45868 - 19/20	AIRPORT COMMISSION	\$600,000.00	San Francisco International Airport (SFO or Airport) seeks to develop a safety and security strategy to address the increase in people experiencing homelessness at the Airport. The Airport convened a task force to address homelessness at the Airport, and a need for a cohesive plan to guide the Airport's work on homelessness has been identified. There is also a need to complement the current efforts of Airport law enforcement to connect with people experiencing homelessness at the Airport. The Airport is interested in services that connect unsheltered individuals with eligible social services. The primary goal of this proposed work is to develop and implement a plan and a variety of services that will link individuals with services in the surrounding areas in San Mateo County, based on each person's unique needs, and coordinate and partner with San Mateo County to serve clients through their agencies and systems. Though this work, SFO also seeks to collect and analyze data on homeless individuals and services provided to determine trends that might inform programming actions and the Airport's policies and procedures.	August 1, 2020	December 31, 2024	REGULAR
43379 - 19/20	PUBLIC HEALTH	\$1,500,000.00	The contractor will provide a unique cardiac rhythm monitoring device in the form of small adhesive wireless device worn on a patient's chest in an adhesive patch, as well as related data analysis. The patch-monitors provide continuous electrocardiogram (ECG) monitoring, typically for up to 14 days. They replace the traditional cardiac rhythm monitoring device, a small camera-sized device worn by patients around the neck on a cord and connected to silver dollar-sized electrodes attached to the chest. Utilization of these patch-monitors enables either the health care provider or the patient themselves to place the patch-monitor on the patient's chest. After the monitoring period, the contractor analyzes and uploads the results to a secure website, where the the health care provider--the Department of Public Health staff--may view them. The amount of this PSC includes an anticipated expansion of this service, as the Department must increasingly utilize telemedicine services in order to provide appropriate patient care due to the need to shelter-in-place in response to COVID-19.	May 1, 2020	April 30, 2023	REGULAR
43203 - 19/20	AIRPORT COMMISSION	\$150,000.00	San Francisco International Airport (SFO or Airport) and BART coordinate inspection and maintenance services at the Airport BART Station. This work includes the maintenance of structures and guideways in the BART/Airport Rail Transit System (ART) in the following zones: 1) Zone 2 (from the ground level to the underside of the ART level) and 2) Zone 3 (Concourse H from the ground level to the underside of the ART guideway and station). These inspections are conducted on at least an annual basis.	July 1, 2020	June 30, 2024	REGULAR

TOTAL AMOUNT \$2,250,000**CSV**
