Commission Hearing Date

APPLY

2021-01-04

PSC No	Dept Designation	PSC Amount	Description of Work	PSC Estimated Start Date	PSC Estimated End Date	Type of Approval
			The San Francisco Department of the Environment (ENV) is a member of Bay Area Regional Energy Network (BayREN). BayREN is a program administrator of California ratepayer funds under the auspices of the California Public Utilities Commission. ENV's role in BayREN is to lead the administration, implementation, and marketing of the BayREN Business energy efficiency rebate program. BayREN Business gives cash rebates			

42629 - 20/21	ENVIRONMENT	\$372,300.00	<p>to contractors for the installation of energy efficient equipment in the nine counties Bay Area. As the lead, ENV must contract with a measurement and data-analytics company to track the effectiveness of the equipment over 24 months, and then calculate the eligible rebate amounts based on the tracking.</p> <p>1) Measure energy consumption (in kilowatt-hour of and therms of natural gas) of the PG&E utility-meters for all projects enrolled in the BayREN Business energy efficiency rebate program.</p> <p>2) Normalize the measurements against exogenous factors such as hourly weather conditions, and other factors approved as prescribed by CalTrack 2.0.</p> <p>3) Calculate the rebate amounts based on the normalized measurements and notify ENV to issue payments to the</p>	December 15, 2020	December 21, 2023	REGULAR

project-installation contractors.

4) Provide ENV with energy savings reports.

5) Provide ENV with as-needed advice and support to recruit more participants into the BayREN Business program.

The qualified firms will provide technical assistance and capacity building services (including but not limited to training programs, individualized coaching and consulting, and/or embedded support) for nonprofit organizations in the areas of nonprofit management, research and data analysis, assessments, report writing and compilation, financial management, governance, leadership development, trauma-informed systems, and racial equity practices.

The proposed work involves the design, fabrication,

REGULAR

40108 - 20/21	MUNICIPAL TRANSPORTATION AGENCY	\$1,500,000.00	<p>installation, and training for specialized machinery necessary to replace the Cable Car cables. In order to replace each of the four cables in the Cable Car system, two separate, specialized reeling machines are required. One machine functions as a rewinder unit in that it collects a damaged and/or old cable, and the other functions as a holdback in that it dispenses a new cable into the system while maintaining tension in the line during the cable replacement procedure.</p>	November 17, 2020	November 17, 2023	REGULAR
