are as-needed contract services only. They will only be utilized when the following conditions exist:
      • Civil service classifications are applicable and City staff will be utilized where feasible.
      • Specialized services are required that are not available internally.
      • Project requires expert lighting design services and in-house staffs are at full capacity.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain:
      No. The services are only going to be utilized on an as-needed basis and there is no ongoing demand that justifies the hiring of permanent City staff with the necessary expertise.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?
      Yes [ ] No [X]

   B. Will the contractor train City and County employees?
      • Describe the training and indicate approximate number of hours.
      • Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate number to be trained.

   C. Are there legal mandates requiring the use of contractual services?
      Yes [ ] No [X]

   D. Are there federal or state grant requirements regarding the use of contractual services?
      Yes [ ] No [X]

   E. Has a board or commission determined that contracting is the most effective way to provide this service?
      Yes [ ] No [X]

   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?
      Yes [ ] No [X]

PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 9, 2013

DEPARTMENT NAME: DPW - Buildings Design and Construction Div. DEPARTMENT NUMBER 90

TYPE OF APPROVAL: ☑ REGULAR (OMIT POSTING _________)

☑ INITIAL REQUEST ☐ MODIFICATION (PSC# _________)

TYPE OF SERVICE: As-Needed Constructability Review Services

FUNDING SOURCE: Inter-Departmental Work Orders

PSC AMOUNT: $400,000 PSC DURATION: 12/01/2013 – 12/31/2018

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
   Provide specialized services in Constructability Review to support Department of Public Works (DPW) design staff on an as-needed basis. The Consultants will provide expert constructability review services to ensure that our projects are of high quality standards and free from errors and omissions. The City intends to award two (2) contracts for $200,000 each.

   B. Explain why this service is necessary and the consequences of denial:
   In an effort to raise our QC/QA Standards we would like to establish regular Constructability Reviews with independent, outside consultants who are specialized in this area. These consultants are seasoned inspectors and construction managers who have many years in the field and help with the vetting process by reviewing documents to determine if there are built-in problems and flaws that may impede construction or increase cost or schedule. Please note that we still provide in-house reviews, even with our technical teams, but these do not replace the increased level of quality control that an independent constructability reviewer provides. In addition, we will look to them to provide us with education and training in this area as well. If services are denied, DPW will have to rely more on current "as-needed" consultants as "pass through" consultants and pay additional administrative fees (i.e. subcontracting markup) and may even have to turn work away.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
   Constructability Review services for building projects have been provided through subconsultants under the as-needed Architectural contracts. This proposed contract will allow DPW to have a dedicated prime consultant to provide cost estimating services.

PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 10, 2013

TYPE OF APPROVAL: ☑ REGULAR  (OMIT POSTING _________)

TYPE OF REQUEST: ☑ INITIAL REQUEST  ☐ MODIFICATION (PSC# _________)

TYPE OF SERVICE: As-Needed Elevator Design Services

FUNDING SOURCE: Inter-Departmental Work Orders

PSC AMOUNT: $600,000  PSC DURATION: 12/01/2013 – 12/31/2018

1. DESCRIPTION OF WORK
   A. Concise description of proposed work:
   Provide specialized services in Elevator Design to support Department of Public Works (DPW) design staff on an as-needed basis. The Consultants will provide expert elevator design consultation services to ensure that our projects achieve the highest quality in elevator design. The City intends to award two (2) contracts for $300,000 each.

   B. Explain why this service is necessary and the consequences of denial:
   Elevator Consultants are highly specialized consultants who are experts in the area of vertical transportation. A professional elevator consultant will provide analysis of the building population, traffic, use and travel times required for elevators. They will also provide specifications and coordination with the Architects and Engineers to ensure the number and type of proper elevators are specified and employed for the project. In summary, the Elevator consultant will provide an analysis and specification in order to create the most efficient transportation solution for a specific building. If services are denied, DPW will have to rely more on current "as-needed" consultants as "pass through" consultants and pay additional administrative fees (i.e. subcontracting markup) and may even have to turn work away.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):
   Elevator Design services for building projects have been provided through subconsultants under the as-needed Architectural contracts. This proposed contract will allow DPW to have a dedicated prime consultant to provide elevator design services.

   D. Will the contract(s) be renewed: No

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedures):

*************************************************************************
FOR DEPARTMENT OF HUMAN RESOURCES USE
*************************************************************************

PSC# 41039-13/14
STAFF ANALYSIS/RECOMMENDATION: Approved [W] 10/18/2013

CIVIL SERVICE COMMISSION ACTION:
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
      Consultants must be experts in their fields and certified by corresponding organizations, as applicable.

   B. Which, if any, civil service class normally performs this work?
      The following civil service classes would normally perform some of the specialized services if such staff already has the skills and experience: 5120 Architectural Administrator, 5211 Senior Architect, 5212 Principal Architect, 5260 Architectural Assistant I, 5261 Architectural Assistant II, 5265 Architectural Associate I, 5266 Architectural Associate II, and 5268 Architect.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
      No.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
      These are as-needed contract services only. They will only be utilized when the following conditions exist:
      • Civil service classifications are applicable and City staff will be utilized where feasible.
      • Specialized services are required that are not available internally.
      • Project requires expert elevator design services and in-house staffs are at full capacity.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      No. The services are only going to be utilized on an as-needed basis and there is no ongoing demand that justifies the hiring of permanent City staff with the necessary expertise.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?
      Yes   No [X]

   B. Will the contractor train City and County employees?
      • Describe the training and indicate approximate number of hours.
      • Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate number to be trained.

   C. Are there legal mandates requiring the use of contractual services?
      Yes   No [X]

   D. Are there federal or state grant requirements regarding the use of contractual services?
      Yes   No [X]

   E. Has a board or commission determined that contracting is the most effective way to provide this service?
      Yes   No [X]

   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?
      Yes   No [X]

THE ABOVE INFORMATION IS SUBMITTED AS COMPLETE AND ACCURATE ON BEHALF OF THE DEPARTMENT HEAD:

Hi Leorah,

Just wanted to confirm that the seven (7) specialty as-needed contracts referenced in the waiver are as follows:

1. As-Needed Cost Estimating Services
2. As-Needed Lighting Design Services
3. As-Needed Constructability Review Services
4. As-Needed Elevator Design Services
5. As-Needed Waterproofing Consultation Services
6. As-Needed Specification Writing and Hardware Design Services
7. As-Needed Professional Rendering Services.

Thank you,

Michelle
Michelle, Leorah:

I am forwarding the email from the Union, IFPTE Local 21, waiving the 30-day review period regarding DPW BDC's request for the Specialty As-needed contracts.

Should you require additional information, feel free to call me. Otherwise I will assume we will be on the November 4, 2013 CSC agenda.

Thank you/

Subject: RE: PSCs - BDC Specialty As-needed Contracts

Hello Mark and Julia,

Thank you for meeting with me on October 2. Local 21 will waive the 30-day review period concerning the seven (7) specialty as-needed contracts. However this waiver is conditioned on the development of a mechanism (which Mark and I briefly discussed in a phone conversation we just concluded) by which there is some review of the as-needed service prior to it going out to determine whether there is some advantage to Local 21 members to keep it in-house. One suggestion Mark had was for their to be some discussion of upcoming services to take place at our monthly chapter meetings.

This is a discussion-in-progress.

Best,
Ging

Hi Ging:

Following up on our telephone conversation the other day, I'd like to invite you to meet with Julia and me at your convenience, regarding the PSCs we put forth for specialty services contracts. As I mentioned, these services will help us greatly in expediting our work, especially due to our increased work load that we believe will be sustained for some time.

We understand the PSC review process includes a 30-day review period for the Union in advance of a Civil Service meeting, which currently will push us out to the November 18 meeting. In our effort to expedite the process we would like to try for the November 4 Civil Service meeting, and ask that you consider waiving the 30-day review period, depending of course, on your agreement with our RFQ requests. In this case, we would need your concurrence on the proposed contracts by October 9, 2013.

Please review the formal requests at your earliest convenience and accept our invitation to meet and confer, should you so desire. We are available at the following dates and times:

- Wednesday 2 October at 1pm
- Thursday 3 October 9am-Noon

Thanks so much for your consideration Ging.

Department of Human Resources

PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 10, 2013

DEPARTMENT NAME: DPW – Buildings Design and Construction Div. DEPARTMENT NUMBER 90

TYPE OF APPROVAL: ☑ REGULAR (OMIT POSTING _________ )

☐ EXPEDITED

☐ CONTINUING

☐ ANNUAL

TYPE OF REQUEST:

☑ INITIAL REQUEST

☐ MODIFICATION (PSC# _________ )

TYPE OF SERVICE: As-Needed Waterproofing Consultation Services

FUNDING SOURCE: Inter-Departmental Work Orders

PSC AMOUNT: $400,000 PSC DURATION: 12/01/2013 – 12/31/2018

1. DESCRIPTION OF WORK

A. Concise description of proposed work:

Provide specialized services in Waterproofing Consultation to support Department of Public Works (DPW) design staff on an as-needed basis. The Consultants will provide expert waterproofing consultation services to ensure that our projects are designed and constructed to the best quality standards of waterproofing. DPW intends to award two (2) contracts for $200,000 each.

B. Explain why this service is necessary and the consequences of denial:

Waterproofing consultants are a highly specialized consultant who is an expert in the area of construction details and specifications that are geared towards minimizing or eliminating the risk of water intrusion in buildings. While Architects know many things about waterproofing and include typical and custom waterproofing details in our drawing sets, the Waterproofing Consultant is an expert who is current and knowledgeable about all aspects of waterproofing. The scope of the waterproofing consultant is to review the drawings and specifications for sound waterproofing details and specifications to minimize water intrusion. In addition, the Waterproofing Consultant provides field observations during construction to ensure that the construction is proceeding per the drawings and specifications in relation to waterproofing. This is a specialized consulting service outside our area of expertise. If services are denied, DPW will have to rely more on current "as-needed" consultants as "pass through" consultants and pay additional administrative fees (i.e. subcontracting markup) and may even have to turn work away.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

Waterproofing services for building projects have been provided through subconsultants under the as-needed Architectural contracts. This proposed contract will allow DPW to have a dedicated prime consultant to provide waterproofing consultation services.

D. Will the contract(s) be renewed: No

PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 10, 2013

DEPARTMENT NUMBER: 90

TYPE OF APPROVAL: ☑ REGULAR (OMIT POSTING ________)

TYPE OF REQUEST: ☑ INITIAL REQUEST

TYPE OF SERVICE: As-Needed Specifications Writing and Hardware Design Services

FUNDING SOURCE: Inter-Departmental Work Orders

PSC AMOUNT: $400,000

PSC DURATION: 12/01/2013 – 12/31/2018

1. DESCRIPTION OF WORK

A. Concise description of proposed work:
Provide specialized services in Specifications Writing and Hardware Design to support Department of Public Works (DPW) design staff on an as-needed basis. The Consultants will provide expert advice and services to ensure that the most up to date products are utilized in our specifications. The City intends to award two (2) contracts for $200,000 each.

B. Explain why this service is necessary and the consequences of denial:
Specifications Writers are specialized consultants who are experts in the area of writing specifications. They are up to date with the most current products, performance of such products, etc. We are currently working to improve the quality of our specifications and these experts have a knowledge base not readily available to the Buildings Design and Construction Division (BDC). In addition, our workload and staffing overall is such that we do not have time in the foreseeable future for staff to be researching and preparing specifications, whereas a specialized consultant in this field can expedite this process. Providing Hardware Specifications and Schedules is a highly specialized service that is out of the DPW BDC's area of expertise. The DPW BDC does not have the staff or ability to provide this service due to our current and on-going workload and staffing issues. Utilizing expert Hardware Consultants will allow us to complete our projects more quickly and provide a better quality of service to our Clients. If services are denied, DPW will have to rely more on current "as-needed" consultants as "pass through" consultants and pay additional administrative fees (i.e. subcontracting markup) and may even have to turn work away.

C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

BDC Architects normally prepare the specifications and hardware designs of projects designed in-house. When special materials are required, or when staff is not available, outside Consultants are utilized through existing as-needed Architectural Consultant Contracts.

D. Will the contract(s) be renewed: No

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedures):

CIVIL SERVICE COMMISSION ACTION:
3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
      Consultants must be experts in their fields and certified by corresponding organizations, as applicable. The firm must have a minimum of 10 years experience preparing specifications on general building projects. Firm must have experience on at least 5 public sector projects. Qualified personnel must have CSI certification (Construction Specifications Institute). California architect's registration required.

   B. Which, if any, civil service class normally performs this work?
      The following civil service classes would normally perform some of the specialized services if such staff already has the skills and experience: 5120 Architectural Administrator, 5211 Senior Architect, 5212 Principal Architect, 5260 Architectural Assistant I, 5261 Architectural Assistant II, 5265 Architectural Associate I, 5266 Architectural Associate II, and 5268 Architect.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
      No.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
      These are as-needed contract services only. They will only be utilized when the following conditions exist:
      - Civil service classifications are applicable and City staff will be utilized where feasible.
      - The Division is working at full capacity and postponement of pending projects would be contrary to the public interest, or
      - Project requires special products and third party Consultant is required to ensure that a high quality project is achieved.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      No. The services are only going to be utilized on an as-needed basis and there is no ongoing demand that justifies the hiring of permanent City staff with the necessary expertise.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees?
      Yes [ ] No [x]

   B. Will the contractor train City and County employees?
      - Describe the training and indicate approximate number of hours.
      - Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate number to be trained.

   C. Are there legal mandates requiring the use of contractual services?
      Yes [ ] No [x]

   D. Are there federal or state grant requirements regarding the use of contractual services?
      Yes [ ] No [x]

   E. Has a board or commission determined that contracting is the most effective way to provide this service?
      Yes [ ] No [x]

   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department?
      Yes [ ] No [x]

PERSONAL SERVICES CONTRACT SUMMARY

DATE: September 10, 2013

DEPARTMENT NUMBER: 90

TYPE OF APPROVAL: ☑ REGULAR (OMIT POSTING)

TYPE OF REQUEST: ☑ INITIAL REQUEST ☑ MODIFICATION (PSC#)

TYPE OF SERVICE: As-Needed Professional Rendering Services

FUNDING SOURCE: Inter-Departmental Work Orders

PSC AMOUNT: $400,000

PSC DURATION: 12/01/2013 - 12/31/2018

1. DESCRIPTION OF WORK

   A. Concise description of proposed work:

   Provide specialized services in Professional Rendering to support Department of Public Works (DPW) design staff on an as-needed basis. The Consultants will provide expert professional rendering services when our staffs are at full capacity and project schedule requires a quick turnaround. The City intends to award two (2) contracts for $200,000 each.

   B. Explain why this service is necessary and the consequences of denial:

   The DPW Buildings Design and Construction Division (BDC) is requesting to issue an RFO for Professional Rendering services on an as-Needed basis. While we perform some rendering in-house, due to workload and staffing issues now and in the foreseeable future, the BDC finds it necessary to have some as-needed Professional Renderers available to provide high quality renderings within a quick turnaround time. In addition, our goal is to have these renderers train our staff on techniques and software so we can better provide in-house renderings. If services are denied, DPW will have to rely more on current "as-needed" consultants as "pass through" consultants and pay additional administrative fees (i.e. subcontracting markup) and may even have to turn work away.

   C. Explain how this service has been provided in the past (if this service was previously approved by the Civil Service Commission, indicate most recent personal services contract approval number):

   Professional Rendering services for building projects have been provided through subconsultants under the as-needed Architectural contracts. This proposed contract will allow DPW to have a dedicated prime consultant to provide professional rendering services.

   D. Will the contract(s) be renewed: No

2. UNION NOTIFICATION: Copy of this summary is to be sent to employee organizations as appropriate (refer to instructions for specific procedures):

   Local 21

FOR DEPARTMENT OF HUMAN RESOURCES USE

PSC# 4142-13/14

STAFF ANALYSIS/RECOMMENDATION: Approved 11/18/2013

CIVIL SERVICE COMMISSION ACTION:
City and County of San Francisco

3. DESCRIPTION OF REQUIRED SKILLS/EXPERTISE
   A. Specify required skills and/or expertise:
   Consultants must be experts in their fields and certified by corresponding organizations, as applicable.

   B. Which, if any, civil service class normally performs this work?
   The following civil service classes would normally perform some of the specialized services if such staff already has the skills and experience: 5120 Architectural Administrator, 5211 Senior Architect, 5212 Principal Architect, 5260 Architectural Assistant I, 5261 Architectural Assistant II, 5265 Architectural Associate I, 5266 Architectural Associate II, and 5268 Architect.

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
   No.

4. WHY CLASSIFIED CIVIL SERVICE CANNOT PERFORM
   A. Explain why civil service classes are not applicable:
   These are as-needed contract services only. They will only be utilized when the following conditions exist:
   • Civil service classifications are applicable and City staff will be utilized where feasible.
   • Specialized services are required that are not available internally.
   • Project requires professional rendering services and in-house staffs are at full capacity.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
   No. The services are only going to be utilized on an as-needed basis and there is no ongoing demand that justifies the hiring of permanent City staff with the necessary expertise.

5. ADDITIONAL INFORMATION (if "yes," attach explanation)
   A. Will the contractor directly supervise City and County employees? Yes No
   B. Will the contractor train City and County employees?
   • Describe the training and indicate approximate number of hours.
   • Indicate occupational type of City and County employees to receive training (i.e., clerks, civil engineers, etc.) and approximate number to be trained.

   C. Are there legal mandates requiring the use of contractual services? Yes No
   D. Are there federal or state grant requirements regarding the use of contractual services? Yes No
   E. Has a board or commission determined that contracting is the most effective way to provide this service? Yes No
   F. Will the proposed work be completed by a contractor that has a current personal services contract with your department? Yes No

Union Notification(s) and 30-Day Waivers

Local 21
Hi Leorah,

Just wanted to confirm that the seven (7) specialty as-needed contracts referenced in the waiver are as follows:

1. As-Needed Cost Estimating Services
2. As-Needed Lighting Design Services
3. As-Needed Constructability Review Services
4. As-Needed Elevator Design Services
5. As-Needed Waterproofing Consultation Services
6. As-Needed Specification Writing and Hardware Design Services
7. As-Needed Professional Rendering Services.

Thank you,

Michelle
Dang, Leorah:

I am forwarding the email from the Union, IFPTE Local 21, waiving the 30-day review period regarding DPW BDC’s request for the Specialty As-needed contracts.

Should you require additional information, feel free to call me. Otherwise I will assume we will be on the November 4, 2013 CSC agenda.

Thank you/

Subject: RE: PSCs - BDC Specialty As-needed Contracts

Hello Mark and Julia,

Thank you for meeting with me on October 2. Local 21 will waive the 30-day review period concerning the seven (7) specialty as-needed contracts. However this waiver is conditioned on the development of a mechanism (which Mark and I briefly discussed in a phone conversation we just concluded) by which there is some review of the as-needed service prior to it going out to determine whether there is some advantage to Local 21 members to keep it in-house. One suggestion Mark had was for their to be some discussion of upcoming services to take place at our monthly chapter meetings.

This is a discussion-in-progress.

Best,

Ging

Hi Ging:

Following up on our telephone conversation the other day, I'd like to invite you to meet with Julia and me at your convenience, regarding the PSCs we put forth for specialty services contracts. As I mentioned, these services will help us greatly in expediting our work, especially due to our increased work load that we believe will be sustained for some time.

We understand the PSC review process includes a 30-day review period for the Union in advance of a Civil Service meeting, which currently will push us out to the November 18 meeting. In our effort to expedite the process we would like to try for the November 4 Civil Service meeting, and ask that you consider waiving the 30-day review period, depending of course, on your agreement with our RFQ requests. In this case, we would need your concurrence on the proposed contracts by October 9, 2013.

Please review the formal requests at your earliest convenience and accept our invitation to meet and confer, should you so desire. We are available at the following dates and times:

- Wednesday 2 October at 1 pm
- Thursday 3 October 9am-Noon

Thanks so much for your consideration Ging.

Best/
