					<p>Scope Change: This request for a modification expands the existing scope of the contract. The original contract was for a Facility Condition Assessment to provide accurate data for capital bond planning purposes. As the Facility Assessment proceeded, and although requested prior to commencement of the assessment, it quickly became clear that the highly detailed data collection required for facility equipment information could not be completed within the time frame required for completion of the assessment for bond planning purposes. As such, the Facility Condition Assessment provides only partial facility equipment information and the detailed information required for equipment assessment and preventative maintenance planning and implementation must still be collected.</p>

While the ZSFG project only affected the ZSFG campus, the SFDPH EHR project will cover all of the Department which includes Laguna Honda Hospital, the primary care clinics, and Jail Health.
