Section B: Instructions to the Health Care Provider				

Certification of Health Care Provider of a Serious Health Condition

(Family and Medical Leave Act (FMLA) of 1993, California Family Rights Act (CFRA) and Pregnancy Disability Leave (PDL).)

Dear Health Care Provider:

The above-named employee has requested a leave of absence or intermittent leave for his/her health condition, which may qualify as a protected leave under the FMLA, CFRA and/or PDL. This medical certification form will provide us with information needed to determine if the employee is eligible for leave under the FMLA, CFRA and/or PDL. Sections C-G must be completed by you and returned to the department by the employee or your office. In all cases, it is the employee's responsibility to ensure that sufficient medical certification is provided to the employer.

INSTRUCTIONS

The information sought on this form relates only to the condition for which the employee is taking leave. For the purposes of this form, "incapacity" is defined as the inability to work, attend school, or perform other regular daily activities due to the serious health condition itself, treatment of the serious health condition, or recovery from the condition. "Treatment" includes examinations to determine if a serious health condition exists and evaluations of the condition. Treatment does not include routine physical examinations, eye examinations, or dental examinations. A regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition. A regimen of treatment does not include taking over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, or other similar activities that can be initiated without a visit to a health care provider.

The Genetic Information Nondiscrimination Act of 2008 (GINA) prohibits employers from requesting or requiring genetic information of an individual or family member of the individual, except as specifically allowed by GINA. To comply with GINA, we are asking that you <u>not</u> provide any genetic information when responding to this request for medical information. "Genetic Information," as defined by GINA, includes an individual's family medical history, the results of an individual's or family member's genetic tests, the fact that an individual or individual's family member sought or received genetic services, and genetic information of a fetus to be carried by an individual or an individual's family member or an embryo lawfully held by an individual or family member receiving assistive reproductive services.
