

TELECOMMUTING

Helps us all breathe easier

The San Francisco Department of the Environment estimates

1 telecommuting
City employee
could save

1.5 tons of
greenhouse gas
emissions per year

4,000 telecommuting
City employees could
save

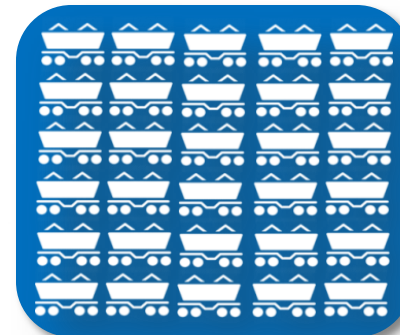

Over 6,000 tons
of greenhouse
gas emissions
per year*

6,000 tons of greenhouse gas
emissions equals

Electricity for 850 homes
per year

Driving
9 million miles

Burning 30 rail cars
full of coal

*Based on an employee telecommuting 1-3 days/week.
