SafeMeasures: The California Department of Social Services provides the Contractor with bi-weekly extracts from the statewide child welfare database. The Contractor is one of two entities who has access to the state's database. SafeMeasures is a tool that supports measurement of both processes and outcomes.</p> <p>B. Structured Decision-Making: The FCS program utilizes an actuarial-based safety assessment tool, Structured Decision-Making (SDM) to improve its understanding of child risk and to improve case decision-making. The Contractor manages the data generated by these assessments and produces an annual management report, which compiles information from child welfare assessments. SDM is a logic tool based on probabilities, statistics, and research on outcomes.</p> <p>C. Ad Hoc Analytics: Using data extracts from SafeMeasures and the Structured Decision-Making tools, the Contractor will provide, on a monthly basis or as requested, ongoing reports related to various outcome measures as identified in the Family and Children Services (FCS) System Improvement Plan, including disproportionality, differential response, standardized assessments, and permanency. The Contractor will also provide comprehensive quarterly reports that include information related to foster care placement patterns, with particular focus on racial disproportion, distance of placement from home, adolescents in placement and length of time in care, children in institutional care, and placement moves.</p> <p>D. On-Site training and coaching to FCS staff, supervisors and managers: The Contractor will provide Safety Organized Practice (SOP) to Domestic Violence (DV) training and coaching for Protective Services Workers, coaches and Protective Service Supervisors. The Contractor will also provide management training for leadership development and implementation of the tools.
