2020-12-21

[APPLY](#)

PSC No	Dept Designation	PSC Amount	Description of Work	PSC Estimated Start Date	PSC Estimated End Date	Type of Approval
45125 - 20/21	PUBLIC UTILITIES COMMISSION	\$331,000.00	Inventory Count Services consisting of a full count for three enterprises including Hetch Hetchy Enterprise (Moccasin, In-City), Water Enterprise (Millbrae & Sunol, CDD Main & AWSS) and Wastewater Enterprise locations from 4/1/2021-12/31/2025 for approximate costs of \$331,000. Work includes observing, performing, and/or validating physical inventory counts of various inventory items and comparing them to the Maximo Inventory Tracking System. The analysis, findings and recommendations will be provided in a written report for each warehouse April 1,		December	REGULAR

location. Format for the 2021 31, 2025
 content of such reports
 shall be determined by
 the Financial Reporting
 and Analysis group
 (FR&A). The timely
 submission of all reports
 is a necessary and
 material term and
 condition of this
 Agreement. Full counts
 are required at each
 location. Inventories
 include but not limited to
 the following items: water
 pipes, valves, fittings,
 meters and meter boxes,
 safety gear, electrical
 supplies, switches, power
 poles, fittings, safety
 gear, and sewage
 treatment inventory
 supplies, chains, rotors,
 valves, switches, tubes,
 etc.

Employees that enter
 confined spaces where
 the atmosphere could
 potentially be hazardous
 must wear gas meters to
 monitor the air. Industrial
 Scientific is the sole
 manufacturer of iNet®
 Exchange and iNet®
 Control which are
 automated personal gas
 monitor (PGM)
 management systems that
 work seamlessly with
 Industrial Scientific gas
 meters.
 Mallory Safety sand
 Supply will provide the
 services and manage the

47971 - 20/21	PUBLIC	\$600,000.00	<p>leasing of Industrial Scientific personal gas meters. The contract is for \$550,000 of leased equipment and \$50,000 for technical maintenance services and training. Mallory Safety will manage the iNet® Exchange and iNet® Control systems that include replacement, maintenance, tracking and recordkeeping network to support SFPUC employees that routinely perform dangerous work that requires gas meters. This network also includes automated gas renewals, calibration and sensor data, datalogging captured by a cloud based program that provides both real-time and historical readings of all gas detectors, and a peer-to-peer monitoring network among the meters so everyone connected at a site will be instantly notified of a hazard. Mallory Safety are the only authorized technicians of the Industrial Scientific gas meters in California.</p>	January 1, 2021	December 31, 2024	REGULAR
	UTILITIES COMMISSION					

These services will enable implementation of telehealth services to augment, and, when clinically appropriate, replace patients' in-person, face-to-face visits

47662 - 20/21	PUBLIC HEALTH	\$3,000,000.00	with physicians/healthcare providers, an ability which has become increasingly vital during the COVID-19 pandemic response. Contractor(s) will provide a comprehensive, fully-hosted and integrated software solution, including software and system maintenance, software upgrades, system support, image and video hosting, and services to implement, integrate and support the solution.	December 1, 2020	November 30, 2029	REGULAR
