The therapeutic apheresis is a procedure in which the patient's blood is collected using automated FDA approved devices, separated into its components (RBCs, WBCs, Platelets and/or plasma) and filtered. The suspected pathologic component is discarded, and the remaining components are returned to the patient along with replacement fluids. Auto transfusion services are used in an effort to reduce alloimmune (blood from donor) blood transfusion. It is indicated in a variety of surgical procedures whenever major blood loss is anticipated and it is the only acceptable method of transfusion for Jehovah's Witness patients because blood remains in continuity within the auto-transfusion circuit.

To: Teamsters Local 853

The Office of Contract Administration of the City and County of San Francisco proposes to do a Personal Services Contract (PSC) to contract for refuse collection for City departments. Information on this PSC is attached.

City departments are required by the Department of Human Resources and the Civil Service Commission to notify employee organizations when requesting to contract for services that City employees could possibly perform. In this case, Class 7355 Teamster could possibly perform some of the duties of the PSC. Your union is listed as one that would be notified through the City’s on line system, however it appears that you were not. Typically, unions have seven or 30 days to raise questions about a PSC.

If you should have any questions, please let me know at Joan.Lubamersky@sfgov.org or contact the Department of Human Resources, DHR-PSC coordinator at dhr-psccoordinator@sfgov.org

Thank you.

MEMORANDUM

TO: Honorable Civil Service Commission

FROM: Joan Lubamersky
City Administrator Contracts Coordinator

SUBJ: Request for Seven Year Duration
Office of Contract Administration PSC 41761 19.20
Refuse Collection

The department is requesting an eight year duration for this Personal Services Contract because the procurement process for these services is long and complex. The current procurement was for six years, and the department found that it was too short. Having a longer term arrangement will be more efficient to administer and to deliver services.

Please let me know if you should have any questions.

Thank you for your consideration.

Type of Service: Assessment of PeopleSoft Financial System Chart Fields & Business Units

1. Description of Work
   A. Scope of Work/Services to be Contracted Out:
      The City seeks consultants to develop an approach for assessing required Chart Field, Set ID and Business Units from our status quo approach that includes 9 Business Units and at least 2 Set IDs in the City’s Oracle PeopleSoft 9.2 Human Capital Management (HCM) system, 1 Business Unit in the City’s Oracle PeopleSoft 9.2 Financials and Supply Chain Management System (FSCM) General Ledger Module and up to 3 Business Units in some of the other 16 FSCM Modules, perform the assessment to determine the changes needed, benefits to workflows and reporting, create, manage and implement a detailed implementation plan to execute all changes in PeopleSoft.

   B. Explain why this service is necessary and the consequence of denial:
      These services are critical to ensuring that Citywide systems and the associated modules (SF Financials, SF Procurement, SF People & Pay, SF Learning, SF Reports and Analytics and SF Budget) are available for over 6,000 city users and the entire City supplier community to control end user access, reports and queries, workflows and batch processes. The services will also help provide critical upgrades, enhancements and new functionality, on PeopleSoft that will support the effective operation of City departments. Denial could result in critical functionality not being available to support City departments, and inability to generate department specific financial statements from the Citywide systems.

   C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.

      If needed, contracts resulting from this solicitation may be extended.

   E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why.
      The justification for the PSC to be 6 years is due to the need for the Controller’s Office and other City Departments to continue to assess and implement future system enhancements, modifications and additional post go-live support for the City’s Oracle PeopleSoft, Human Capital Management, Enterprise Learning Management, Oracle Business Intelligence Applications, Oracle Business Intelligence Enterprise Edition and City related systems as it pertains to Chart Fields, Set IDs, and Business Unit Set Ups.

1. Description of Work
   A. Scope of Work/Services to be Contracted Out:
      Contractor will provide specialized Employee Assistance Program (EAP) to members of several of the City's First Responder agencies and their dependents. This will be a multi-agency program, and the Fire Department will take the lead on the contract. The two agencies starting the program will be the San Francisco Police Department and the San Francisco Fired Department, with the possibility of the Sheriff, Medical Examiner, and Dispatch (DEM) participating at a later date. The services will include, but not be limited to, specialized outpatient behavioral health services, and critical incidence stress response services.

   B. Explain why this service is necessary and the consequence of denial:
      This specialized services is necessary to help members of the First Responder community (firefighters, EMS personnel, police officers, etc.) and their families manage stress from their duties as first responders. While the majority of services are expected to be provided locally, a network of national providers needs to be available for dependents residing outside the San Francisco Bay Area and any personnel temporarily away from the San Francisco Bay Area. Denial of service will lead to higher incidences of stress related issues possibly adversely affecting the performance of fire department personnel in their interactions with the public.

   C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
      The SFPD currently has a program in place with an outside provider, but are in need of finding a new provider. Further, while the SFFD had previous CSC approval, the department was unsuccessful in finding an appropriate vendor through the RFP process. This would be a new service for the Fire Department. The departments are hoping with mutual collaboration to find a provider who can address the needs of each agency.

   D. Will the contract(s) be renewed?
      We anticipate renewing the contract.

   E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why.
      not applicable

2. Reason(s) for the Request
   A. Indicate all that apply (be specific and attach any relevant supporting documents):
      Regulatory or legal requirements, or requirements or mandates of funding source(s) which limit or preclude the use of Civil Service Employees. Include a copy of the applicable requirement or mandate.
B. Explain the qualifying circumstances:
   Agreed to provide these EAP services as part of recent Local 798 MOU negotiations, with qualified licensed clinicians who specialize in First Responder issues.

3. Description of Required Skills/Expertise
   A. Specify required skills and/or expertise: Clinicians contracting with selected provider must have a minimum qualification of a master’s degree in Psychology or Social Work and be licensed by the state board as a Licensed Clinical Social Worker (LCSW), Marriage and Family Therapist (MFT), Licensed Professional Clinical Counselor (LPCC) or Doctor of Psychology (PsyD or PhD). Clinicians must also be culturally competent to work within a first responder culture.

   B. Which, if any, civil service class(es) normally perform(s) this work? 2574, Clinical Psychologist; 2576, Sr Clin Psychologist; 2910, Social Worker; 2912, Senior Social Worker; 2931, Marriage, Family & Child Cnslr; 2935, Sr Marriage, Fam & Cld Cnslr;

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: No. We expect individual clinicians to operate out of their own office space when counseling members.

4. If applicable, what efforts has the department made to obtain these services through available resources within the City?
   Both the Fire Department and Police Department have internal stress unit teams, but the demand for their services is greater than their capacity and scope of practice. The contract will allow the department to expand stress related coverage to dependents as well as more members. The FD and PD have also been working very closely with the City’s HSS EAP team to identify this particular gap in service in the City’s current programs. The HSS team has been supportive and offered valuable guidance in shaping this proposed external program.

5. Why Civil Service Employees Cannot Perform the Services to be Contracted Out
   A. Explain why civil service classes are not applicable.
      The service needs to be available statewide and nationwide in order to be offer services to dependents of Department employees, many of whom reside outside San Francisco city limits.

   B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain. No. A new civil service class is not necessary.

6. Additional Information
   A. Will the contractor directly supervise City and County employee? If so, please include an explanation.
      No.

   B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contract? If so, please explain what that will entail; if not, explain why not.
      No. Training is not needed.

      No.

      No.

PERSONAL SERVICES CONTRACT SUMMARY ("PSC FORM 1")

Department: PUBLIC UTILITIES COMMISSION -- PUC
Dept. Code: PUC

Type of Request: ☑ Initial ☐ Modification of an existing PSC (PSC # ________)

Type of Approval: ☐ Expedited ☑ Regular ☐ Annual ☐ Continuing ☐ (Omit Posting)

Type of Service: Biosolids Beneficial Use – Land Application (68413)
Funding Source: Wastewater Enterprise Operating Budget PSC Duration: 5 years
PSC Amount: $5,700,000

1. Description of Work
   A. Scope of Work/Services to be Contracted Out:
      The contractor works with ranchers and farmers to use biosolids as a fertilizer. The contractor secures all necessary permitting required for the use of biosolids as a fertilizer. Annual fees for permitting are paid by the contractor. The contractor manages the agronomic application of biosolids so that nitrogen added to fields does not exceed crop uptake needs. When sufficient biosolids have been added to a field to meet its nitrogen needs, the contractor moves the application operation to a new field. When moving to a new field, the contractor is responsible for coordinating with the trucking contractor for the transportation of biosolids to the new location. The contractor is responsible for ensuring the all county ordinances are followed during the course of operations at each field. This includes the posting of signs, flagging of buffer areas where biosolids are not to be applied, setting up a mobile weather station, a portable toilet and a washdown station for trucks. The contractor is responsible for the spreading and discing (incorporation) of the biosolids on each field. Co-ordination with the ranchers, farmers, and county is the responsibility of the contractor.
   
   B. Explain why this service is necessary and the consequence of denial:
      The City's wastewater treatment plants separate solids out from influent and send them to anaerobic digesters where they are biologically treated. The resulting material is called biosolids, a nutrient rich material which is used as a fertilizer. On average the city produces 175 wet tons of biosolids a day. This material is a resource but there must be a system in place for its reuse. There is only storage for approximately 24 hours worth of biosolids production at the City's wastewater treatment plants.
   
   C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
      This service has always been provided through a contract. The previous contract number was 68412 with PSC number 44486-1819.
   
   D. Will the contract(s) be renewed?
      Yes.
   
   E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why.
      not applicable

2. Reason(s) for the Request
   A. Indicate all that apply (be specific and attach any relevant supporting documents):

   -22-
Services that require resources that the City lacks (e.g., office space, facilities or equipment with an operator).

B. Explain the qualifying circumstances:
This service requires permits that can take multiple years to secure, agreements with farmers and ranchers, heavy equipment and facilities in Solano County to store this equipment. The Wastewater Enterprise does not have these resources necessary for the execution of the services this contract provides.

3. Description of Required Skills/Expertise
A. Specify required skills and/or expertise: This contract requires an agronomist with experience in biosolids application, biosolids permitting and biosolids regulations. Agronomic rates must be calculated for each field. Operations must abide by all regulatory requirements. This contract also requires heavy equipment associated with the application of biosolids including front loaders, tractors, biosolids spreaders, and discs.

B. Which, if any, civil service class(es) normally perform(s) this work? none

C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: Yes, contractor provides permitted land for biosolids reuse, and heavy equipment associated with the application of biosolids including front loaders, tractors, biosolids spreaders, and discs.

4. If applicable, what efforts has the department made to obtain these services through available resources within the City?
Wastewater Enterprise has not made an effort to obtain these services through available resources within the city.

5. Why Civil Service Employees Cannot Perform the Services to be Contracted Out
A. Explain why civil service classes are not applicable.
The city does not hold any permits for the application of biosolids for agricultural use. These permits are held by the contractor through an agreement with the farms and ranches where biosolids are applied. The city also does not own the equipment necessary for the application and incorporation of biosolids, nor does the city have a facility to store this equipment in Solano County where the work for this contract occurs. There is also no civil service classification for agronomist.

B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain. Agronomist could be adopted as a new civil service class. However the city would still not have the requisite permitting nor have the equipment or agreements with farms and ranches necessary to achieve this scope of work.

6. Additional Information
A. Will the contractor directly supervise City and County employee? If so, please include an explanation.
No.

B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contract? If so, please explain what that will entail; if not, explain why not.
No. The contractor will not train City employees as there are currently no plans for City employees to perform this work.
C. Are there legal mandates requiring the use of contractual services?
   No.

D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement.

Type of Service: Biosolids Beneficial Use — Land Application

Funding Source: WWE Biosolids Mgt. Operating Budget
PSC Amount: $2,100,000  PSC Est. Start Date: 04/01/2019  PSC Est. End Date 03/31/2023

1. Description of Work
   A. Scope of Work/Services to be Contracted Out:
      The contractor works with ranchers and farmers to use biosolids as a fertilizer. The contractor secures all necessary permitting required for the use of biosolids as a fertilizer. Annual fees for permitting are paid by the contractor. The contractor manages the agronomic application of biosolids so that nitrogen added to fields does not exceed crop uptake needs. When sufficient biosolids have been added to a field to meet its nitrogen needs, the contractor moves the application operation to a new field. When moving to a new field, the contractor is responsible for coordinating with the trucking contractor for the transportation of biosolids to the new location. The contractor is responsible for ensuring the all county ordinances are followed during the course of operations at each field. This includes the posting of signs, flagging of buffer areas where biosolids are not to be applied, setting up a mobile weather station, a portable toilet and a washdown station for trucks. The contractor is responsible for the spreading and discing (incorporation) of the biosolids on each field. Coordination with the ranchers, farmers, and county is the responsibility of the contractor.

   B. Explain why this service is necessary and the consequence of denial:
      The City's wastewater treatment plants separate solids out from influent and sends them to anaerobic digesters where they are biologically treated. This service is necessary because the resulting material called biosolids, a nutrient rich material is used as a fertilizer. On average the city produces 175 wet tons of biosolids a day. There is only storage for approximately 24 hours' worth of biosolids production at the City's wastewater treatment plants. If this contract is denied, this biosolids material, which is a resource won't be able to be used, unless there is a system in place for its reuse.

   C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
      This service has always been provided through a contract with the Office of Contract Administration.

   D. Will the contract(s) be renewed?
      Yes.

   E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why.
      not applicable

2. Reason(s) for the Request
   A. Indicate all that apply (be specific and attach any relevant supporting documents):

      ☑ Services that require resources that the City lacks (e.g., office space, facilities or equipment with an operator).
B. Explain the qualifying circumstances:
   This service requires permits that can take multiple years to secure, agreements with farmers and ranchers, heavy equipment and facilities in Solano County to store this equipment. The Wastewater Enterprise does not have these resources necessary for the execution of the services this contract provides.

3. Description of Required Skills/Expertise
   A. Specify required skills and/or expertise: This contract requires an agronomist with experience in biosolids application, biosolids permitting and biosolids regulations. Agronomic rates must be calculated for each field. Operations must abide by all regulatory requirements. This contract also requires heavy equipment associated with the application of biosolids including front loaders, tractors, biosolids spreaders, and discs.

   B. Which, if any, civil service class(es) normally perform(s) this work? None

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? Yes, the contractor provides permitted land for biosolids reuse, and heavy equipment associated with the application of biosolids including front loaders, tractors, biosolids spreaders, and discs.

4. If applicable, what efforts has the department made to obtain these services through available resources within the City?
   Wastewater Enterprise has not made an effort to obtain these services through available resources within the city.

5. Why Civil Service Employees Cannot Perform the Services to be Contracted Out
   A. Explain why civil service classes are not applicable.
      The city does not hold any permits for the application of biosolids for agricultural use. These permits are held by the contractor through an agreement with the farms and ranches where biosolids are applied. The city also does not own the equipment necessary for the application and incorporation of biosolids, nor does the city have a facility to store this equipment in Solano County where the work for this contract occurs. There is also no civil service classification for agronomist.

   B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain. Agronomist could be adopted as a new civil service class. However the city would still not have the requisite permitting nor have the equipment or agreements with farms and ranches necessary to achieve this scope of work.

6. Additional Information
   A. Will the contractor directly supervise City and County employee? If so, please include an explanation. No.

   B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contract? If so, please explain what that will entail; if not, explain why not. No. The contractor will not train City employees as there are currently no plans for City employees to perform this work.

   C. Are there legal mandates requiring the use of contractual services? No.

   D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement. No.

   E. Has a board or commission determined that contracting is the most effective way to provide this service? If so, please explain and include a copy of the board or commission action. No.
F. Will the proposed work be completed by a contractor that has a current PSC contract with your department? If so, please explain.
No.

1. **Description of Work**
   A. Scope of Work/Services to be Contracted Out:
      Conduct technical assistance and consulting for City Departments engaged in developing building codes, financing programs, and the design, construction and operation of new buildings, major renovations, tenant improvements and existing buildings where subcontractors for specific areas of expertise are required: research, economic, technical and environmental analyses, energy modeling, green building, LEED (Leadership in Energy and Environmental Design) and GreenPoint Rated consulting, post-occupancy evaluation, policy and program design and implementation support.

   B. Explain why this service is necessary and the consequence of denial:
      SF Environmental Code Chapter 7 requires all municipal construction projects over 5,000 sq. ft. to achieve LEED Gold Certification from the US Green Building Council. SF Green Building Code requires similar environmental standards to be met for construction city-wide. Not all City construction contracts include qualified consultants to perform energy modeling, building commissioning, post-occupancy evaluations, etc., and coordinate the multi-disciplinary effort required to achieve LEED certification. Without this City-wide contract, each department would have to be able to predict precisely which technical service would be needed and contract for the services separately. (See attachment for the full response.)

   C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
      PSC 4130-06/07

   D. Will the contract(s) be renewed?
      Unknown.

   E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why:
      The services will be continuing, as the type of service is required for both municipal and city-wide construction by the SF Environment Code. As long as the code requirements are in place, each
City department with a construction project over 5,000 sq.ft. will need these services. Having a city-wide contract removes the need for each City department to predict precisely which technical service will be needed and contract for the services separately. The services will be intermittent, depending on the needs of City departments.

2. **Reason(s) for the Request**
   
   A. Display all that apply

   ☑ Short-term or capital projects requiring diverse skills, expertise and/or knowledge.

   Explain the qualifying circumstances:
   The services are available for all City departments with construction projects of 5,000 sq.ft. or more. Such projects are with different departments at different times. The services include technical and environmental analyses, energy modeling and LEED and Green Point Rating consulting and are provided by architects, engineers and LEED and Green Point Rated practitioners.

   B. Reason for the request for modification:
   Extend term to allow for completion of current projects

3. **Description of Required Skills/Expertise**
   
   A. Specify required skills and/or expertise: Applicants shall be licensed engineering or architectural firms. Applicants shall provide architects, engineers, analysts, experienced LEED and GreenPoint Rated practitioners, LEED Accredited Professionals and Certified Green Building Professionals designated for appropriate tasks within the described scope of work. Applicants shall have experience and expertise in multi-disciplinary project coordination and communication, and LEED and GreenPoint Rated documentation and certification. (See attachment for the full response.)

   B. Which, if any, civil service class(es) normally perform(s) this work? 5640, Environmental Spec; 5642, Sr. Environmental Spec;

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: No

4. **If applicable, what efforts has the department made to obtain these services through available resources within the City?**
   Not Applicable

5. **Why Civil Service Employees Cannot Perform the Services to be Contracted Out**
   
   A. Explain why civil service classes are not applicable.
   
   This work requires a multiple-member team, with a unique combination of experience, skills and expertise, to work at numerous locations simultaneously at all types of hours and days to meet the demands of program implementation.

   B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain: It would not be practical to adopt a new civil service class since the work needs to be accomplished at an intensive and
varying level, at multiple locations simultaneously, for multiple City Departments, up to hundreds of hours a month, for a limited period of time.

6. **Additional Information**
   A. Will the contractor directly supervise City and County employee? If so, please include an explanation.
      No.

   B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contract? If so, please explain what that will entail; if not, explain why not.

   C. Are there legal mandates requiring the use of contractual services?
      No.

   D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement.
      No.

   E. Has a board or commission determined that contracting is the most effective way to provide this service? If so, please explain and include a copy of the board or commission action.
      No.

   F. Will the proposed work be completed by a contractor that has a current PSC contract with your department? If so, please explain.
      Mod will allow completion of current projects & add. service

7. **Union Notification**: On 01/09/20, the Department notified the following employee organizations of this PSC/RFP request:

      These services have been provided from 2007 to the present through a similar contract under PSC approval #4009-07/08.

   D. Will the contract(s) be renewed?
      Unknown.

   E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why.

C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: No

4. If applicable, what efforts has the department made to obtain these services through available resources within the City?
The Department has worked with Public Works and other City departments on many projects to promote self performing these services. In some cases, LEED administration can be performed in-house, but management decisions often dictate the use of a consultant. Energy modeling by in-house mechanical engineers has been attempted on some projects with limited success, (See attachment for the full response.)

1. Description of Work
   A. Scope of Work/Services to be Contracted Out:
      The Mayor’s Office of Housing and Community Development (MOHCD) is seeking to establish a pool of qualified financial advisors to advise the City on all pertinent issues relating to particular financings and ensure that the City’s transactions meet all applicable standards of competence and fiscal prudence, while adhering to program requirements and affordable housing objectives. The financial advisors will; provide advisory services to competitive sales, negotiated sales, private placements, and management of housing assets and/or bond types (tax bond, revenue bonds, etc.), provide financial advisory services to structuring the City’s affordable housing programs; and provide advisory services for structuring of particularly complex development proposals.

   B. Explain why this service is necessary and the consequence of denial:

The tasks are intermittent and subject to funding fluctuations, because of the intermittent nature of the tasks and the likelihood that there will be time periods when services from financial advisor are not needed.

B. Reason for the request for modification:

Requesting modification to extend the existing end date and increase the PSC amount.

3. Description of Required Skills/Expertise

A. Specify required skills and/or expertise: A qualified consultant must have, complex housing financing and/or management experience including the ability to evaluate the economic feasibility of proposed debt issuances, refunding, or restructuring; experience with housing assistance programs including the ability to assist the City in utilizing available City programs; development of new programs and to provide analytical services to particular financings; and the ability to structure complex multiple funding transactions.

Not Applicable

5. Why Civil Service Employees Cannot Perform the Services to be Contracted Out

A. Explain why civil service classes are not applicable.

B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work?       No

4. If applicable, what efforts has the department made to obtain these services through available resources

1. Description of Work

A. Scope of Work/Services to be Contracted Out:
The Scope of Work consists of four (4) categories of banking and payment services: (1) Enrollment Services to help San Francisco Public Utilities Commission (SFPUC) increase customer enrollment in Electronic Bill Presentment and Payment (EBPP); (2) EBPP Services to help SFPUC increase its customer use of EBPP through a bank or non-bank EBPP service; (3) EBPP Services to help SFPUC increase its customer use of EBPP through its own SFPUC centered/branded EBPP service; and (4) Other options to deliver EBPP such as ATMs, Kiosks, Mobile Device, In person cash, check and/or card payments, and others.

B. Explain why this service is necessary and the consequence of denial:
SFPUC currently offers various payment options to its customers including EBPP. Approximately 20% of SFPUC customers receive their water and sewer bills electronically and over 50% of SFPUC customers pay their water and sewer bills electronically or through other options such as direct debit, home banking, in person, etc. Further, SFPUC has plans to change its billing frequency from bi-monthly to monthly. For this reason, it is critical that increased EBPP service and expanded payment options are available to SFPUC customers.

C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
Similar services have been provided in the past via PSC No. 3050-08/09 (CS-9601).

D. Will the contract(s) be renewed?
No.
E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why: The initial term of the current contract is for five years with the option to extend it for up to four years. SFPUA continues to increase its adoption rate of the various payment options and continues to receive excellent service from its contractor. For this reason, we respectfully request to extend the term for another four years.

2. **Reason(s) for the Request**
   A. Display all that apply

   ☑ Short-term or capital projects requiring diverse skills, expertise and/or knowledge.

   ☑ Regulatory or legal requirements, or requirements or mandates of funding source(s) which limit or preclude the use of Civil Service Employees. Include a copy of the applicable requirement or mandate.

Explain the qualifying circumstances:

Expertise in designing, developing/engineering, implementing, operating and servicing a complete, internet-based EBPP solution, and associated support services. In addition, the service requires expertise in payment processing and private data management. Federal and state regulations/laws require extremely careful management of private customer data (including bank account and credit/debit card information) and outsourcing this responsibility to a qualified, audited third party is considered a "best practice" by industry experts.

B. Reason for the request for modification:
   To extend the term for another four (4) years and increase the current not-to-exceed amount. SFPUA continues to increase its adoption rate of the various payment options and continues to receive excellent service from its contractor. For this reason, we respectfully request to extend the term for another four years.

3. **Description of Required Skills/Expertise**
   A. Specify required skills and/or expertise: Expertise in designing, developing/engineering, implementing, operating and servicing a complete, internet-based EBPP solution, and associated support services. In addition, the service requires expertise in payment processing and private data management.

   B. Which, if any, civil service class(es) normally perform(s) this work? none

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: Yes, contractor will host, manage and control its EBPP service at its own facility. Federal and state regulations/laws require extremely careful management of private customer data (including bank account and credit/debit card information) and outsourcing this responsibility to a qualified, audited third party is considered a “best practice” by industry experts.

4. **If applicable, what efforts has the department made to obtain these services through available resources within the City?**
   Not Applicable

5. **Why Civil Service Employees Cannot Perform the Services to be Contracted Out**
A. Explain why civil service classes are not applicable.
Civil Service Classes are not applicable since presently no persons or CCSF agencies have designed, built and operated an EBPP service. EBPP product development, engineering, operation and customer support requires very unique skill sets with knowledge not available within CCSF.

B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain: No. EBPP requires very specialized engineering, operation and support skills. Developing the skills internally would simply not be practical; cost-effective or in the best interest of SFPUC or CCSF.

6. Additional Information
A. Will the contractor directly supervise City and County employee? If so, please include an explanation.
No.

B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contact? If so, please explain what that will entail; if not, explain why not.
Training will not be provided.

C. Are there legal mandates requiring the use of contractual services?
No.

D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement.
No.

E. Has a board or commission determined that contracting is the most effective way to provide this service? If so, please explain and include a copy of the board or commission action.
No.

F. Will the proposed work be completed by a contractor that has a current PSC contract with your department? If so, please explain.
No.

1. Description of Work

A. Scope of Work:
The Scope of Work consists of four (4) categories of banking and payment services: (1) Enrollment Services to help San Francisco Public Utilities Commission (SFPUC) increase customer enrollment in Electronic Bill Presentment and Payment (EBPP); (2) EBPP Services to help SFPUC increase its customer use of EBPP through a bank or non-bank EBPP service; (3) EBPP Services to help SFPUC increase its customer use of EBPP through its own SFPUC centered/branded EBPP service; and (4) Other options to deliver EBPP such as ATMs, Kiosks, Mobile Device, In person cash, check and/or card payments, and others.

B. Explain why this service is necessary and the consequence of denial:
SFPUC currently offers various payment options to its customers including EBPP. Approximately 20% of SFPUC customers receive their water and sewer bills electronically and over 50% of SFPUC customers pay their water and sewer bills electronically or through other options such as direct debit, home banking, in person, etc. Further, SFPUC has plans to change its billing frequency from bi-monthly to monthly. For this reason, it is critical that increased EBPP service and expanded payment options are available to SFPUC customers.

C. Has this service been provided in the past. If so, how? If the service was provided via a PSC, provide the most recently approved PSC # and upload a copy of the PSC.
Similar services have been provided in the past via PSC No. 3050-05/09 (CS-9601).

D. Will the contract(s) be renewed? Maybe for an optional two year extension.

2. Union Notification: On 08/06/15, the Department notified the following employee organizations of this PSC/RFP request: all unions were notified

3. Description of Required Skills/Expertise
   A. Specify required skills and/or expertise:
      Expertise in designing, developing/engineering, implementing, operating and servicing a complete, internet-based
      EBPP solution, and associated support services. In addition, the service requires expertise in payment
      processing and private data management.

   B. Which, if any, civil service class(es) normally perform(s) this work? none,

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:
      Yes, contractor will host, manage and control its EBPP service at its own facility. Federal and state
      regulations/laws require extremely careful management of private customer data (including bank account and
      credit/debit card information) and outsourcing this responsibility to a qualified, audited third party is considered a
      "best practice" by industry experts.

4. Why Classified Civil Service Cannot Perform
   A. Explain why civil service classes are not applicable:
      Civil Service Classes are not applicable since presently no persons or CCSF agencies have designed, built and
      operated an EBPP service. EBPP product development, engineering, operation and customer support requires
      very unique skill sets with knowledge not available within CCSF.

   B. Would it be practical to adopt a new civil service class to perform this work? Explain.
      No. EBPP requires very specialized engineering, operation and support skills. Developing the skills internally
      would simply not be practical, cost-effective or in the best interest of SFPUC or CCSF.

5. Additional Information (if "yes", attach explanation) YES NO
   A. Will the contractor directly supervise City and County employee?
      □ □

   B. Will the contractor train City and County employee?
      □ □

   C. Are there legal mandates requiring the use of contractual services?
      □ □

   D. Are there federal or state grant requirements regarding the use of
      contractual services?
      □ □

   E. Has a board or commission determined that contracting is the most effective
      way to provide this service?
      □ □

   F. Will the proposed work be completed by a contractor that has a current PSC
      contract with your department?
      □ □

1. Description of Work

A. Scope of Work/Services to be Contracted Out:

Therapeutic apheresis is a procedure in which the patient’s blood is collected using automated FDA approved devices, separated into its components (RBCs, WBCs, Platelets and/or plasma) and filtered. The suspected pathologic component is discarded, and the remaining components are returned to the patient along with replacement fluids. Auto transfusion services are used in an effort to reduce allogeneic (blood from donor) blood transfusion. It is indicated in a variety of surgical procedures whenever major blood loss is anticipated and it is the only acceptable method of transfusion for Jehovah’s Witness patients because blood remains in continuity within the auto-transfusion circuit.

B. Explain why this service is necessary and the consequence of denial:
Over the years an increasing number of patients now seen at San Francisco General Hospital Medical Center (SFGH) require this service. In the past, requests for these services were extremely rare, since this type of service was provided by dialysis centers. This is no longer the practice, because the centers do not have enough slots to accommodate this less restrictive form of dialysis. Delaying therapeutic apheresis services for a patient worsens the condition and eventually full dialysis is required. SFGH has never provided therapeutic apheresis nor dialysis services. The apheresis equipment is costly and the training extensive. With the unpredictable demand for these services and the need for timely treatment critical, the current practice of providing the services through an as-needed mobile vendor is the optimal way to deliver the services, and forestall the need for full dialysis treatment for patients.

C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
Services have been provided in the past through earlier PSC request. See 4096 05-06

D. Will the contract(s) be renewed?
Yes

E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why:
The current contract is ending and the Department is conducting an RFP for these services. The RFP is currently planned to include an anticipated contract term to a maximum of 8 years, 07/01/20-06/30/2028.

2. **Reason(s) for the Request**
A. Display all that apply

☑ Services required on an as-needed, intermittent, or periodic basis (e.g., peaks in workload).

☑ Services that require resources that the City lacks (e.g., office space, facilities or equipment with an operator).

Explain the qualifying circumstances:
These specialized blood filtration services are needed only intermittently for individual patients, and requires specially trained personnel and equipment not available at Zuckerberg San Francisco General Hospital.

B. Reason for the request for modification:
The Department is conducting an RFP for these services and wishes to continue using this PSC by extending the duration and increase the amount correspondingly.

3. **Description of Required Skills/Expertise**
A. Specify required skills and/or expertise: Operation of special blood filtration equipment is required, and specific training in using the equipment is required.

B. Which, if any, civil service class(es) normally perform(s) this work? none
C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: Yes, contractor will provide special blood filtration equipment and transfusion equipment, which is not currently possessed by San Francisco General Hospital.

4. **If applicable, what efforts has the department made to obtain these services through available resources within the City?**  
   Not Applicable

5. **Why Civil Service Employees Cannot Perform the Services to be Contracted Out**  
   A. Explain why civil service classes are not applicable.  
      Civil Service classes are not applicable, since service provision is intermittent and on an as-needed basis.

   B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain: No. See 4.A above.

6. **Additional Information**  
   A. Will the contractor directly supervise City and County employee? If so, please include an explanation.  
      No.

   B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contact? If so, please explain what that will entail; if not, explain why not.  
      No training of civil service staff; purpose is blood filtration services.

   C. Are there legal mandates requiring the use of contractual services?  
      No.

   D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement.  
      No.

   E. Has a board or commission determined that contracting is the most effective way to provide this service? If so, please explain and include a copy of the board or commission action.

1. Description of Work
   A. Scope of Work/Services to be Contracted Out:
      Therapeutic apheresis is a procedure in which the patient’s blood is collected using automated FDA approved devices, separated into its components (RBCs, WBCs, Platelets and/or plasma) and filtered. The suspected pathologic component is discarded, and the remaining components are returned to the patient along with replacement fluids. Auto transfusion services are used in an effort to reduce allogeneic (blood from donor) blood transfusion. It is indicated in a variety of surgical procedures whenever major blood loss is anticipated and it is the only acceptable method of transfusion for Jehovah’s Witness patients because blood remains in continuity within the auto-transfusion circuit.

B. Explain why this service is necessary and the consequence of denial:
      Over the years an increasing number of patients now seen at San Francisco General Hospital Medical Center (SFGH) require this service. In the past, requests for these services were extremely rare, since
this type of service was provided by dialysis centers. This is no longer the practice, because the centers do not have enough slots to accommodate this less restrictive form of dialysis. Delaying therapeutic apheresis services for a patient worsens the condition and eventually full dialysis is required. SFGH has never provided therapeutic apheresis nor dialysis services. The apheresis equipment is costly and the training extensive. With the unpredictable demand for these services and the need for timely treatment critical, the current practice of providing the services through an as-needed mobile vendor is the optimal way to deliver the services, and forestall the need for full dialysis treatment for patients.

C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
   Services have been provided in the past through earlier PSC request. See 4096 05-06

D. Will the contract(s) be renewed?
   Yes

E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why:
   The Department expects an intermittent need for these services to continue.

2. **Reason(s) for the Request**

   A. Display all that apply

   ☑ Services required on an as-needed, intermittent, or periodic basis (e.g., peaks in workload).

   ☑ Services that require resources that the City lacks (e.g., office space, facilities or equipment with an operator).

   Explain the qualifying circumstances:
   These specialized blood filtration services are needed only intermittently for individual patients, and requires specially trained personnel and equipment not available at Zuckerberg San Francisco General Hospital.

   B. Reason for the request for modification:
   to extend contract term

3. **Description of Required Skills/Expertise**

   A. Specify required skills and/or expertise: Operation of special blood filtration equipment is required, and specific training in using the equipment is required.

   B. Which, if any, civil service class(es) normally perform(s) this work?  none

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: Yes, contractor will provide special blood filtration equipment and transfusion equipment, which is not currently possessed by San Francisco General Hospital.

4. **If applicable, what efforts has the department made to obtain these services through available resources within the City?**
5. **Why Civil Service Employees Cannot Perform the Services to be Contracted Out**
   
   A. Explain why civil service classes are not applicable.
   
   Civil Service classes are not applicable, since service provision is intermittent and on an as-needed basis.

   B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain:  No. See 4.A above.

6. **Additional Information**

   A. Will the contractor directly supervise City and County employee? If so, please include an explanation.

   No.

   B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contact? If so, please explain what that will entail; if not, explain why not.

   No training of civil service staff; purpose is blood filtration services.

   C. Are there legal mandates requiring the use of contractual services?

   No.

   D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement.

   No.

   E. Has a board or commission determined that contracting is the most effective way to provide this service? If so, please explain and include a copy of the board or commission action.

   No.

   F. Will the proposed work be completed by a contractor that has a current PSC contract with your department? If so, please explain.

1. Description of Work
A. Scope of Work/Services to be Contracted Out:
   For San Francisco General Hospital and Medical Center (SFGHMC) and Laguna Honda Hospital (LHH),
   provide off-site storage and retrieval services through a combination of scheduled and stat deliveries,
   year-round, twenty-four hours a day, seven days-a-week including holidays. This PSC is requested for
   five years or more as the Department expects the need for these services to continue and funding to
   be available. The services are critical to maintaining appropriately secure and accurate medical records
   and maintaining the documentation needed for treatment, evaluation, billing, and legal purposes.

B. Explain why this service is necessary and the consequence of denial:
   SFGHMC and LHH do not have the on-site storage capacity needed for their large volume of medical
   records. They also do not have access to reliable records storage facilities that are strategically located
   within the immediate area to assure emergency provision of records in the event of catastrophic or
   public emergency, such as an earthquake. Denial would put SFGHMC and LHH in noncompliance with
   the State of Joint Commission on the Accreditation of Health Organizations (JCAHO), jeopardizing
   accreditation and operations of the Department's medical care facilities.

C. Has this service been provided in the past? If so, how? If the service was provided under a previous
   PSC, attach copy of the most recently approved PSC.
   4152-09/10

D. Will the contract(s) be renewed?
   Yes, if funding is available.

E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an
   existing PSC by another five years, please explain why:
   The current contract is ending and the Department is conducting an RFP for these services. The
RFP is currently planned to include an anticipated contract term to a maximum of 10 years, 07/01/19-06/30/2029.

2. **Reason(s) for the Request**
   A. Display all that apply

   ☑ Services that require resources that the City lacks (e.g., office space, facilities or equipment with an operator).

   Explain the qualifying circumstances:
   High volume of records and not enough space to store onsite

   B. Reason for the request for modification:
   The Department is conducting an RFP for these services and wishes to continue using this PSC by extending the duration and increasing the amount correspondingly.

3. **Description of Required Skills/Expertise**
   A. Specify required skills and/or expertise: Understanding of the needs of SFGHMC and LHH for continual records storage and retrieval management services, methodologies and protocols pertaining to storage tracking, retrieval, and current status of records. Must also have the ability to deliver required records in less than an hour, and in the event of public emergency and/or disaster. 24-hour, 365-day year access to services is a requirement.

   B. Which, if any, civil service class(es) normally perform(s) this work? 2110, Medical Records Clerk; 2736, Porter;

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: Yes, vendor must possess a facility for physical storage of medical records that is safe from natural catastrophes and man-made disasters. The Department does not have such facilities.

4. **If applicable, what efforts has the department made to obtain these services through available resources within the City?**
   Not Applicable

5. **Why Civil Service Employees Cannot Perform the Services to be Contracted Out**
   A. Explain why civil service classes are not applicable.
   The nature of the services requires both facilities and operations for the storage services as described above, so utilization of civil service classes alone would not be sufficient.

   B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain: No, the classifications that might be used to perform such services already exist.

6. **Additional Information**
   A. Will the contractor directly supervise City and County employee? If so, please include an explanation.
   No.
B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contract? If so, please explain what that will entail; if not, explain why not. Services under this PSC do not include training.

C. Are there legal mandates requiring the use of contractual services? 
No.

D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement.
No.

E. Has a board or commission determined that contracting is the most effective way to provide this service? If so, please explain and include a copy of the board or commission action.

1. Description of Work
   A. Scope of Work/Services to be Contracted Out:
   Operate a shuttle service from Civic Center BART station, Balboa Park BART station, and possibly San Bruno BART station to the San Bruno Jail Facility. The shuttle service will operate on weekends and pre-selected Holidays from 7:00 am to 2:30 pm. The shuttle service will provide a large bus with the passenger capacity of 29; 1 driver and 28 riders.

   B. Explain why this service is necessary and the consequence of denial:
   The Shuttle service will provide direct transportation to inmate's friends and family to the San Bruno Jail, where a vast majority of current shuttle riders would otherwise have multiple transfers, thus discouraging visitation. Increase visitation promotes improved inmate behavior and reduce recidivism. The denial of this service will lead to increase in bad behavior that can impact the safety of staff working in the jails. In addition, it will lead to an increase in inmate recidivism.

   C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
   PSC #46615-15/16 approved 2/1/2016

   D. Will the contract(s) be renewed?
   The Professional Service Contract is for 3 years with two (2) options to extend terms for a duration of one (1) year. The shuttle service will be evaluated and if the contractor has met the scope of work, it is very likely that the Sheriff's Department will exercise the option to extend terms for one (1) year.
E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why:
The initial term of the contract is 3 years with two options to extend term for 1 year each. The Sheriff's Department intend to exercise the final option to extend the contract term for 1 year to expire on 4/30/2021.

2. **Reason(s) for the Request**
   A. Display all that apply

   - Regulatory or legal requirements, or requirements or mandates of funding source(s) which limit or preclude the use of Civil Service Employees. Include a copy of the applicable requirement or mandate.

   Explain the qualifying circumstances:
   Federal Transit Administration's (FTA) Charter Bus Service Rule, which implements 49 U.S.C. 5323(d), protects private charter operator from unauthorized competition from FTA grant recipients. Under #49 Code of Federal Regulations, Section 604.9(a) states as follows: If a recipient desires to provide a charter service using FTA equipment or facilities, the recipient must first determine if there are any private charter operators willing and able to provide the charter which the recipient desires to provide.

   B. Reason for the request for modification:
   The Sheriff's Department propose to exercise the final options, on the TransMetro Contract, to extend term for 1 year to expire 4/31/2021. The additional 1 year shuttle service will increase contract amount from $265,390 to $332,130, an increase of $66,740.

3. **Description of Required Skills/Expertise**
   A. Specify required skills and/or expertise: The contractor must be certified by the State of California as a transportation provider. In addition, the bus operator must have a Class B driver license to operate the 15 to 28 passenger Compressed Natural Gas vehicles. The contractor must affirm that the buses comply with the California Air Resource Board's emissions regulations.

   B. Which, if any, civil service class(es) normally perform(s) this work? 9163, Transit Operator;

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: Contractor will provide Hybrid or Compressed Natural Gas vehicle with a capacity of 15 to 28 passengers.

4. **If applicable, what efforts has the department made to obtain these services through available resources within the City?**
   Not Applicable

5. **Why Civil Service Employees Cannot Perform the Services to be Contracted Out**
   A. Explain why civil service classes are not applicable.
   Federal Transit Administration’s (FTA) Charter Bus Service Rule, which implements 49 U.S.C. 5323(d), protects private charter operator from unauthorized competition from FTA grant recipients. Under #49 Code of Federal Regulations, Section 604.9(a) states as follows: If a recipient desires to provide a charter service using FTA equipment or facilities, the recipient
must first determine if there are any private charter operators willing and able to provide the charter which the recipient desires to provide.

B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain: It would not be practical to adopt a new civil service class to perform charter bus service due to Federal Transit Administration’s Charter Bus Service Rule, which implements 49 U.S.C. 5323(d), protects private charter operators from unauthorized competition from Federal Transit Administration grant recipient.

6. Additional Information
   A. Will the contractor directly supervise City and County employee? If so, please include an explanation.
      No.
   
   B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contact? If so, please explain what that will entail; if not, explain why not.
      The Sheriff's Department does not possess the required State Licensing or resources to participate in a training program.
   
   C. Are there legal mandates requiring the use of contractual services?
      Federal Transit Administration's (FTA) Charter Bus Service Rule, which implements 49 U.S.C. 5323(d), protects private charter operators from unauthorized competition from FTA grant recipients.
   
   D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement.
      No.
   
   E. Has a board or commission determined that contracting is the most effective way to provide this service? If so, please explain and include a copy of the board or commission action.
      No.
   
   F. Will the proposed work be completed by a contractor that has a current PSC contract with your department? If so, please explain.
      Transmetro, Inc., the incumbent vendor, will provide the service.

1. Description of Work
A. Scope of Work/Services to be Contracted Out:
This project will convert a large volume of paper case folders to indexed electronic document images ready for upload, using the Kofax Capture XML import connector. All scanned documents will be indexed and released into the Enterprise Content Management System (ECMS), Open Text Content Servicer for the San Francisco Human Services Agency (HSA), Investigations Department.

This project achieves the following goals: multi-user access to case documentation, reduction of individual knowledge dependency (i.e., any worker can work on a case), support for the ability to have satellite office locations, progress toward a paperless environment, reduction in physical storage requirements, and the ability to back-up case files for disaster recovery.

B. Explain why this service is necessary and the consequence of denial:
The timely scanning of sensitive materials reduces the risk of document loss. This service is necessary, as currently, although the files are housed in a City office, there continues to be the risk of losing sensitive materials due to catastrophic events (fire), misplacement, theft, and other manners which would render the materials unavailable. In some cases, there may not be another opportunity to gather additional copies, especially in the case where HSA, Investigations has the original version of the documents. The consequences for denial of this request is continuing exposure to the risk of document loss, coupled with the inability to replace lost documents.
C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC. Services have been provided in the past through earlier PSC request. See 42881 - 17/18

D. Will the contract(s) be renewed?
This contract will not be renewed, as this is a limited duration project.

E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why:

2. **Reason(s) for the Request**
   A. Display all that apply

   ☑ Services that require resources that the City lacks (e.g., office space, facilities or equipment with an operator).

   Explain the qualifying circumstances:
   1. Vendor is needed to provide this service for the short-term project providing digital imaging services, a large amount of paper documents need to be imaged and indexed.
   2. The City lacks the staff to complete the short-term project. The department would have to recruit, hire and train temporary workers who would then be released from employment after the project is completed.

   B. Reason for the request for modification:
   Request to extend PSC Estimated End Date from 12/27/2019 to 03/31/2020 because the project need extra time to complete.

3. **Description of Required Skills/Expertise**
   A. Specify required skills and/or expertise: The vendor provides timely turn-around of digitized documents using a high-volume scanner, quality control and review of scanned images, indexing documents per requirements, provides automated and manual quality control of indexing, and manages the re-assembly of documents for archiving or destruction.

   B. Which, if any, civil service class(es) normally perform(s) this work? 1750, Microphoto/Imaging Technician; 1752, Sr. Microphoto/Imaging Tech.;

   C. Will contractor provide facilities and/or equipment not currently possessed by the City? If so, explain: The project will be completed at the vendor's facilities and will be done using several production-level scanners to image standard and non-standard-size documents, as well as with software to improve and enhance image quality and to index each imaged document to departmental specifications.

4. **If applicable, what efforts has the department made to obtain these services through available resources within the City?**
   Not Applicable

5. **Why Civil Service Employees Cannot Perform the Services to be Contracted Out**
   A. Explain why civil service classes are not applicable.
This is a short-term project and the City does not have the staff and supervisors to manage and organize this intensive effort in the allotted timeframe for the project. The office would have to recruit, hire and train temporary workers in a short period of time and then these workers would be released from employment after the project.

B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain: No, it would not be practical and would not be feasible given the short-term nature of the project.

6. Additional Information
   A. Will the contractor directly supervise City and County employee? If so, please include an explanation.
      No.
   
   B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contract? If so, please explain what that will entail; if not, explain why not.
      No. This is one time only project.
   
   C. Are there legal mandates requiring the use of contractual services?
      No.
   
   D. Are there federal or state grant requirements regarding the use of contractual services? If so, please explain and include an excerpt or copy of any such applicable requirement.
      No.
   
   E. Has a board or commission determined that contracting is the most effective way to provide this service? If so, please explain and include a copy of the board or commission action.
      No.
   
   F. Will the proposed work be completed by a contractor that has a current PSC contract with your department? If so, please explain.
      No.

Subject: Request for 60 days waiver from HSA

Ms. Li,

For the last 3.5 years, HSA has contracted with Ricoh to convert paper case folders to electronic images. The conversion will moves the agency toward a paperless environment, reduces physical storage, and allows multi-user access to the files. The contract originally was approved under one of the continuous PSC’s. However, HSA is ending the use of continuous PSC’s, and is handling new contracts and mod’s through time limited PSC’s.

This modification is to request an additional three months and $11,638 so Ricoh can finish converting the Investigation Unit’s paper files into digital files.

We are respectfully requesting a time waiver from SEIU so that we can finish this work. Below is a summary of the PSC request and modifications that are related to this project with the Investigation Unit:

1. Description of Work

   A. Scope of Work/Services to be Contracted Out:
   This project will convert a large volume of paper case folders to indexed electronic document images ready for upload, using the Kofax Capture XML import connector. All scanned documents will be indexed and released into the Enterprise Content Management System (ECMS), Open Text Content Servicer for the San Francisco Human Services Agency (HSA), Investigations Department.

   This project achieves the following goals: multi-user access to case documentation, reduction of individual knowledge dependency (i.e., any worker can work on a case), support for the ability to have satellite office locations, progress toward a paperless environment, reduction in physical storage requirements, and the ability to back-up case files for disaster recovery.

   B. Explain why this service is necessary and the consequence of denial:
   The timely scanning of sensitive materials reduces the risk of document loss. This service is necessary, as currently, although the files are housed in a City office, there continues to be the risk of losing sensitive materials due to catastrophic events (fire), misplacement, theft, and other manners which would render the materials unavailable. In some cases, there may not be another opportunity to gather additional copies, especially in the case where HSA, Investigations has the original version of the documents. The consequences for denial of this request is continuing exposure to the risk of document loss, coupled with the inability to replace lost documents.

   C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
   Services have been provided in the past through earlier PSC request. See 42881 - 17/18
D. Will the contract(s) be renewed?

B. Reason for the request for modification:

A.
