COVID-19 Vaccination Policy
Issued: 6/23/2021
Amended 8/6/2021

8/6/2021 Revision: This revision updates the vaccination policy for all employees subject to San Francisco Health Officer’s Safer-Return-Together Order (“SF Health Order”) (last amended August 2, 2021) and who are required to be vaccinated no later than September 15, 2021 employees for regularly scheduled to work in high-risk settings and no later than October 13, 2021 for employees who may occasionally or intermittently enter high-risk settings as part of their job. All employees are required to report their vaccination status to the City by the August 12, 2021 extended deadline.

This revision also clarifies that the City’s Vaccination Policy applies to City interns, volunteers, and City fellows (including but not limited to McCarthy Fellows, and Willie Brown Fellows). Generally, all such persons must show proof of full vaccination status to the Departmental Personnel Officer or Human Resources personnel at the department where they intern, volunteer or have their fellowship, who will verify that the individual has shown appropriate documentation that they are fully vaccinated before the start of their internship, fellowship or volunteer activity, or, if they are a current intern, fellow or volunteer, by no later than the applicable deadline under the SF Health Order (if in a high-risk setting) or by October 13, 2021. Departments must not retain copies of the individual’s vaccination record after verification. An addendum has been added to provide the dates by which all subject to this policy must report and begin the vaccination process.

PURPOSE STATEMENT

The City and County of San Francisco (City) must provide a safe and healthy workplace, consistent with COVID-19 public health guidance and legal requirements, to protect its employees and the public as it reopens services and returns more employees to workplaces.

According to the federal Centers for Disease Control (CDC), the California Department of Public Health (CDPH), and the San Francisco County Health Officer, COVID-19 continues to pose a risk, especially to individuals who are not fully vaccinated, and certain safety measures remain necessary to protect against COVID-19 cases and deaths. Vaccination is the most effective way to prevent transmission and limit COVID-19 hospitalizations and deaths. Unvaccinated employees, interns, fellows and volunteers are at greater risk of contracting and spreading COVID-19 within the workplace and City facilities, and to the public that depends on City services.

To best protect its employees and others in City facilities, and fulfill its obligations to the public, all employees must, as a condition of employment: (1) report their vaccination status to the City; and (2) be fully vaccinated and report that vaccination status to the City not later than...
either the applicable deadline under the San Francisco Health Order, if it applies, or 10 weeks after the Federal Food & Drug Administration (FDA) giving final approval to at least one COVID-19 vaccine, if not otherwise covered by the SF Health Order.

**LEGAL REQUIREMENTS**

On June 17, 2021, Governor Newsom issued Executive Order No. N-09-21, which implements new California Division of Occupational Safety and Health (Cal/OSHA) rules, effective June 17, 2021. These rules require employers to take specific measures to protect employees from COVID-19, including enforcing masking and quarantine requirements, and offering COVID-19 testing and time off, for employees who are unvaccinated or for whom the employer does not have documentation verifying they are fully vaccinated. The Cal/OSHA rules require employers to verify and document that an employee is fully vaccinated before allowing that employee to discontinue masking indoors. For unvaccinated employees or employees for whom the City does not have documentation verifying fully vaccinated status, the City must enforce masking, provide COVID-19 testing following a close contact in the workplace or anytime they have COVID-19 symptoms, and exclude these employees from the workplace for 10 days after a close contact. Upon request, the City also must provide non-vaccinated employees with respirators (N95 masks) and provide education about using that type of mask.

On July 26, 2021 CDPH issued an Order (CDPH Vaccination Status Order) that workers in high risk and other healthcare settings must report their vaccination status no later than August 23, 2021. The CDPH Vaccination Status Order also requires routine testing and more rigorous masking for unvaccinated or only partially vaccinated personnel working in these settings.

On August 2, 2021, the San Francisco Health Officer updated the SF Health Order requiring all employers to determine the vaccination status of employees who routinely work onsite in high-risk settings by no later than September 15, 2021 and precluding unvaccinated employees from entering those facilities after that date, and precluding unvaccinated employees who may occasionally or intermittently enter those settings from entering those facilities after October 13, 2021. This order further requires employees (among others) to remain masked in the workplace, effectively superseding the Cal/OSHA COVID-19 Temporary Emergency Standard which allows vaccinated employees who had documented that status to remove their masks.

On August 2, DHR issued a revised policy Face Coverings at Work Policy that complies with both the state and local health orders and can be found here: [https://sfdhr.org/sites/default/files/documents/COVID-19/Face-Covering-Requirements-at-Work.pdf](https://sfdhr.org/sites/default/files/documents/COVID-19/Face-Covering-Requirements-at-Work.pdf)

On August 5, 2021, CDPH issued a new Order (Health Care Worker Vaccine Requirement) mandating all workers who provide services or work in identified health care facilities to be fully vaccinated by September 30, 2021. The only exemptions to the Health Care Worker Vaccine Requirement are for workers who have a documented and approved exemption from vaccination on the basis of a sincerely-held religious belief or due to a qualifying medical condition or restriction.
STATEMENT OF POLICY

Definition of “Employees” Under This Policy

For purposes of this policy only, the term “employees” includes all full, part-time and as-need City employees regardless of appointment type, volunteers, interns, and City fellows (such as San Francisco Fellows, McCarthy Fellows, Fish Fellows, and Willie Brown Fellows).

Requirement to Report Vaccination Status

To protect the City’s workforce and the public that it serves, all City employees were required to report their vaccination status to the City by July 29, 2021 (with a subsequent extension to August 12, 2021), by providing the following information:

- Whether the employee is vaccinated (yes or no)
- For employees who are vaccinated or partly vaccinated:
  - The type of vaccine obtained (Moderna, Pfizer, or Johnson & Johnson, or other vaccine received in approved clinical trials)
  - Date of first dose vaccine;
  - Date of second vaccine for a 2-dose vaccine;
  - Declaration under penalty of perjury that they have been fully vaccinated, and
  - Upload documentation verifying proof of vaccination status. Proof of vaccination can include a copy of the CDC COVID-19 Vaccination Record Card, documentation of vaccine from the employee’s healthcare provider, or documentation issued by the State of California by going to: https://myvaccinerecord.cdph.ca.gov/

To be fully vaccinated, 14 days must have passed since an employee received the final dose of a two-shot vaccine or a dose of a one-shot vaccine. All unvaccinated employees must continue to comply with masking, testing, and other safety requirements until they are fully vaccinated and have reported and documented that status to the City consistent with this Policy. Employees who previously reported that they were unvaccinated must update their status once they are fully vaccinated.

Failure to comply with the reporting requirement may result in discipline, or non-disciplinary separation from employment with the City for failure to meet the minimum qualifications of the job.

How to Report Vaccination Status

Volunteers, interns, and City fellows must verify that they are fully vaccinated to the Departmental Personnel Officer or Human Resources professional by showing a copy of their CDC COVID-19 Vaccination Record Card, documentation from the individual’s healthcare
provider, or documentation issued by the State of California as described above. The department must retain documentation that the individual’s vaccination status has been verified but must not retain copies of the individual’s vaccination record.

All other employees must report their vaccination information and upload documentation verifying that status into the City’s People & Pay system using the Employee Portal or by hand using the COVID-19 Vaccination Status Form. Only City employees authorized to access employee personnel information will have access to the medical portion of the file. The City will share information about an employee’s vaccination status only on a need-to-know basis, including to the employee’s department, managers and supervisors for the purpose of enforcing masking, quarantining in the event of a close contact, and other safety requirements.

Vaccination Requirements for Employees

1. To comply with the SF Health Order and ensure delivery of City services, City policy requires that all City employees routinely assigned to or working onsite in high-risk settings must be fully vaccinated—no later than September 15, 2021, unless they have been approved for an exemption from the vaccination requirement as a reasonable accommodation for a medical condition or restriction or sincerely held religious beliefs. Any employee who is requesting or has an approved exemption must still report their vaccination status to the City by the August 12, 2021 extended deadline. The vaccination and reporting requirements are conditions of City employment and a minimum qualification for employees who are routinely assigned to or working onsite in high-risk settings. Those employees who fail to meet the vaccination and reporting requirements under this Policy will be unable to enter the facilities and unable to perform an essential function of their job, and therefore will not meet the minimum requirements to perform their job.

2. To comply with the CDPH Health Care Worker Requirement and ensure delivery of City services, City policy requires that all City employees who are not otherwise covered by the SF Health Order September 15, 2021 deadline, but who provide services or work in the health care facilities identified in the state’s order, must be fully vaccinated—no later than September 30, 2021, unless they have been approved for an exemption from the vaccination requirement as a reasonable accommodation for a medical condition or restriction or sincerely held religious beliefs. Any employee who is requesting or has an approved exemption must still report their vaccination status to the City by the August 12, 2021 extended deadline. The vaccination and reporting requirements are conditions of City employment and a minimum qualification for employees who provide services or work in the health care facilities identified in the state’s order. Those employees who fail to meet the vaccination and reporting requirements under this Policy will be unable to enter the facilities and unable to perform an essential function of their job, and therefore will not meet the minimum requirements to perform their job.

3. To comply with the SF Health Order and ensure delivery of City services, City policy requires that all City employees who in the course of their duties may enter or work in high-risk settings even on an intermittent or occasional basis or for short periods of time must be fully vaccinated — no later than October 13, 2021, unless they have been approved for an
exemption from the vaccination requirement as a reasonable accommodation for a medical condition or restriction or sincerely-held religious beliefs. Any employee who is requesting or has an approved exemption must still report their vaccination status to the City by the August 12, 2021 extended deadline. The vaccination and reporting requirements are conditions of City employment and a minimum qualification for employees who in the course of their duties may enter or work in high-risk settings even on an intermittent or occasional basis or for short periods of time. Those employees who fail to meet the vaccination and reporting requirements under this Policy will be unable to enter the facilities and therefore unable to perform an essential function of their job, and will not meet the minimum requirements to perform their job.

4. Volunteers, interns, and City fellows must be fully vaccinated – and must have reported that status and providing documentation verifying that status to the Departmental Human Resources personnel – as a condition of serving as a City volunteer, intern or fellow. Those already working and who do not fall under the SF Health Order must be fully vaccinated no later than October 13, 2021. Failure to comply with this policy will result in suspension of the internship, fellowship, or volunteer opportunity until such time as the individual provides verification that they are fully vaccinated.

5. All other City employees must be fully vaccinated as a condition of employment within ten weeks after the FDA provides final approval to at least one COVID-19 vaccine, unless they have been approved for an exemption from the vaccination requirement as a reasonable accommodation for a medical condition or restriction or sincerely-held religious beliefs. Any employee with an approved exemption must still report their vaccination status to the City by the August 12, 2021 extended deadline. Once the vaccination deadline is reached (10 weeks after FDA approval of a vaccine) the vaccination and reporting requirements are conditions of City employment and a minimum qualification for all City employees.

Failure to comply with this Policy may result in a disciplinary action, or non-disciplinary separation from employment for failure to meet the minimum qualifications of the job.

**Requesting an Exemption from the Vaccination Requirement**

Employees with a medical condition or other medical restriction that affects their eligibility for a vaccine, as verified by their medical provider, or those with a sincerely held religious belief that prohibits them from receiving a vaccine, may request a reasonable accommodation to be excused from this vaccination requirement but, must still report their status by the August 12, 2021 extended deadline. The City will review requests for accommodation on a case-by-case basis, and engage in an interactive process with employees who submit such requests. For some positions where fully vaccinated status is required to enter the facility where the employee works, an accommodation may require transfer to an alternate vacant position, if available, in another classification for which the employee meets the minimum qualifications.
Requests for Reasonable Accommodation forms and procedures can be found here:
