The San Francisco Fellows program provides leadership development for managers represented by Local 21 or other organization. The content and learning experience is similar to the highly successful CCSF & MEA Leadership Program. Department Heads may nominate individuals for the program, or your department may allow managers to self-nominate. A nomination form is attached. Completed nomination forms will be accepted through August 4th and will be reviewed in the order received. The program will run from mid-August through mid-October and will consist of 9 half-day virtual sessions on the Zoom platform. The attached brochure outlines the program components, schedule, prerequisites, and participant fee.

The cohort also attended a Forum event where they got to hear from City Leaders about their career journeys and tips on effective communication strategies. Panelists for the Forum were City Administrator Carmen Chu, Assessor Joaquin Torres and Director of the Arts Commission Ralph Remington. Fellows were placed across 7 departments and worked on various interdepartmental projects. This allowed them to explore and expand their skillset. The program included an education component, an implementation component, and a celebration. The education component included structured self-paced learning components and facilitated learning experiences, while the implementation component allowed Fellows to work on meaningful projects. The celebration component included a welcome event and a final celebration event.
